LEDVANCE® HighBay LED

LEDVANCE® HighBay LED is the new, reliable LED luminaire lighting solution for medium to high ceiling installation requirements in large consumer assembly areas and industrial facilities. The LEDVANCE® HighBay family comprises three luminaires in 120 W (90° beam angle), 150 W (90° beam angle) and 200 W (70° beam angle). This LED high-bay luminaire has a colour temperature of 6500K and an IP65 rating, with aluminum housing and a lens made from robust plastic (PC).

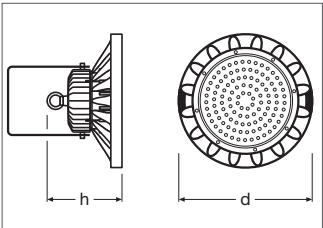

Recommended applications

- General lighting for high ceilings
- Heavy and light industry production
- Assembly lines
- Warehouse & storage facilities
- Commercial assembly halls
- Loading areas
- Train stations and airports
- Malls & supermarkets
- Aircraft hangers

Special benefits

- Available in 3 lumen packages
- IP65 weatherproof design
- IK08 impact protection, vandal resistant
- Long 50,000hr lifetime
- High colour rendering: CRI >80
- High system lumen efficiency >100lm/W
- Standard 6500K CCT
- Aluminum die-cast housing
- Single piece heat resistant optics/lens
- Suspension hook comes standard (chain not included), optional pole mount by screw thread
- Optional surface mounting bracket
- Wide operating temperature range: -40° to 60°
