

Main catalogue

Marking solutions

A turnkey package for your marking requirements

Mark your panels, cabinets and boxes

Personalize your equipment by creating your own markers. Immediately establish the link with your drawings, electrical diagrams and processes.

Mark your terminal blocks

Take advantage of an offer compatible with terminal blocks' main market players.

Mark your wires and cables

Choose versatility

- Marking can be carried out before or after wiring,
- Secure the attachment and hold of cable sleeves.

Identify the function of your control and signaling equipment

Use a marking system adapted to all environments.

Identify the functions of your sub-assemblies

Standardize your end stop markers and
your adhesive labels to easily identify
your terminal block assemblies
and your equipment.

Identify your equipment

Establish the link with your diagrams and documentation.
Circuit breakers, contactors, modular equipment...

HTP500 Thermal transfer printer

Marking system

The innovation "by ABB"

Speed

- Up to 5,000 markers per hour.
- Feeder designed to automatically print up to 64 marker cards.
- Immediate use without drying time.

Reliability

Thermal transfer technology:

- Excellent printing quality (300 dpi resolution).
- High precision (bar code printing).
- Excellent marking durability in all environments.
- Large printing surface (54 mm x 496 mm).

Automatic feeder

Digital display

Marker card for
ABB terminal blocks

Printing in automatic mode

Marker card for other
terminal block trademarks

Printing in semi-automatic mode

Marker card for wires and cables

Printing in automatic and manual mode

HTP500 Thermal transfer printer

Marking system

Flexibility

- Printing of numerous types of markers and labels for all your electrical installations.
- Simple and user-friendly software.
- Compact and easy to transport.
- Compatible with other markers of the market.

Advanced functionalities

- Data import from CAD software in .xls, .txt and .csv formats.
- Software compatible with most image formats (.jpg, .gif, .bmp, etc.)
- Compatible with all Windows fonts.

Text properties

Printing modes

- Automatic printing
- Semi-automatic printing
- Manual printing

Minimum configuration requirements:

- Operating system: Windows 2000, XP, NT6, Vista.
- CD-Rom drive
- 1 available parallel or USB port
- RAM memory: 512 Mb
- Hard disk: 15 Mb
- Screen resolution: 800 x 600 pixels

Notes

AMS 500 Marking table

Marking system

Technical features

Easy installation

- 1 - Plug in the power supply and the communication cable as shown on the marking table.
- 2 - Insert the CD. The installation program starts automatically.
- 3 - Automatic progress of the installation program.
- 4 - Restart the computer. The system is ready to print.

Protection system to prevent plotter pens from drying out

Top position:
Tightness thanks to the identical design of the pen station and the pen caps.

Intermediate position:
The pen station drops by a few millimeters. The plotter head...

...can move to pick up the pen.

Low position:
The pen station drops fully. The plotter pen is released. This position also enables pens to be put in place manually.

Aluminum frame

Designed for use in workshops and other difficult environments.

Keyboard

Software operating under Windows®

Your final printed markers will look exactly like what you see on the screen. Numerous functions helping to save time and simplify data input. Precise instructions for marker positioning.

Printing of all types of markers

Automatic detection system for the removable support plates.
Easy positioning of the support plates, without error.

Marking table power on / off.

Clear data in the marking table's buffer memory.

Pen station command.

Stop / resume current marking table job.

AMS 500 Marking table

Marking system

AMS software

Software ergonomics similar to many others for quick learning.

Visual symbols with direct access.

Display window.

3 ways of inputting data:

- In sequences (e.g. 101 to 200; A1 to A100; 1, 3, 5, 7, etc...)
- Data import (.txt, .xls)
- Direct input.

Font and size of characters, pen size, speed.

Text orientation

Number of lines per marker

Default font parameters

Once the markers have been selected, a right click opens the data input window.

Last window before printing.

Plotter pen test at print start-up.

Reminder of markers to be positioned.

Printing, speed and pen size options. Printing of a selection only.

Plotter pen position.

File management

Print buttons

Delete, copy, paste

Screen zoom

Help menu

Permanent display of result after printing.

Easy adjustment of marking area

AMS 500 Marking table

Marking system

- Easy to use
- Compatible with most markers on the market
- Many possible character sizes

Plotter accessories:

OUCAM 100 Partial shrinking machine for marking sleeves

Wire identification system

Tyco sleeve after printing
(Not shrunk).

Automatic
process,
easy to use.

Method: partial heat shrinking

This machine is equipped with a heating module that partially shrinks Tyco marking sleeves.

Compatibility with Tyco sleeves:

- With series TMS-SCE, ZH-SCE, D-SCE, RPS.
- For widths before shrinking, from 2.36 to 6.35 mm (3/32 to 1/4 inch).
- Up to 2 pre-cuts.

Specially adapted
for connections
without ferrules,
self-stripping and with spring.

Hold and mobility

The marker sleeve
is held on the wire
but is still able
to slide freely.

RC Markers for terminal blocks

Selection guide for RC markers

The pre-printed RC markers are made of polyamide (flammability: V2)

1 - Remove one of the side strips from the card.

2 - Detach the required strip from the rest of the card.

3 - Snap the first marker into place, hold it and snap into place the rest of the strip by sliding your thumb along it.

Horizontal marking

Vertical marking

RCP5 Markers for terminal blocks

Pivoting card marking

This pivoting card marking allows the marking of terminal block groups. After assembly, the pivoting part allows access to the screws without removing the marker. Compatible with individual RC-type marking for terminal blocks (see assembly below).

Can be fitted onto several adjacent terminal blocks.

Can be snapped into the terminal block marker slots:

MA 2,5/5, M 4/6, M 6/8, M 10/10, M 16/12

Technical features

Material	Flammability	Color	Max. number of characters
		White ☐

Description	Spacing	Type	Order code	Pack ^(ing)
Card with 10 blank markers	5 mm .197"	RCP5	1SNA 103 888 R2300	1

RCP5

EPU Markers for terminal blocks

Protective label

EPU...

Indicates live circuits, prohibiting access to the connection screws.

This accessory also protects connections from dust and from touch.

EPU... can cover 1 single block.

Yellow label with black arrow, to be snapped directly onto the terminal block.

Technical features

Material	Flammability	Color	
		Yellow	

EPU5 - EPU6 - Card of 12 protective labels

Description	Type	Order code	Pack ^(ng)
Card of 12 protective labels for blocks of type MA 2.5/5	EPU5	1SNA 107 033 R1000	1

PEC Marker holder for terminal block identification

Blank markers

These marker holders are slid into the blocks' marker slots, from 5 mm .197" spacing upwards, before the blocks are mounted on the mounting rail.

They enable marking from 0 to 9999 or from 0 to 99999 with minimum stock as they can take 4 or 5 **RPC** markers that are slid into place. The **RPC** markers are delivered in stems of 10 identical markers. Black print on white background.

To use it: Detach the selected marker from the stem, slide it onto the **PEC** marker holder.

Dimensions: 0.5 x 2.5 mm .020" x .098"

RTC Top marking for terminal blocks

CPM + RTC

The **CPM** cover protects the user from accidentally touching the live circuits. It is snapped onto the **FE** (end sections), the **FJ** (middle end sections) and the **SCF**, **SCFT** or **SCFM** separators. It also allows the terminal block to be marked by using a **RTC** blank strip which slides into the cover.
