Master Electrician Energy Efficiency (MEEE)

UEENEEK145A - Implement & monitor energy sector environmental & sustainable policies & procedures

Two hands are shown from the wrists up, palms facing each other and fingers pointing upwards, reaching towards the top of the frame. The hands are positioned on either side of a central purple text box. The background is a bright blue sky with soft, white clouds.

The online Master Electrician Energy Efficiency course gives you the flexibility to study in your own time, at your own place.

As well as providing a general introduction to green energy principles it also meets the requirements of the environmental component for the accredited Master Electricians program.

This course offers a wide range of concepts as well as practical considerations for the type of work often encountered by electricians.

Course content

Participants of the MEEE course will learn to prepare, plan, carry out and complete the implementation and monitoring of environmental and sustainable energy management policies and procedures.

This unit forms part of UEE43111 Certificate IV in Energy Efficiency and Assessment.

Course delivery

This course is delivered via online learning with a flexible delivery framework.

Participants should expect to complete the course in under 20 hours.

Cost

ECA members & Master Electricians: \$346 inc GST

Non members: \$446 inc GST

CIRT members may be eligible for a training subsidy from JETCO up to \$1,800 each financial year. To find out more about JETCO training subsidies call 1300 200 123 or e-mail enquiries@cirt.com.au
