

Ranges

down to -60°C

For each application and temperature range the right luminaire!

EYE Lighting is extending its portfolio by offering new ranges for lighting at low temperatures down to -60°C. For each application, we've developed ranges of LED luminaires, working as efficiently as possible within a defined temperature range.

GENERAL LIGHTING

Luminaires for general lighting in cold rooms:

- Bigger than 20m²
- Up to 7m high

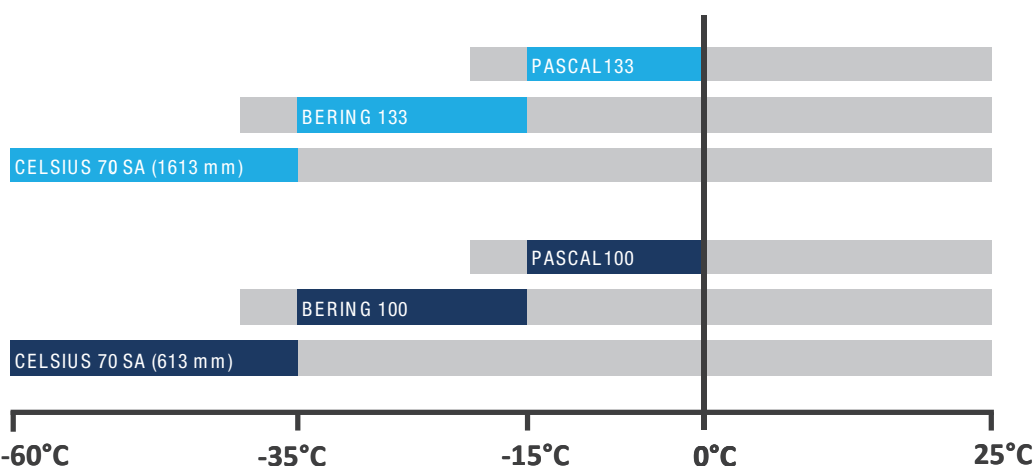

TASK LIGHTING

Compact luminaires for:

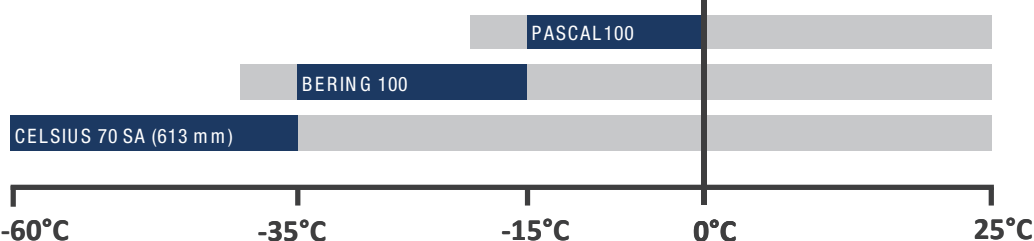

- General lighting in cold rooms up to 20m²
- Freezing tunnel lighting
- Additional task lighting
