LED SUPERSTAR GIMBLE DOWNLIGHT

The LEDVANCE LED Superstar Gimble Downlight is available in 7W and 10W versions. With an attractive modern design in white the gimble downlight comes with Plug and Play for quick Installation.

LED SUPERSTAR GIMBLE DOWNLIGHT

The LEDVANCE LED SUPERSTAR Gimble Downlight features a high precision TIR lens which ensures uniform brightness without light scattering or glare. It delivers a concentrated broad 60 degree beam just like the popular halogen MR16 down light. The gimble feature allows adjustment of the beam direction by up to 30° to meet a wide range of general, accent and task lighting requirements in both commercial and residential applications. Available in 70mm and 92mm cut outs and Warm White 3000K or Cool White 4000K colour temperatures it is a stylish direct replacement for halogen MR16 or GU10 lamp based downlights.

FEATURES AND BENEFITS

- Available in 3000K and 4000K
- 7W, 70mm and 10W, 92mm
- Classic modern design
- High lumen output (7W 630lm, 10W 920lm)
