17 RCSN - Profile

18 SCF - FAS Central hanger

CABLOFIL is a cable management system designed to be :

SAFE

- ➔ Natural cable ventilation
- ➔ Visual control

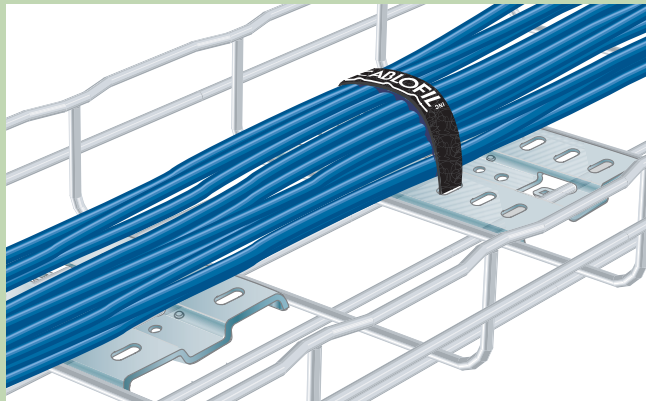

A safe and practical concept

T Welding the lateral wires to the top wires eliminates the risk of damaging cables upon installing and at the same time protects installers from any sharp edges.

OPEN STRUCTURE

- ➔ Flexibility of the installation

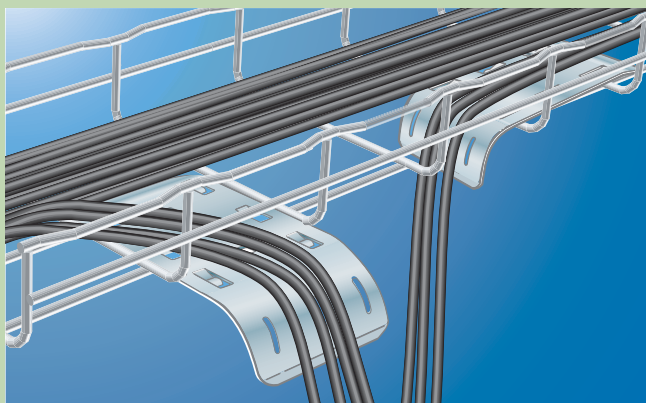

CABLOFIL's transparency makes it easier to identify, arrange and monitor networks. The available space for adding new cables is easy to see and reach.

more performant

DEDICATED ACCESSORIES

- ➔ Specific accessories

To preserve transmission integrity of the cables, CABLOFIL® offers a large range of dedicated accessories for DATA cabling. As well, due to its natural flexibility, CABLOFIL is able to support the bend radius specified by cable manufacturers.
