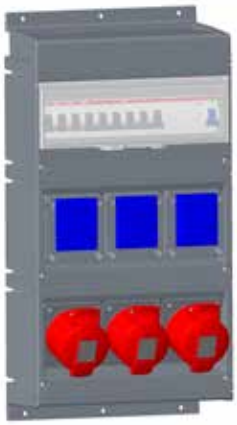
Modular Combi
Plastic

The enclosure is in plastic. Modul Combi Plastic is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A.



Operating voltage 230/400 V ~

Enclosure:	Plastic (PBT Thermoplastic)
Dimensions:	According to table
Outlets:	Combi Plastic is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A. With or without mechanical interlocked IEC outlets.
Cable entry:	4 knock-outs at the top, suitable for 2xØ 40 mm and 2xØ 25 mm At the bottom 3xØ 47 mm
Cable area:	2x16 mm^2 Cu. Designed for looping
Covers:	For MCB/RCD, maximum 13 modules, 2 opened and knock-outs for the rest of the modules row. DIN-rail in bottom for terminals and MCB/RCDs. With a distance at the bottom to allow wiring behind the rail. The lid is pad lockable.

Modular Combi
Metal

The enclosure is in aluminium with front plates of galvanised steel. Modul Combi Metal is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A.

Operating voltage 230/400 V~

Enclosure:	Aluminium with front plates of galvanised steel.
Dimensions:	According to table or customer order
Outlets:	Combi Metal is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A. With or without mechanical interlocked IEC outlets.
Cable entry:	FL21 flange openings at top and bottom
Cable area:	2x16 mm^2 Cu. Designed for looping
Covers:	For MCB/RCD, maximum 12 modules. DIN-rail in bottom for terminals and MCB/RCDs. With a distance at the bottom to allow wiring behind the rail. The lid is pad lockable.

Modular Combi
Parts

Here you can design your installation solution in IP44

Modular combi parts are Easy to assemble and install. It is a flexible and time efficient choice for special applications. Modular combi parts can be assembled to a height of 2 meters and there is a possibility to build on the width by looping if required. Din rail are suitable for 13 modules with a lot of space for your socket outlets protection. There are a large number of socket outlets to choose from our Easy & Safe and Tough & Safe Range depending on which IP degree and material that is required. There is also a possibility to have switched interlocked socket outlet to maximize personal safety. Assembled enclosure is tested and fulfills IP44 protection degree and can handle Socket outlets up to 63A. Enclosure parts in plastic PBT.

Industrial plugs and sockets
Extra low voltage

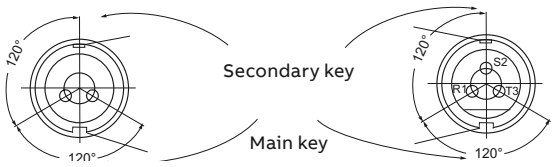
Our extra low voltage range offers Industrial plugs & sockets for protection in areas with a high risk like swimming pools, wandering-lead hand lamps, and other portable appliances for outdoor use. Therefore our range includes products of IP44 and IP67.

Our range of Industrial plugs and sockets for extra low voltage covers voltages up to 50V AC or DC and fulfills IEC 60309.



Extra low voltage is one way to protect from electrical shock. Extra-low voltage is used where the risks are high: swimming pools, wandering-lead hand lamps, and other portable appliances for outdoor use, etc.

The plugs and sockets are intended for an operating voltage not exceeding 50 V. Their rated voltage is 24 V and 50 V for 16 A and 32 A.

Standards
The products are designed according to the following standards: IEC 60 309-1, 60 309-2.

Connections
Screw type terminals.

Non-interchangeability
To achieve non-interchangeability, the plugs and sockets have a main key and a secondary key. The position of the secondary key is indicated by a number followed by a letter h (the hour position or o´ clock position). The number is determined by the position of the secondary key relative to the main key, the position of which is defined as 6 o´clock. Non hour position is given for 20-25 V, 50-60 Hz, since there is no secondary key on these plugs and sockets.
The width of the key is different for 16 A and 32 A plugs and sockets. In addition, there is a color coding system: the cover or front part is violet on 20-25 V and white on 40-50 V plugs and sockets. Plugs and sockets for direct current are grey.

Positions and connections of the contact

Table according to IEC 60309-2
Plugs and sockets for max. 50 V.

Terminals/ Poles	Color code	Voltage	Frequency	Position of secondary key [1]
		V	Hz	
2	Violet	20-25	50-60	(none)
	White	40-50	50-60	12 h
	Green	20-25 and 40-50	100-200	4 h
			300	2 h
			400	3 h
			>400-500	11 h
	Grey		DC	10 h
3	Violet	20-25	50-60	(none)
	White	40-50	50-60	12 h
	Green	20-25 and 40-50	100-200	4 h
			300	2 h
			400	3 h
			>400-500	11 h

1) The position of main key is defined as 6h (6 o´clock)

Industrial plugs and sockets
High current connectors

The right soloution for every application.
The connector product portfolio covers almost all application in the defined high current range.

—

C-Line - 200 A/250 A
The compact C-Line connectors have a robust plastic housing and are perfect for applications with limited space conditions as well as for certain industries (chemistry, food industry). Additional options allow use in a variety of applications.

—

B-Line - 250 A/400 A
The robust B-Line connectors are ideal for applications (tunneling, mining), where high mechanical loads may arise. Furthermore, numerous options, such as the saltwater resistant housing, make the connectors also suitable for marine applications.

—

Connector units 200 A...400 A
To ensure maximum safety for users, we can offer special connector units:
CUMI (connector unit with mechanical interlock)
CUBC (connector unit with block contactor)
CUCB (connector unit with circuit breaker)

High current connectors

In applications where high current connectors are used, safety, quality and reliability are the top priorites for customers.

Connectors for challenging applications
In order to fulfill this task, all these properties were bundled into one product range. Thus, all customers receive a product with the highest degree of performance.

Whether in tunnel construction, where extremely mechanical strength is required or railway applications where vibration-proof is of highest importance, the high current connectors are always the right choice.

Robust housing
The connectors are designed for ambient temperatures from -40 C to +100 °C. This ensures full functionality at low and very high temperatures. This leads to significantly fewer plant failures (reduced risk of overheating) and reduced fire risk. Another important aspect for various industries, such as tunnel construction, construction sites, mines is the high robustness of the connectors. These can withstand loads of up to 2 tonnes.

IK Code
The IK code is a coding system according to IEC/EN 50102 or IEC/EN 62262, which indicates the degreee of protection by a housing against harmful external stresses. Each characteristic number of the IK code represent a stress relief value.

IK code	01	02	03	04	05	06	07	08	09	10
Stress energy joule	0.14	0.2	0.35	0.5	0.7	1	2	4	10	20

The connectors of the C-Line and B-Line are IK 10 classified.

Finger touch protection
Each socket is equipped with a finger touch protection in order to safeguard the user against electrical shocks in the event of unintentional contact with live parts.

IP67/IP55
The connectors are IP67. They are dust-proof and suitable for temporary immersions under water. The connector units are IP55, which means protected against dust and splashing water.
- Always reliable in adverse environmental conditions
- Suitable for high humidity applications
- Low maintenance (no dust/moisture penetration)
- High security ensured at all times

Voltage coding
Arrangement of the PE contact pin and bushing to prevent wrong plugging of various voltages and frequencies after the time setting in accordance with table 104 from EN 60309-2. The standard earthing contact specifies the time setting.

Applications
Connectors for every task
- Tunnel contruction
- Marine
- Railway
- Military
- Industry
- Construction site
- Event technology
- Mining
- Chemistry

Characteristics
- 200 A...400 A
- Robust housing
- 4- and 5-poles
- High reliability
- Compact design
- IP 67
- Finger touch protection
- Designed for high temperatures
- Vibration resistent

Special applications - on request
- Vibration resistants screws
- Seawater resistant housing
- Harnessed connectors

Customized solutions
If standard solutions do not meet all the requiremens of an application, customer-specific solutions are made upon request.

C-Line

The compact C-Line connectors have a robust plastic housing and are perfect for applications with limited space conditions as well as for certain industries (chemistry, food industry). Additional options allow use in a variety of applications.

Technical data	Unit	C-Line

B-Line

The robust B-Line connectors are ideal for applications (tunneling, mining), where high mechanical loads may arise. Furthermore, numerous options, such as the saltwater-resistant housing, make the connectors also suitable for marine applications.

Technical data	Unit	B-Line	
Norminal current	A	250	400
Rated current	A	315	450
Rated voltage	V	1000	
Rated frequency	Hz	50/60	
Withstand voltage (1 Min/50 Hz)	V	4000	
Protection grade		IP67	
Shock resistance		IK10	
Ambient temperature	°C	-40/+100	
Insulation resistance (Phase-phase and phase-earth)	MOhm	>500	
Comparative tracking index of the insert	CTI	>600	
Terminal cross-section (EN 60228 Class 5)	mm^2	70-240	
Max cross section pilot cable, conductor (EN 60228 Class 5)	mm^2	4	
Diameter of cable - separat pilot cable	mm	34-66	
Diameter of cable	mm	8-15

Connector units
with mechanical interlock, CUMI

To ensure maximum safety for users, we can offer special connector units.

Technical data	Unit	C-Line	B-Line
Rated current	A	200 250	250 400
Rated voltage	V	1000	1000
Rated frequency	Hz	50/60	50/60
Withstand voltage (1 Min/50 Hz)	V	4000	4000
Protection grade		IP55	IP55
Shock resistance		IK07	IK07
Ambient temperature	°C	-40/+70	-40/+70
Insulation resistance (Phase-phase and phase-earth)	MOhm	>500	>500
Comparative tracking index of the insert	CTI	>600	>600
Weight 4 poles (3L+PEN)	kg	25.1	45.6
Weight 5 poles (3L+N+PE)	kg	25.3	47.1
Connection bolts for cable shoes		M8	M10
Max cross section pilot cable, conductor (EN 60228 Class 1)	mm^2	4	4
Diameter of cable - normal other diameters on request	mm	20-70	20-70

Connector unit with mechanical interlock

	**Busch-rotary dimmer** [1] [2] [3] [4] [5] [6] [7] [8] [9] **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**2117 U-500**	2CKA006599A2987	1

Busch-rotary dimmer [1])
flush mounted, DALI
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-touch dimmer [1] [2] [3] [4]
flush mounted, RLC, 60-420 W
With light-level memory and intelligence for universal operation.
Selectable Soft-ON/OFF function and memory function.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
With touch control.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control cover with control lamp 6543-xxx-10x.
For Busch-Remote control IR control cover 6066-xxx-10x.
For comfort timer control element 6455-101-500.
For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101.
For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M.
For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx.
Combinable with Busch-Watchdog extension insert 6805 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 420 W
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6593 U-500	2CKA006590A0171	1/10

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In conjunction with 6800-xxx-104 (M) a Soft Off can be adjusted.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-Dimmer®, capacity booster [1]
flush mounted, RLC, 200-315 W
The control is effected by a Busch-Universal master dimmer 6593 U or Busch-Universal rotary dimmer 6591U-101
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Can only be installed in conjunction with a cover plate 2114-xxx and 6541-xxx.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 200 - 315 W/VA

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. Rated power: 3-240 VA (LEDi) Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Outputs: 1x dimming channel Suitable for: 230 V LEDi, typical (leading edge control) Rated power: 3 - 100 VA Suitable for:230 V LEDi, typical (trailing edge control) Rated power: 3 - 240 W Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Blind compact timer** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 45 °C

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Comfort timer control element [1])** For manual and time-controlled switching of blinds, roller blinds, awnings, lighting and other electrical devices. With dusk to dawn program including (Astro-program) Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Combined with Busch-Blind control II insert 6411 U/S-101, sun protection and twilight function. Freely adjustable temperature and brightness-dependent sun protection function. Freely adjustable twilight function. User-adjustable running times for blinds and air conditioning. Programming possible only with control element attached and energized. 6 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. When combined with LED dimmer 6524 U, Busch-Universal master dimmer insert 6593 U or Busch-Memory touch-type controller 6550 U-101, the brightness of the lighting can be adjusted for each ON switching time. For Busch-Blind control II insert 6411 U-101, 6411 U/S-101. For Busch-Universal relay switch insert 6401 U-102. For Busch-Universal master dimmer insert 6593 U. For LED dimmer insert 6524 U and 6526 U.. For Busch-Memory touch-type controller 6550 U-101. Temperature range (Device): 0 °C to 35 °C

Data communication

Product	Article-No.	Order-No.	Pack/Qty
	**WLAN access point, flush-mounted [1] [2]** **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Dimensions: (L x W x D): 80 mm		
	8186/31-101-500	2CKA008100A0359	1

[1] Suitable for cover plate 1803-xxx.
[2] Not to be mounted in SM box 1701-xxx, 1702-xxx, 1703-xxx.

	**Reset magnet** For resetting WLAN access point UP 8186/31-101 and WLAN access point PoE UP 8186/41 to the factory settings. Protection class (Device): IP 20		
	8186/11-500	2CKA008100A0361	1

	**Universal data connection unit, cat. 3 [1]** **1gang** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw. Protection class (Device): IP 20		
	0213-500	2CKA000230A1549	10/100

	**Flush-mounted assembly adapter** For the accommodation of one or two universal modules 0219. For flush-mounted installation. Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. Protection class (Device): IP 20		
	0219/12	2CKA000230A0395	1/10

	**Channel assembly adapter** For the accommodation of one or two universal modules 0219. For channel and under-floor installation. Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. Protection class (Device): IP 20		
	0219/13	2CKA000230A0396	1/10

	**Universal module, RJ 45, cat. 6a iso, shielded [1]** **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Protection class (Device): IP 20		
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

	**Modular-Jack insert** **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22). Protection class (Device): IP 20		
	0210	2CKA000225A0078	10

	**Modular-Jack insert** **8-pole Cat. 3 (AMP-No. 216005-4)** For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22). Protection class (Device): IP 20

	1094 U-500	2CKA001032A0512	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Servo-valves, "closed when de-energized", are necessary for connection to thermostat. e.g. Article No. 6164/10-, see KNX chapter.
[3] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1] [2] [3]
Slide switch
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C

WaveLINE inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**Serien/Jalousieaktor WaveL** • For wireless switching of electrical loads. • For driving and adjusting blinds/shutters and awnings over radio. • Functions via radio control: 2gang switch, blind switch and light scene control. • Functions via extension unit: 2gang switch, blind switch and send radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6705-101-500	2CKA006700A0042	1
	**2-fach Binärein. WaveLINE** • Radio control telegrams are sent when the two extension units are activated with mains voltage (AC 230 V~). • Operation via conventional push button (2020 US/2021/6 UK) possible. • The 2gang binary input has 5 function modes: 1) 2-channel switching 2) 2-channel dimming 3) 1 channel blind 4) Two-channel light scene control 5) Channel 1: Switching ON Channel 2: Continuous switching ON/OFF		
	6725-500	2CKA006720A0008	1
	**Wall-mounted transmitter WaveLINE [1] [2]** **4-channel** 4gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 4 radio channels can be operated or up to 8 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

ZigBee Light Link inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**ZLL-Power supply insert** • With electronic short-circuit protection. • With electronic overload protection. • For ZigBee Light Link control element 6735-xxx, 6736-xxx and 6737-xxx. • Without control cover. • Rated voltage: 230 V~, +10 % / -10 % • Secondary: 5 V-, +5 % / -5 %		
	6710 U-500	2CKA006710A0005	1
	**ZLL-Relay insert** • 3 wire connection (neutral conductor required). • For switching retrofit LED lamps (LEDi). • For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers. • Without control cover.		
	6711 U-500	2CKA006710A0006	1
	**ZLL-Dimmer insert** • Touch dimmer. • For wireless switching and dimming of electrical loads. • 3 wire connection (neutral conductor required). • Optimised for dimming of retrofit LED lamps (LEDi). • For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.		
	6715 U-500	2CKA006710A0007	1
	**ZLL-Plug-in unit Switch** • Plug device for switching electric loads up to 1,380 W/VA. • Control of thermal positioners for heating control possible. • Not for electrical heating devices. • Connected load can be activated/deactivated via micro switch. • Send/receive frequency: 2.4 GHz.		
	6717-84-500	2CKA006710A0008	1

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
Flush-mounted, LED, 2-100 W
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
Via mode switch adjustable between leading edge control and trailing edge control.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (retrofit LED loads).
Nominal power: 10 - 250 W/VA (non-LED loads).
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

	6523 U-102-500	2CKA006512A0335	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W
Very small installation depth: < 20 mm
Without claws.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (leading edge control)
Nominal power: 2 - 400 W/VA (trailing edge control)
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

	6523 UR-103-500	2CKA006512A0345	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

END OF LIFE

Busch-rotary dimmer [1] [2] [3] [4]
flush mounted, R, 60-600 W
With rotary control, 2way On-Off switching and soft-catch.
Leading Edge control.
For incandescent lamps and 230 V tungsten halogen lamps.
With adjustable minimum brightness.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 600 W
IEC 60669-2-1, British Standard EN 60669-2-1

	2250 U-500	2CKA006515A0848	1/10

[6] Should be mounted in a seperate wallbox.

Busch-rotary dimmer, extension [1] [2]
flush mounted
for connection to 6591 U-101,
To be used with Busch-Dimmer®, MDRC 6583.
with soft-catch
A maximum of 5 multi-way extensions can be connected to a 6591U-101,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

	6592 U-500	2CKA006513A0590	1

[1] Control elements 2115-xxx and 6540-xxx.
[2] Required for illuminating the N-connection control element.

Busch-rotary dimmer [1] [2] [3] [4]
flush mounted, 1-10V
With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-dynasty®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1])** **Flush-mounted, DALI, tunable white** For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C		
	2116 U	2CKA006599A3025	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1])** **Flush-mounted, DALI, with internal power supply, tunable white** For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C

ivory white	**6476-82**	2CKA006470A0003	10
	**Relay insert flex, 1gang [1])** 3 wire connection (neutral conductor required). For switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V- LEDi, typical. Rated power: 300 VA Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 2300 VA Temperature range (Device): -25 °C to 55 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mm 		
	64811 U-500	2CKA006800A3042	1/10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Relay insert flex, 2gang [1])** 3 wire connection (neutral conductor required). For switching lighting systems. For switching two independent load circuits. For controlling light and ventilation systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 2 Outputs: 2x Normally open contact, potential-bound Suitable for: 230 V- LEDi, typical. Rated power: 300 VA Suitable for: 230 V incandescent lamps/230 V halogen lamps Rated power: 1840 W Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 1150 VA Temperature range (Device): -25 °C to 55 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mm 		
	64821 U-500	2CKA006800A3045	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**e-contact insert flex, 1gang [1] [2]** 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). For switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V- LEDi, typical. Rated power: 3 - 240 VA Suitable for: 230 V incandescent lamps/230 V halogen lamps Rated power: 10 - 240 W Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 3 - 240 VA Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mm 		
	64814 U-500	2CKA006800A3048	1

[1] Use only dimmable high-voltage LEDs.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6]** **FM, LED, 3-240 VA** 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi) Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Outputs: 1x dimming channel Suitable for: 230 V LEDi, typical (leading edge control) Rated power: 3 - 100 VA Suitable for: 230 V LEDi, typical (trailing edge control) Rated power: 3 - 240 W Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Comfort switch flex sensor** Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. Push switch function possible at all times. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off. Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch-off delay: 1 to 10 min., adjustable. Compatible with all free@home flexTronics inserts. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Please order the respective flush-mounted insert separately. The range specifications refer only to an ambient temperature of 21°C.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Key Switch Insert [1] [2] [3]** **breaking circuit, 1-pole** For profile semi-cylindrical lock. In switched-on and switched-off status the key can be pulled out in the central position, respectively. Delivered without cylindrical lock. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1		
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2] Use the cylindrical lock according to the enclosed drawing.
[3] See profile semi-cylindrical lock.

	**Blind switch insert [1] [2]** **SP, switch** With interlock. Rated voltage: 250 V~ Rated current: 10 AX Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1		
	2000/4 US-500	2CKA001012A2197	10/100
	2020/4 US-500	2CKA001413A1103	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] These blind switches/push buttons safely prevent a switch-over of the running direction being carried out too quickly.

	**Blind switch insert [1] [2]** With rotary knob/switch and push switch. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20 IEC 60669-1, British Standard EN 60669-1		
	DP [3]

	**Blind compact timer** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 45 °C

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Basic blind insert** [1] [2] **2-wire blind insert** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

	**Busch-Blind control II switch insert** [1] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-500-101	2CKA006410A0378	1/10

[1] Compatible with types 6411 U/x.

	**Brightness sensor** For insert 6411U/S-101. With 2 m connecting cable. Measuring range: 15-50,000 lux.		
	6414-101	2CKA006410A0389	1/10

	**Sun sensor** For insert 6411U/S-101. Measuring range: 5-50,000 lux.		
	6482	2CKA006410A0203	1

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-Short-time timer insert** [1] **countdown timer** For time-programmed switching of electrical consumers. With control cover, without cover plate. Minimum timer time: 1 second. Maximum timer time: 9:59:59 hours. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 1x Normally open contact Rated current: 10 A, cos ϕ 1 Rated power: 2300 VA Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1		
	6465 U-101-500	2CKA006410A0393	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
Cover frames:	1gang frame 1721 BS-2xG or Dual Box frame 1722 BSDB-2xG.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Rocker** **with marking** As cover for flush-mounted blind control switch/push switch. For inserts 2000/4 and 2020/4 US.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Standard timer control element [1])** For manual and time-controlled switching of blinds and roller blinds. With dusk to dawn program including (Astro-program) Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Programming possible only with control element attached and energized. 2 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. For basic blind insert 6418 U. Temperature range (Device): 0 °C to 35 °C		
	6456-101	2CKA006410A0398	1/10

Busch-Radio iNet [1] [2] [3] [4]
WLAN Internet radio alarm clock for flush-mounted installation.
For the reception of national and international radio stations via Internet.
Radio station search possible via various genres.
With high resolution graphic display and background illumination.
With external AUX input.
Integrated web-server for configuration and control.
Remote operation with smartphone via browser surface.
UPnP replay function. It is controlled via smartphone.
For mono/stereo operation.
8 radio stations storable.
With time and date display.
With alarm function.
With short-time timer.
With automatic switch-off function (automatic sleep mode).
With extension input to remote-controlled ON/OFF switches.
With integrated WLAN antenna.
WLAN Standards: IEEE 802.11b / IEEE 802.11g and IEEE 802.11n (2,4 GHz).
WLAN safety: WPA / WPA2.
Permitted speaker impedance: 4 - 8 Ohm
Can be installed as 1gang and in multiple combinations.
Rated voltage: 110 - 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 5 °C to 40 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm
Mounting depth: 33 mm

APP

	8216 U-500	2CKA008200A0153	1/10

[1] No claw. Screw-fixing via keyholes.
[2] Matching loudspeaker insert 8223 U.
[3] Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[4] To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Loudspeaker insert [1]
5 cm (2")
With flat plug connector.
With broadband characteristics.
Rated output: 2 W (RMS)
Incl. speaker connection cable.
Frequency response: 200 - 20,000 Hz
Impedance: 4 Ohm
Protection class (Device): IP 20, SELV
Mounting depth: 32 mm

Busch-powerDock Insert [1] [2] [3] [4]
For charging and supplying mobile terminal devices.
With quick charging function for devices compatible with quick-chargeTM.
Makes possible fast charging of the mobile terminal device.
Rated voltage: 100 - 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Suitable for: Apple terminal device
Rated current: 2.1 A
Output voltage: 5 V-
Suitable for: Terminal device with USB-C connection
Rated current: 2.1 A
Output voltage: 5 V-
Suitable for: Terminal device with quick-charge support and USB-C connection and quick-charge TM function.
Rated current: 2 A
Output voltage: 9 V-
Protection class (Device): IP 20, SELV
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 32 mm
Mounting depth: 32 mm

	6473 U-500	2CKA006400A0039	1/10

[1] No claw. Screw-fixing via keyholes.
[2] The USB-C connection of the Busch-powerDock uses the quick charging function according to Qualcomm® Quick chargeTM 2.0 standard.
[3] In rare cases the manufacturers of USB-C terminal devices support the quick-charging function independent of this standard only in case of charging devices that are the same as those of other manufacturers.
[4] In these cases the quick-charging function of the terminal device is not enabled.

Busch-powerDock Charging cradle with Apple lightning connection [1]
For Busch-powerDock insert 6473 U.
For attaching mobile terminal devices with lightning connection.
For iPhone XS Max, iPhone XS, iPhone XR, iPhone X.
For iPhone 8 Plus, iPhone 8.
For iPhone 7 Plus, iPhone 7.
For iPhone SE.
For iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6.
For iPhone 5s, iPhone 5c, iPhone 5.
For iPod touch (6th generation), iPod touch (5th generation), iPod nano (7th generation).
Suitable for use with protective covers certified by Apple.
Temperature range (Device): 5 °C to 35 °C
Dimensions: (L x W x D): 54 mm x 54 mm x 36 mm

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	**Wall-mounted transmitter WaveLINE [1] [2]** **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

WaveLINE inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**RF remote control** • Network-independent radio control. • For switching and dimming. • For controlling blinds and light scenes. • With 3 groups (A, B or C) with 5 pairs of channels. • There are 15 radio channels operated singly or up to 30 light scenes can be called.		
	6780	2CKA006780A0002	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • Functions via radio control: ON/OFF, timer and light scene control. • Functions via the extension unit: ON/OFF, timer and sending a radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6701-101-500	2CKA006700A0040	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For functions ON/OFF, timer and lightscene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx. • For remote control WaveLINE 6780. • Switch-off delay: Adjustable between 10 s to 5 min.		
	6702-500	2CKA006700A0023	1
	**2-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For operation mode 2gang switch, 2 separate outputs. • For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). • For functions: ON/OFF and light scene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx		
	6703-500	2CKA006700A0024	1
	**Dimm Aktor WaveLINE** • For wireless switching and dimming of electrical loads. • For functions ON/OFF, dimming and lightscene control. • With soft ON/OFF function. • With selectable light value storage. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx.		
	6704-500	2CKA006700A0025	1

Busch-dynasty®

ZigBee Light Link inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**Serien/Jalousieaktor WaveL** • For wireless switching of electrical loads. • For driving and adjusting blinds/shutters and awnings over radio. • Functions via radio control: 2gang switch, blind switch and light scene control. • Functions via extension unit: 2gang switch, blind switch and send radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6705-101-500	2CKA006700A0042	1
	**2-fach Binärein. WaveLINE** • Radio control telegrams are sent when the two extension units are activated with mains voltage (AC 230 V~). • Operation via conventional push button (2020 US/2021/6 UK) possible. • The 2gang binary input has 5 function modes: 1) 2-channel switching 2) 2-channel dimming 3) 1 channel blind 4) Two-channel light scene control 5) Channel 1: Switching ON Channel 2: Continuous switching ON/OFF

	**ZLL-Power supply insert** • With electronic short-circuit protection. • With electronic overload protection. • For ZigBee Light Link control element 6735-xxx, 6736-xxx and 6737-xxx. • Without control cover. • Rated voltage: 230 V~, +10 % / -10 % • Secondary: 5 V-, +5 % / -5 %		
	6710 U-500	2CKA006710A0005	1
	**ZLL-Relay insert** • 3 wire connection (neutral conductor required). • For switching retrofit LED lamps (LEDi). • For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers. • Without control cover.		
	6711 U-500	2CKA006710A0006	1
	**ZLL-Dimmer insert** • Touch dimmer. • For wireless switching and dimming of electrical loads. • 3 wire connection (neutral conductor required). • Optimised for dimming of retrofit LED lamps (LEDi). • For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.		
	6715 U-500	2CKA006710A0007	1
	**ZLL-Plug-in unit Switch** • Plug device for switching electric loads up to 1,380 W/VA. • Control of thermal positioners for heating control possible. • Not for electrical heating devices. • Connected load can be activated/deactivated via micro switch. • Send/receive frequency: 2.4 GHz.		
	6717-84-500	2CKA006710A0008	1

KNX control elements

Product	Article-No.	Order-No.	Pack/Qty
	**Control element, 1/2gang [1] [2] multi-function/colour concept** For ABB i-bus® KNX 6120/12-101, 6120/13. With labelling field. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. Push switch function: switching / dimming / blind / sending values / scenes etc. Transparent labelling sheet with standard symbols included in delivery. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: rocker switch left/right Display elements: Two LED per rocker via separate communication object for status (Red/ Green/ OFF) or orientation light. Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm

Notes

pure stainless steel
Lasts a lifetime.

Fascinatingly bold straight lines in a time proof material. It is pure stainless steel. Fingerprints? It is impossible, thanks to the unique finishing. An accord of aesthetics, functions and durability. Absolute quality. Pure stainless steel is simply permanent.

01 Switch/push-switch
02 2gang-1way/2way switch
03 Busch-Blind control switch
04 Busch-Comfort switch
05 20A double pole switch with marking and indicator
Colour: stainless steel

Materials
The series is surface-coated in a special manufacturing process. This means that fingerprints or other greasy spots are reduced to a minimum (anti-fingerprint).

ANTI FINGERPRINT

pure stainless steel

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
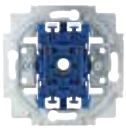
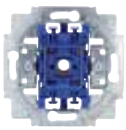
	**Rocker Switch Mechanism** [1] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20 IEC 60669-1		
	1gang 2way [2]		
	2000/6 USGL-500	2CKA001012A2194	10/100
	2gang 1way		
	2000/5 USGL	2CKA001012A1135	10



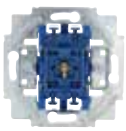
[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

	**Rocker Switch Mechanism, control** [1] [2] [3] With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20 IEC 60669-1		
	1gang 2way with N-terminal		
	2000/6 USK-500	2CKA001022A0659	10/100
	DP, 1gang 1way		
	2000/2 UK	2CKA001022A0656	10



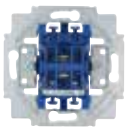
[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

	**Rocker Switch Mechanism, control** [1] [2] [3] **Switch-off and two-way circuit with N-clamp 16 A** With neon lamp. Rated voltage: 250 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	2400/6 USK-500	2CKA001022A0661	10



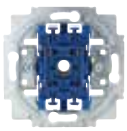
[1] With 1 mA neon lamp.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3] Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-500	2CKA001413A0574	10/100



[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Push-switch mechanism** [1] **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-201	2CKA001413A0483	10



[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Push-switch mechanism** [1] [2] [3] **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3] For relay and touch dimmer applications.

	**Push-switch mechanism** [1] With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Push-switch mechanism** [1] **SP, 1gang 2way** Can be wired for normally open contacts (stand-by current) or normally closed contacts (operating current). With N terminal. Rated voltage: 250 V~ Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-206-500	2CKA001413A1104	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Rocker** For flush-mounted switch 1g1w, 1g2w, intermediate, push switch. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20

[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2116 U	2CKA006599A3025	1

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1])
Flush-mounted, DALI, with internal power supply, tunable white
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

END OF LIFE

Busch-touch dimmer [1] [2]
flush mounted, RL, 25-500 W
With light-level memory and leading edge control.
For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer.
Compatible with control covers 6543-xxx-10x.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Parallel operation of several transformers and/or incandescents lamps possible.
Without control cover.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 25 - 500 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6560 U-101-500	2CKA006560A1207	1/10

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-touch dimmer [1] [2] [3] [4]
flush mounted, RLC, 60-420 W
With light-level memory and intelligence for universal operation.
Selectable Soft-ON/OFF function and memory function.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
With touch control.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control cover with control lamp 6543-xxx-10x.
For Busch-Remote control IR control cover 6066-xxx-10x.
For comfort timer control element 6455-101-500.
For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101.
For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M.
For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx.
Combinable with Busch-Watchdog extension insert 6805 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 420 W
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6593 U-500	2CKA006590A0171	1/10

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In conjunction with 6800-xxx-104 (M) a Soft Off can be adjusted.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty

Busch-Dimmer®, capacity booster [1]
flush mounted, RLC, 200-315 W
The control is effected by a Busch-Universal master dimmer 6593 U or Busch-Universal rotary dimmer 6591U-101
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Can only be installed in conjunction with a cover plate 2114-xxx and 6541-xxx.
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 200 - 315 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6594 U-500	2CKA006590A0172	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Cover plate [1]
with rotary knob, with indication lamp
Elevated knob.
With transparent luminous ring.
For Busch-Dimmer®.

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. In combination with dimmer insert flex: dimming function of lighting and selectable light value storage. With enabling of pre-warning of switch-off for stairwell operation. Compatible with all free@home flex inserts. Adjusting elements on rear side. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. With continuous light/ continuous Off function. With detection display in test mode. Surveillance density: 14 sectors with 56 switching segments. Switch-off delay: approx. 10 sec - 30 min or short-time pulse 1 sec adjustable. For relay insert flex, 1gang, 64811 U. For e-contact insert flex, 1gang, 64814 U. For series relay insert flex, 2gang, 64821 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Mounting height: 22 mm. Control element: 2 controllers for setting the brightness switching threshold and switch-off delay. Detection range: frontal: 12 m, lateral: 12 m, Mounting height: 1.1 m Detection angle: 180 ° Brightness limit value: 5 Lux - 500 Lux Up to daytime operation Mounting height: 0.8 m - 1.2 m Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 35 mm		
stainless steel	**64762-866-500**	2CKA006800A2973	1

[1]) Please order the respective flush-mounted insert separately.
[2]) The range specifications refer only to an ambient temperature of 21°C.
[3]) Surface painted.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty

Basic blind insert [1] [2]
2-wire blind insert
Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5
Rated power: 690 VA
Temperature range (Device): 0 °C to 35 °C

	6418 U-500	2CKA006410A0376	1/10

Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.

[1] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

Busch-Blind control II switch insert [1]
Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500.
Running time: 3 min
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Outputs: 2x Normally open contact
Rated current: 3 A, cos ϕ 0.5
Rated power: 690 VA

Control/Signal outputs: 2
Temperature range (Device): 0 °C to 35 °C

	6411 U-500-101	2CKA006410A0378	1/10

[1] Compatible with types 6411 U/x.

Brightness sensor
For insert 6411U/S-101.
With 2 m connecting cable.
Measuring range: 15-50,000 lux.

	6414-101	2CKA006410A0389	1/10

Sun sensor
For insert 6411U/S-101.
Measuring range: 5-50,000 lux.

Data communication

Product	Article-No.	Order-No.	Pack/Qty
	**WLAN access point, flush-mounted [1] [2]** **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Dimensions: (L x W x D): 80 mm		
	8186/31-101-500	2CKA008100A0359	1

[1] Suitable for cover plate 1803-xxx.
[2] Not to be mounted in SM box 1701-xxx, 1702-xxx, 1703-xxx.

	**Reset magnet** For resetting WLAN access point UP 8186/31-101 and WLAN access point PoE UP 8186/41 to the factory settings. Protection class (Device): IP 20		
	8186/11-500	2CKA008100A0361	1

	**Universal data connection unit, cat. 3 [1]** **1gang** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw. Protection class (Device): IP 20		
	0213-500	2CKA000230A1549	10/100

[1] Suitable for cover plate 1803-xxx.

	**Universal data connection box with down-leading outlet [1]** **2gang internally parallel connected** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw. Protection class (Device): IP 20		
	0214	2CKA000230A0235	10/100
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		

[1] Suitable for cover plate 1803-02-xxx.

	**Universal data connection box with down-leading outlet [1]** **2 x outlets, 8/8-pole** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw. Protection class (Device): IP 20		
	0215	2CKA000230A0243	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.

[1] Suitable for cover plate 1803-02-xxx.

	**Data-connection box, RJ 45, cat. 6a iso, shielded [1]** **1gang** With down-leading outlet and LSA self-cutting clamps. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Up to 500 MHz on all pairs of wires. Suitable for 10-Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws. Mounting depth: 31 mm. Protection class (Device): IP 20		
	0218/11-101	2CKA000230A0409	1/10

Product	Article-No.	Order-No.	Pack/Qty
	**Channel assembly adapter** For the accommodation of one or two universal modules 0219. For channel and under-floor installation. Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. Protection class (Device): IP 20		
	0219/13	2CKA000230A0396	1/10
	**Universal module, RJ 45, cat. 6a iso, shielded [1]** **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Protection class (Device): IP 20		
	0219-101	2CKA000230A0413	1/10

[1] With assembly adapters appropriate for telephone unit cover plates 2539-21x and 1766-xxx.

	**Modular-Jack insert** **6-pole Cat. 3 (AMP-No. 216000-2)** For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22). Protection class (Device): IP 20		
	0210	2CKA000225A0078	10
	**Modular-Jack insert** **8-pole Cat. 3 (AMP-No. 216005-4)** For cover plate 2561-xxx, 2561-02-xxx and insert 1812, 1866 built-in, 1867 built-in. For conductor cross-sections of 0.12 mm² (AWG 26) to 0.35 mm² (AWG 22). Protection class (Device): IP 20		
	0211	2CKA000225A0086	10

Product	Article-No.	Order-No.	Pack/Qty
	**Built-in jack** For potential balancing jack cover plate and installation in cover plates. For devices of 19 mm diameter. Protection class (Device): IP 20		
	0471-0-0037	2CKA000471A0037	10
	**Potential balancing plug** Suitable for plug 2095 UC-212 and built-in jack 0471-0-0037 acc. to German Standard DIN 42801. For potential balancing jack cover plate (connection up to 6 mm² crimped or soldered) Protection class (Device): IP 20		
	0299-0-0032	2CKA000299A0032	10
	**Blank plate** **with metal mounting plate** Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1742-866**	2CKA001710A3751	10
	**Cover plate [1])** As cover for flex outlet, for cords up to 10.3 mm diameter. With strain relief (without terminal block). Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1749-866**	2CKA001710A3752	10

[1]) Cover plate can also be used individually as cover for telephone connector boxes (VDo).

Product	Article-No.	Order-No.	Pack/Qty
	**Cover plate [1])** As cover for universal data connection boxes. Art.-No. 0213 (Cat 3/ISDN), 0216-101, 0218/11-101 (Cat 5e/6 data technology) and comparable types of the company Rutenbeck. For WLAN access points 8186/31 and 8186/41. Brand-Rex (WAEGV 8 EKR/EK). BTR (universal data connecting unit design and IAE design). Telegärtner (AMJ 45, UMJ 45). With down-leading outlet. With labelling field. Size of labelling field: 60 x 9 mm. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1803-866**	2CKA001710A3763	10/100

Product	Article-No.	Order-No.	Pack/Qty
	**Cover plate [1])** **2gang** As cover for universal data connection boxes. Art. No. 0214, 0215 (Cat 3), 0220/12-507, 0221/12-507, 0218, 0217 (Cat 5e/6 data technology) and comparable types of the company Rutenbeck. Brand-Rex (WAEGV 8/8 EKR/EK). AMP (NETCONNECT 5E). BTR (E-DAT C6, E-DAT design, Universal data connecting unit design and IAE design). cti (cti-wire 2.8 Cat.6). Telegärtner (AMJ 45, UMJ 45). With down-leading outlet. With labelling field. Size of labelling field: 60 x 9 mm. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1803-02-866**	2CKA001710A3764	10/100

[1]) For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

Product	Article-No.	Order-No.	Pack/Qty
	**Cover plate** For telephone connection unit. For USB, VGA, HDMI inserts and communication adapter. USB power adapter insert 6472 U-500-101. USB power adapter insert 6475 U-101-500. For loudspeaker connection box. Suitable for part number 0248/0x-101. For data modules. Suitable for Art. No. 0219/12 and 0219/13. For modular outlets with 90° RJ45 outlet from Telegärtner (type MJ and WE). Protection class (Device): IP 20		
stainless steel	**1766-866**	2CKA001710A3765	10/100
	**Cover plate** As cover for telephone connector boxes (VDo). Can be knocked out for single or double connection. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1745-866**	2CKA001710A3766	10
	**Cover plate [1])** **socket outlet** Telephone socket (TDO) Surface painted.		
stainless steel	**1762-866-506**	2CKA001710A4107	10/100

[1]) Suitable insert: TDO 3x 10 OUP (for 1 telephone and 2 auxiliary devices).

Product	Article-No.	Order-No.	Pack/Qty
	**Cover plate [1]) [2])** **as cover for standard Radio/TV/SAT socket outlets** With 2 connectors Acc. to German Standard DIN 45330. Radio/TV/SAT. With M3 fixing screw. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1743-866**	2CKA001724A4271	10/100

[1]) Third opening can be knocked out.
[2]) See inserts for satellite coaxial socket outlets.

Product	Article-No.	Order-No.	Pack/Qty
	**Cover plate [1])** As cover for 4gang Satellite co-axial socket outlet EVU 02 F, GEVU 15 S from Hirschmann. Surface painted. Protection class (Device): IP 20		
stainless steel	**1743-04-866**	2CKA001724A4378	10

[1]) See adapter ring 1746/10x.

	**Cover plate [1])** As cover for 4gang Satellite co-axial socket outlet SAT400/EAS/DC, EAS 405, 413 DAS from Ankaro. Surface painted. Protection class (Device): IP 20		
stainless steel	**1743/10-04-866**	2CKA001724A4369	10

[1]) See adapter ring 1746/10x.

	**Cover plate [1])** **with labelling field** For modular jack with slide entrance. To fit only Art. No. 1810, 1812, 1814, 1816, 1818, 1819 and 1820. Size of labelling field: 60 x 9 mm. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1800-866**	2CKA001710A3767	10

[1]) For compatible lettering software, visit www.BUSCH-JAEGER-labelingtool.com.

	**Cover plate [1])** For 1 modular jack. Suitable for Art. Nos. 0210, 0211 and 0219-101. Without claws. Surface painted. Protection class (Device): IP 20		
stainless steel	**2561-866**	2CKA001753A0404	10

[1]) Surface painted.

	**Cover plate** **with metal mounting plate** For 2 modular jack inserts. Suitable for Art. No. 0210 and 0211. Without claws. Surface painted. Protection class (Device): IP 20		
stainless steel	**2561-02-866**	2CKA001753A0395	10

	**Cover plate** For telecommunication inserts with cover plate 50 x 50 mm. With cover plate 50 x 50 mm, AMP, Brand-Rex, Rutenbeck, BTR, Telegärtner, etc. Surface painted. Protection class (Device): IP 20		
stainless steel	**1746/10-866**	2CKA001710A3768	10

	**Intermediate ring** For attaching cover plates from the Busch-balance® SI range. Surface painted. Protection class (Device): IP 20		
stainless steel	**1747 BSI-866**	2CKA001710A4097	10

Product	Article-No.	Order-No.	Pack/Qty
	**Cover plate** With hinged lid. For telecommunication inserts with cover plate 50 x 50 mm. With cover plate 50 x 50 mm, AMP, Brand-Rex, Rutenbeck, BTR, Telegärtner, etc. Surface painted. Protection class (Device): IP 20		
stainless steel	**1746-866**	2CKA001710A3769	10

	**Intermediate ring with hinged lid [1]) [2])** For accommodating cover plates from the Busch-Duro 2000® SI program and Reflex SI, e.g. socket outlets, equipotential, antenna, and ISDN socket outlets, etc. Delivery without cover plate. With sealing ring. IP 44 only in conjunction with cover frames All Weather 44. Surface painted. Protection class (Device): IP 44		
stainless steel	**2518-WD-866**	2CKA001719A0221	10

[1]) Combinable with cover plate 1746-...-101. 1743-04-..., 1743/10-04-... or data inserts with covers 50 x 50 mm, e.g. from Ackermann, Rutenbeck, BTR, Telegärtner.
[2]) Combinable only with covers for flush-mounted inserts

	**XLR centre plate** As cover for Neutrik plug connectors, type D series. Without claws. Surface painted. Protection class (Device): IP 20		
stainless steel	**2553-866**	2CKA001724A4403	10

	**Cover plate** **with metal mounting plate** For covering universal data communication connectors and circular connectors with screwed plug M 16x0.75 (installable in insert) in accordance with DIN 41524, 41529, 45322, 45327, 45328 and 45329. Knock-out openings 6, 8, 18 mm. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1748-866**	2CKA001710A3760	10

	**Cover plate** **with metal mounting plate** As cover for BNC and TNC sockets. Knock-out openings 6, 8, 18 mm. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20		
stainless steel	**1750-866**	2CKA001710A3770	10

	**Equipotential socket outlet** **2gang** Without claws. For connecting wires up to 1 x 6 mm² and 4 x 2.5 mm². IEC 60601-1:2005; DIN EN 60601 (VDE 0750-1): July 2007 Connection bolts German Standard DIN 42801. Surface painted. Protection class (Device): IP 20

	**Busch-Radio iNet [1]) [2]) [3]) [4])** WLAN Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible via various genres. With high resolution graphic display and background illumination. With external AUX input. Integrated web-server for configuration and control. Remote operation with smartphone via browser surface. UPnP replay function. It is controlled via smartphone. For mono/stereo operation. 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN Standards: IEEE 802.11b / IEEE 802.11g and IEEE 802.11n (2,4 GHz). WLAN safety: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 33 mm APP		
	8216 U-500	2CKA008200A0153	1/10

[1]) No claw. Screw-fixing via keyholes.
[2]) Matching loudspeaker insert 8223 U.
[3]) Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[4]) To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

	**Loudspeaker insert [1])** **5 cm (2")** With flat plug connector. With broadband characteristics. Rated output: 2 W (RMS) Incl. speaker connection cable. Frequency response: 200 - 20,000 Hz Impedance: 4 Ohm Protection class (Device): IP 20, SELV Mounting depth: 32 mm		
	8223 U-500	2CKA008200A0183	1/10

[1]) No claw. Screw-fixing via keyholes.

	**Busch-powerDock Insert [1] [2] [3] [4]** For charging and supplying mobile terminal devices. With quick charging function for devices compatible with quick-chargeTM. Makes possible fast charging of the mobile terminal device. Rated voltage: 100 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Suitable for: Apple terminal device Rated current: 2.1 A Output voltage: 5 V- Suitable for: Terminal device with USB-C connection Rated current: 2.1 A Output voltage: 5 V- Suitable for: Terminal device with quick-charge support and USB-C connection and quick-charge TM function. Rated current: 2 A Output voltage: 9 V- Protection class (Device): IP 20, SELV Temperature range (Device): 5 °C to 35 °C Dimensions: (L x W x D): 71 mm x 71 mm x 32 mm Mounting depth: 32 mm		
	6473 U-500	2CKA006400A0039	1/10

[1] No claw. Screw-fixing via keyholes.
[2] The USB-C connection of the Busch-powerDock uses the quick charging function according to Qualcomm® Quick chargeTM 2.0 standard.
[3] In rare cases the manufacturers of USB-C terminal devices support the quick-charging function independent of this standard only in case of charging devices that are the same as those of other manufacturers.
[4] In these cases the quick-charging function of the terminal device is not enabled.

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-powerDock Charging cradle with Apple lightning connection [1]** For Busch-powerDock insert 6473 U. For attaching mobile terminal devices with lightning connection. For iPhone XS Max, iPhone XS, iPhone XR, iPhone X. For iPhone 8 Plus, iPhone 8. For iPhone 7 Plus, iPhone 7. For iPhone SE. For iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6. For iPhone 5s, iPhone 5c, iPhone 5. For iPod touch (6th generation), iPod touch (5th generation), iPod nano (7th generation). Suitable for use with protective covers certified by Apple. Temperature range (Device): 5 °C to 35 °C Dimensions: (L x W x D): 54 mm x 54 mm x 36 mm

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1] [2] [3]
Sliding switch, 24 V
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 24 V~
Rated current: 1 A
Temperature range (Device): 5 °C to 30 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 52 mmEN 60730-2-9, British Standard EN 60669-2-1

	1096 U	2CKA001032A0485	1
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • Functions via radio control: ON/OFF, timer and light scene control. • Functions via the extension unit: ON/OFF, timer and sending a radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6701-101-500	2CKA006700A0040	1

Product	Article-No.	Order-No.	Pack/Qty
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For functions ON/OFF, timer and lightscene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx. • For remote control WaveLINE 6780. • Switch-off delay: Adjustable between 10 s to 5 min.		
	6702-500	2CKA006700A0023	1

Product	Article-No.	Order-No.	Pack/Qty
	**2-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For operation mode 2gang switch, 2 separate outputs. • For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). • For functions: ON/OFF and light scene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx		
	6703-500	2CKA006700A0024	1

Product	Article-No.	Order-No.	Pack/Qty
	**Dimm Aktor WaveLINE** • For wireless switching and dimming of electrical loads. • For functions ON/OFF, dimming and lightscene control. • With soft ON/OFF function. • With selectable light value storage. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx.		
	6704-500	2CKA006700A0025	1

Product	Article-No.	Order-No.	Pack/Qty
	**Serien/Jalousieaktor WaveL** • For wireless switching of electrical loads. • For driving and adjusting blinds/shutters and awnings over radio. • Functions via radio control: 2gang switch, blind switch and light scene control. • Functions via extension unit: 2gang switch, blind switch and send radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6705-101-500	2CKA006700A0042	1

pure stainless steel

ZigBee Light Link inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**2-fach Binärein. WaveLINE** • Radio control telegrams are sent when the two extension units are activated with mains voltage (AC 230 V~). • Operation via conventional push button (2020 US/2021/6 UK) possible. • The 2gang binary input has 5 function modes: 1) 2-channel switching 2) 2-channel dimming 3) 1 channel blind 4) Two-channel light scene control 5) Channel 1: Switching ON Channel 2: Continuous switching ON/OFF

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	**Wall-mounted transmitter WaveLINE [1] [2] [3]** **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. For LED display WaveLINE 6730-xxx. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Surface painted. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm		
stainless steel	**6731-866-500**	2CKA006730A0041	1/10

	**ZLL-Power supply insert** • With electronic short-circuit protection. • With electronic overload protection. • For ZigBee Light Link control element 6735-xxx, 6736-xxx and 6737-xxx. • Without control cover. • Rated voltage: 230 V~, +10 % / -10 % • Secondary: 5 V-, +5 % / -5 %		
	6710 U-500	2CKA006710A0005	1

	**ZLL-Relay insert** • 3 wire connection (neutral conductor required). • For switching retrofit LED lamps (LEDi). • For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers. • Without control cover.		
	6711 U-500	2CKA006710A0006	1

	**ZLL-Dimmer insert** • Touch dimmer. • For wireless switching and dimming of electrical loads. • 3 wire connection (neutral conductor required). • Optimised for dimming of retrofit LED lamps (LEDi). • For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.		
	6715 U-500	2CKA006710A0007	1

Product	Article-No.	Order-No.	Pack/Qty
	**ZLL-Plug-in unit Switch** • Plug device for switching electric loads up to 1,380 W/VA. • Control of thermal positioners for heating control possible. • Not for electrical heating devices. • Connected load can be activated/deactivated via micro switch. • Send/receive frequency: 2.4 GHz.		
	6717-84-500	2CKA006710A0008	1

	**ZigBee Light Link control element [1]** **1gang** For wireless switching and dimming of electrical loads. For ZigBee Light Link flush-mounted inserts 6710 U, 6711 U and 6715 U. In connection with the ZigBee Light Link flush-mounted inserts 6711 U and 6715 U the top rocker is used to switch or dim the non-ZLL lamps connected to the flush-mounted insert directly. In the case of 6736 and 6737, the other keys can be used for saving, calling and dimming lightscenes. In combination with the ZigBee LightLink-UP insert 6710 U for storing and calling up 2 light scenes or dimming a light scene. For combining with/integrating in other systems which operate with the ZigBee Light Link protocol, such as Philips hue. Push-button function: Switching/dimming/light scenes. With labelling field. Without enclosed labelling sheet. Compatible lettering software is available at www.busch-jaeger-labelingtool.com. Send/receive frequency: 2.4 GHz. Free-field range: approx. 100 m. Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 64 mm x 64 mm x 18 mm

Accessories

Product	Article-No.	Order-No.	Pack/Qty
	**Extension of claws [1])** For the installation of flush-mounted SCHUKO® socket outlets and also switches, push-buttons, etc. and deeply installed flush-mounted boxes. Protection class (Device): IP 20		
	2148	2CKA002148A0120	100

[1]) Not suitable for types 2000/3 US, 2000/6/2 US, 2000/6/6 US-101 and double socket outlets.

	**Braille symbol** self-adhesive (transparent) for cover 2506-xxx Protection class (Device): IP 20		
	light		
	2144 LI	2CKA001714A0295	10/1000
	bell		
	2144 KI	2CKA001714A0296	10/1000
	key		
	2144 TR	2CKA001714A0297	10/1000

	**Braille symbol** **socket outlet** self-adhesive, transparent for SCHUKO® socket outlets with hinged lid 20 EUK-xxx Protection class (Device): IP 20		
	2144 ST	2CKA001714A0298	10/1000

	DIN A 4 labelling sheet [1]) **plastic foil** Suitable for all to be labeled Busch-Jaeger devices. For laser printer. The text of the foil is printed via the Busch-Jeager labeling service. Dimensions: (L x W x D): 297 mm		
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1]) 1 piece = 1 sheet.

	**RC suppressor** For protection against the damage or destruction of electronic devices due to overvoltages. For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.). Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector. Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz		
	6899	2CKA006899A0231	10

Cover frames

Product	Article-No.	Order-No.	Pack/Qty
	**Cover frame [1])** **1gang frame** Material stainless steel. Anti fingerprint. Protection class (Device): IP 20 Dimensions: (L x W x D): 80 mm x 80 mm x 11 mm		
stainless steel	**1721-866K-500**	2CKA001754A4500	10/100

[1]) Suitable for installation in trunking systems with 80 mm conduit.

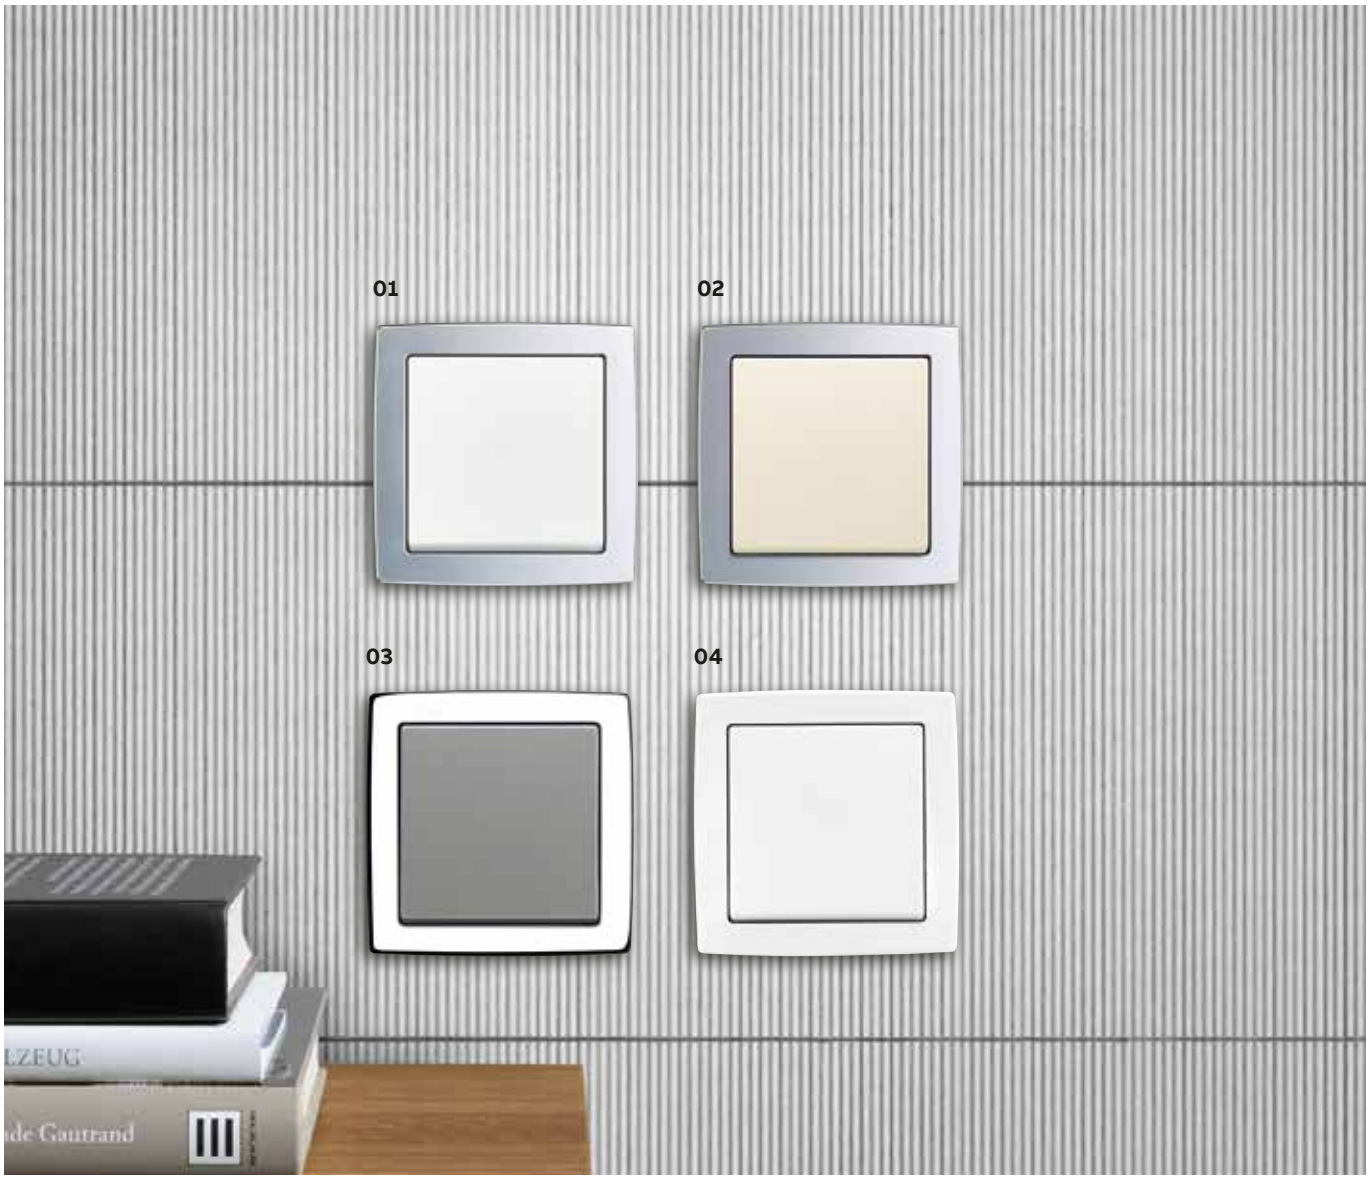
	**Cover frame [1])** **2gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20 Dimensions: (L x W x D): 151 mm x 80 mm x 11 mm		
stainless steel	**1722-866K-500**	2CKA001754A4501	10/100

[1]) Suitable for installation in trunking systems with 80 mm conduit.

	**Cover frame [1])** **3gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20 Dimensions: (L x W x D): 222 mm x 80 mm x 11 mm		
stainless steel	**1723-866K**	2CKA001754A4319	10

[1]) Suitable for installation in trunking systems with 80 mm conduit.

	**Cover frame [1])** **4gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20 Dimensions: (L x W x D): 293 mm x 80 mm x 11 mm		
stainless steel	**1724-866K**	2CKA001754A4320	1



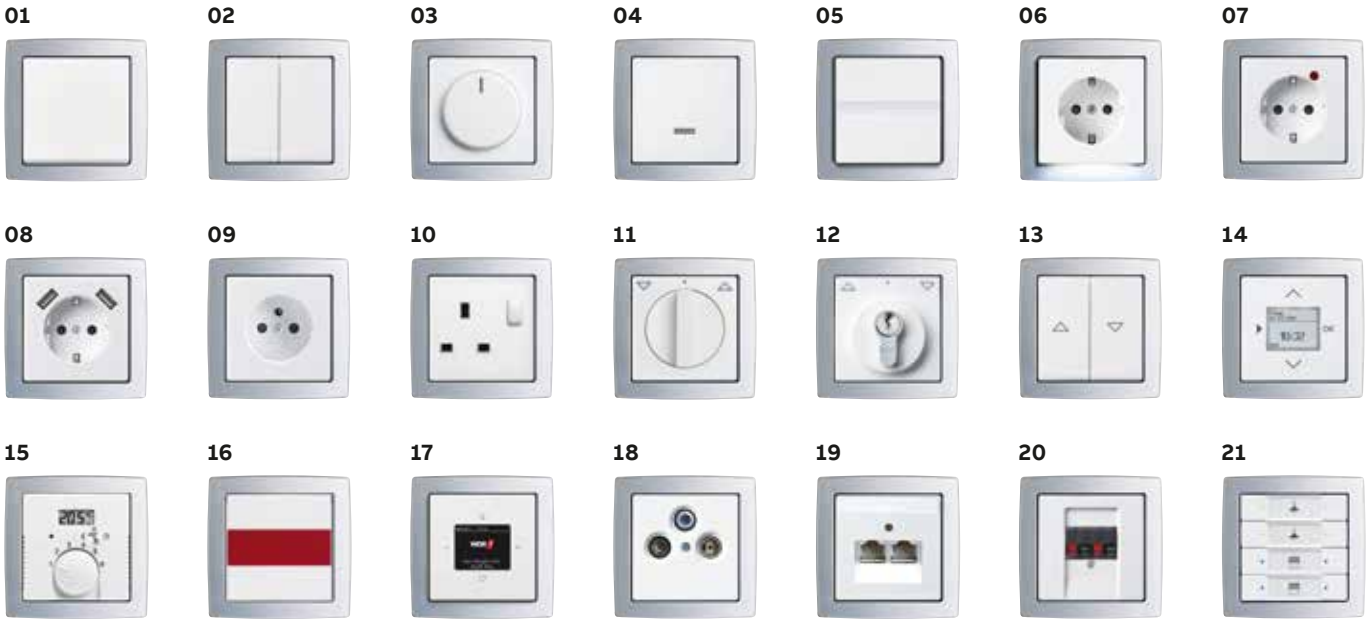
[1]) Suitable for installation in trunking systems with 80 mm conduit.

	**Cover frame [1])** **5gang frame** For vertical or horizontal installation. Material stainless steel. Anti fingerprint. Protection class (Device): IP 20 Dimensions: (L x W x D): 394 mm x 80 mm x 11 mm		
stainless steel	**1725-866K**	2CKA001754A4321	1

[1]) Suitable for installation in trunking systems with 80 mm conduit.

solo®
Touching beauty.

Delicate shades of the cover-plates and cool chrome come together. Natural attraction. They make a harmonious unit. Let solo® switches and socket outlets shine. They will become a significant design piece of any interior. Beauty which touches every day.



01 studio white (similar to RAL 9016) / chrome matt
02 ivory (similar to RAL 9013) / chrome matt

Busch-rotary dimmer [1])
Flush-mounted, DALI, with internal power supply, tunable white
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

	**Blind compact timer** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 45 °C

Product	Article-No.	Order-No.	Pack/Qty
	**Basic blind insert** [1] [2] **2-wire blind insert** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] N-conductor connection required for operation with control cover 6430-7x, illuminated.

[2] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

	**Busch-Blind control II switch insert** [1] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-500-101	2CKA006410A0378	1/10

[1] Compatible with types 6411 U/x.

	**Brightness sensor** For insert 6411U/S-101. With 2 m connecting cable. Measuring range: 15-50,000 lux.		
	6414-101	2CKA006410A0389	1/10
	**Sun sensor** For insert 6411U/S-101. Measuring range: 5-50,000 lux.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**blind insert, 1 gang, 2 way flex** 3 wire connection (neutral conductor required). For the control of roller shutters, blind and awning motors with mechanical or electronic limit switch shut-off. Group formation via extension input possible. Operation also via conventional push buttons (2020 US non-illuminated/2021/6 UK) possible. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL.		
	64831 U-500	2CKA006400A0096	1
	**Extension insert flex** 3 wire connection (neutral conductor required). For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.		
	64891 U-500	2CKA006800A3051	1
	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.		
	64711-500	2CKA006400A0099	1
	**Control element, 1 gang, flex wireless** Tapping control element, 1gang. For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads. Compatible with all free@ home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Timer with Astro function. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.		
	62711-WL-500	2CKA006200A0281	1
	**Control element, 2 gang flex** Tapping control element, 2gang For 2gang rocker 6230-2x-xxx, 6231-2x-xxx, 6232-2x-xxx, 6233-2x-xxx and 6234-2x-xxx. For saving and calling up 2 scenes via the right rocker. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

[1]) Suitable for cover plate 1803-02-xxx.

	**Data-connection box, RJ 45, cat. 6a iso, shielded [1])** **1gang** With down-leading outlet and LSA self-cutting clamps. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Up to 500 MHz on all pairs of wires. Suitable for 10-Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Without claws. Mounting depth: 31 mm. Protection class (Device): IP 20		
	0218/11-101	2CKA000230A0409	1/10

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1] [2] [3]
Actual value indication
With actual value temperature display
Automatic controller calibration
Switch contact opens when the set temperature is reached.
With fixing claws.
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 52 mmEN 60730-2-9, British Standard EN 60669-2-1

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1])
Remote sensor
With remote sensor and thermal feedback
For underfloor heating.
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Remote sensor cable length: 4 m.
Sensor =NTC, 10 kilo-ohm at 25 degrees C.
Adjusting range: +10 to +50° C.
Connecting cable: 1mm² to 2.5 mm²
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 16 A, cos ϕ 1
Dimensions: (L x W x D): 71 mm x 71 mm x 52 mmEN 60730-2-9, British Standard EN 60669-2-1

WaveLINE control elements

Product	Article-No.	Order-No.	Pack/Qty
	**RF remote control** • Network-independent radio control. • For switching and dimming. • For controlling blinds and light scenes. • With 3 groups (A, B or C) with 5 pairs of channels. • There are 15 radio channels operated singly or up to 30 light scenes can be called.		
	6780	2CKA006780A0002	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • Functions via radio control: ON/OFF, timer and light scene control. • Functions via the extension unit: ON/OFF, timer and sending a radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6701-101-500	2CKA006700A0040	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For functions ON/OFF, timer and lightscene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx. • For remote control WaveLINE 6780. • Switch-off delay: Adjustable between 10 s to 5 min.		
	6702-500	2CKA006700A0023	1
	**2-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For operation mode 2gang switch, 2 separate outputs. • For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). • For functions: ON/OFF and light scene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx		
	6703-500	2CKA006700A0024	1
	**Dimm Aktor WaveLINE** • For wireless switching and dimming of electrical loads. • For functions ON/OFF, dimming and lightscene control. • With soft ON/OFF function. • With selectable light value storage. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx.		
	6704-500	2CKA006700A0025	1
	**Serien/Jalousieaktor WaveL** • For wireless switching of electrical loads. • For driving and adjusting blinds/shutters and awnings over radio. • Functions via radio control: 2gang switch, blind switch and light scene control. • Functions via extension unit: 2gang switch, blind switch and send radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6705-101-500	2CKA006700A0042	1

WaveLINE inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**2-fach Binärein. WaveLINE** • Radio control telegrams are sent when the two extension units are activated with mains voltage (AC 230 V~). • Operation via conventional push button (2020 US/2021/6 UK) possible. • The 2gang binary input has 5 function modes: 1) 2-channel switching 2) 2-channel dimming 3) 1 channel blind 4) Two-channel light scene control 5) Channel 1: Switching ON Channel 2: Continuous switching ON/OFF		
	6725-500	2CKA006720A0008	1
	**Wall-mounted transmitter WaveLINE [1] [2]** **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm		
ivory white	**6731-82-500**	2CKA006730A0032	1/10

Product	Article-No.	Order-No.	Pack/Qty
	**ZLL-Power supply insert** • With electronic short-circuit protection. • With electronic overload protection. • For ZigBee Light Link control element 6735-xxx, 6736-xxx and 6737-xxx. • Without control cover. • Rated voltage: 230 V~, +10 % / -10 % • Secondary: 5 V-, +5 % / -5 %		
	6710 U-500	2CKA006710A0005	1
	**ZLL-Relay insert** • 3 wire connection (neutral conductor required). • For switching retrofit LED lamps (LEDi). • For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers. • Without control cover.		
	6711 U-500	2CKA006710A0006	1
	**ZLL-Dimmer insert** • Touch dimmer. • For wireless switching and dimming of electrical loads. • 3 wire connection (neutral conductor required). • Optimised for dimming of retrofit LED lamps (LEDi). • For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.		
	6715 U-500	2CKA006710A0007	1
	**ZLL-Plug-in unit Switch** • Plug device for switching electric loads up to 1,380 W/VA. • Control of thermal positioners for heating control possible. • Not for electrical heating devices. • Connected load can be activated/deactivated via micro switch. • Send/receive frequency: 2.4 GHz.		
	6717-84-500	2CKA006710A0008	1
	ZigBee Light Link wall-mounted transmitter **1-channel** 1gang wall-mounted transmitter independent of mains power supply. For the wireless remote control of other ZigBee Light Link radio components. For saving and calling up 2 light scenes. For dimming a light scene. For combining with/integrating in other systems which operate with the ZigBee Light Link protocol, such as Philips hue. With labelling field. Without enclosed labelling sheet. Compatible lettering software is available at www.busch-jaeger-labelingtool.com. Send/receive frequency: 2.4 GHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery type CR2450 (included in scope of delivery) Battery service life: typically 3 years. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 64 mm x 64 mm x 18 mm

	**Braille symbol** **socket outlet** self-adhesive, transparent for SCHUKO® socket outlets with hinged lid 20 EUK-xxx Protection class (Device): IP 20		
	2144 ST	2CKA001714A0298	10/1000

	DIN A 4 labelling sheet [1]) **plastic foil** Suitable for all to be labeled Busch-Jaeger devices. For laser printer. The text of the foil is printed via the Busch-Jeager labeling service. Dimensions: (L x W x D): 297 mm		
translucent	**1799/02**	2CKA001799A0959	1
transparent	**1799/03**	2CKA001799A0960	1

[1]) 1 piece = 1 sheet.

	**RC suppressor** For protection against the damage or destruction of electronic devices due to overvoltages. For wiring network-interconnected inductivities (e.g.. relay, protection, fluorescent lamps, transformers, etc.). Eliminates functional disturbances on electronic devices, e.g. automatic circuit reclosure (clocking) of a movement detector. Dimensions: diameter 25 mm, length 35 mm, length of the connecting cable approx. 100 mm. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz		
	6899	2CKA006899A0231	10

Cover frames

Product	Article-No.	Order-No.	Pack/Qty

Busch-axcent®

Individuality with an accent.

Express yourself. Enjoy freedom with bright colours and high gloss surfaces. Such choice brings joy. Each room can have accessories in a different colour, each room can have a different personality. Straight lines and bold edges perfectly correspond with the modern style of furnishing. Primary colours can be used as a colour-key for quick and efficient organisation of appliances and equipment.

Busch-axcent®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Comprising Friends of Hue smart switch insert** Comprising 2gang rocker 6736 FoH-8xx for Friends of Hue smart switch. Consisting of 1gang future® linear cover frames. Comprising fixing plate and intermediate ring. Smarter light switches for wireless remote control of Philips Hue lamps For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology.		
	6716 UJ-84-500	2CKA006710A0011	1
	6716 UJ-885-500	2CKA006710A0018	1
	**Friends of Hue smart switch insert** **Wall-mounted transmitter, 2 channel** For Friends of Hue smart switch Rocker 6736 FoH-8xx. Smarter light switches for wireless remote control of Philips Hue lamps For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Maximum safety of function by means of Zigbee-Mesh technology. Requires Philips Hue Bridge (2nd generation; square construction type) and Philips Hue app (Version 3.2 or higher). Combinable with the Busch-Jaeger switch ranges carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent® and future® linear. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Including fixing plate for mounting on smooth walls or on switch boxes.

	**Busch-rotary dimmer [1]) [2]) [3]) [4]) [5]) [6]) [7]) [8]) [9])** **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1]) Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2]) In the case of conventional transformers, take ~20% transformer loss into account.
[3]) In case of electronic transformers, 5 % transformer losses.
[4]) Also applicable for 1gang 2way installations.
[5]) Provided with terminal for net disconnection devices.
[6]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7]) Recommendation: Please use loads and types of one producer.
[8]) The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9]) A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Busch-axcent®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W
Very small installation depth: < 20 mm
Without claws.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (leading edge control)
Nominal power: 2 - 400 W/VA (trailing edge control)

[1] Not suitable with conventional transformers.
[2] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Provided with terminal for net disconnection devices.
[5] Also applicable for 1gang 2way installations.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

END OF LIFE

Busch-rotary dimmer [1] [2] [3] [4] [5]
flush mounted, RLC, 60-420 W
with soft-catch
With intelligence for universal operation.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. Operation via rotary-type remote control 6592 U possible, Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

6591 U-101-500	2CKA006513A0588	1/10

[1] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In the case of conventional transformers, take ~20% transformer loss into account.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[5] Cannot be combined with a 2way switch.

END OF LIFE

Busch-rotary dimmer, extension [1] [2]
flush mounted
for connection to 6591 U-101,
To be used with Busch-Dimmer®, MDRC 6583.
with soft-catch
A maximum of 5 multi-way extensions can be connected to a 6591U-101,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

6592 U-500	2CKA006513A0590	1

[1] Control elements 2115-xxx and 6540-xxx.
[2] Required for illuminating the N-connection control element.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1] [2] [3] [4]
flush mounted, 1-10V
With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-axcent®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1])
Flush-mounted, DALI, with internal power supply, tunable white
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2116/11 U	2CKA006599A3026	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1])
flush mounted, DALI
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
An additional DALI power supply is needed, e.g. by Tridonic, Philips, Helvar or 2117/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2117 U-500	2CKA006599A2987	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1])
flush mounted, DALI, with internal power supply
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2117/11 U-500	2CKA006599A2988	1

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-axcent®

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-touch dimmer [1] [2] [3] [4]** **flush mounted, RLC, 60-420 W** With light-level memory and intelligence for universal operation. Selectable Soft-ON/OFF function and memory function. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. With touch control. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control cover with control lamp 6543-xxx-10x. For Busch-Remote control IR control cover 6066-xxx-10x. For comfort timer control element 6455-101-500. For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101. For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M. For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx. Combinable with Busch-Watchdog extension insert 6805 U. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Rated power: 60 - 420 W. Rated power: 60 - 420 W/VA. IEC 60669-2-1, British Standard EN 60669-2-1 		
	6593 U-500	2CKA006590A0171	1/10

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In conjunction with 6800-xxx-104 (M) a Soft Off can be adjusted.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-Dimmer®, capacity booster [1]** **flush mounted, RLC, 200-315 W** The control is effected by a Busch-Universal master dimmer 6593 U or Busch-Universal rotary dimmer 6591U-101. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Can only be installed in conjunction with a cover plate 2114-xxx and 6541-xxx. Without cover plate. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Rated power: 200 - 315 W/VA. IEC 60669-2-1, British Standard EN 60669-2-1

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA** 2-wire connection (neutral conductor not required).Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	Comfort switch flex sensor Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. Push switch function possible at all times. Extension of the detection range by means of master/ slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off. Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/ continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch-off delay: 1 to 10 min., adjustable. Compatible with all free@home flexTronics inserts. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Please order the respective flush-mounted insert separately. The range specifications refer only to an ambient temperature of 21°C.

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Key Switch Insert** [1] [2] [3] **breaking circuit, 1-pole** For profile semi-cylindrical lock. In switched-on and switched-off status the key can be pulled out in the central position, respectively. Delivered without cylindrical lock. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1		
	2733 USL-101	2CKA001101A0914	10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		
neon indicator:	not applicable		
delivery form:	Adapter plate APBS to be ordered separate.		

[1] For installation on British Standard wallboxes please use adapter plate APBS (6599-0-2813). (Depth of box 60 mm.)
[2] Use the cylindrical lock according to the enclosed drawing.
[3] See profile semi-cylindrical lock.

	**Blind switch insert** [1] [2] **SP, switch** With interlock. Rated voltage: 250 V~ Rated current: 10 AX Protection class (Device): IP 20IEC60669-1, British Standard EN 60669-1		
	2000/4 US-500	2CKA001012A2197	10/100

	lock mechanism, with 3 keys		
	0521 PZ-GS	2CKA000470A0021	1/100
	**Blind compact timer** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 45 °C		
	6422 U-500	2CKA006410A0410	1/10

Product	Article-No.	Order-No.	Pack/Qty
	**Basic blind insert** [1] [2] **2-wire blind insert** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Suitable for operation without neutral conductor. Without an extension input. For control cover 6430-xx-xxx. For standard timer control element 6456-101. Running time: 3 min. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 35 °C		
	6418 U-500	2CKA006410A0376	1/10
Mounting boxes:	35 mm deep flush 1gang or Dual Box 3070-2/35 BSDB.		
2gang product combinations:	2gang combination with adapter plate APBS in Dual Box only.		

[1] N-conductor connection required for operation with control cover 6430-7x, illuminated.
[2] N-conductor connection may be required for operation with blind and roller blind drives with electronic limit switch shut-off. If no N-conductor is available, capacitor set 6498 can be used.

	**Busch-Blind control II switch insert** [1] Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. With two 230 V multi-way input terminals (Up/Down) for group control. With operating mode switch for the following modes: normal, louvre, base station, position. With party function (disables the local control unit) in combination with Busch-Blind control II control cover 6430-xx-xxx, 6066-xx-xxx. Wind alarm, cleaning functions can be accommodated via extension input. For control cover 6430-xx-xxx. For IR control element 6066-xx-xxx. For comfort timer control element 6455-101-500. Running time: 3 min Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Control/Signal outputs: 2 Temperature range (Device): 0 °C to 35 °C		
	6411 U-500-101	2CKA006410A0378	1/10

[1] Compatible with types 6411 U/x.

	**Brightness sensor** For insert 6411U/S-101. With 2 m connecting cable. Measuring range: 15-50,000 lux.		
	6414-101	2CKA006410A0389	1/10
	**Sun sensor** For insert 6411U/S-101. Measuring range: 5-50,000 lux.

Data communication

Product	Article-No.	Order-No.	Pack/Qty
	**WLAN access point, flush-mounted [1] [2]** **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Dimensions: (L x W x D): 80 mm		
	8186/31-101-500	2CKA008100A0359	1

[1] Suitable for cover plate 1803-xxx.
[2] Not to be mounted in SM box 1701-xxx, 1702-xxx, 1703-xxx.

	**Reset magnet** For resetting WLAN access point UP 8186/31-101 and WLAN access point PoE UP 8186/41 to the factory settings. Protection class (Device): IP 20		
	8186/11-500	2CKA008100A0361	1

	**Universal data connection unit, cat. 3 [1]** **1gang** With down-leading outlet. For 8-pole plug, RJ 11/12, RJ 45, ISDN capability, Cat. 3. Design according to IEC 60 603-7-2:2007. Screw contacts With claw. Protection class (Device): IP 20

	**Flush-mounted assembly adapter** For the accommodation of one or two universal modules 0219. For flush-mounted installation. Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. Protection class (Device): IP 20		
	0219/12	2CKA000230A0395	1/10

	**Channel assembly adapter** For the accommodation of one or two universal modules 0219. For channel and under-floor installation. Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. Protection class (Device): IP 20		
	0219/13	2CKA000230A0396	1/10

	**Universal module, RJ 45, cat. 6a iso, shielded [1]** **1gang** For installation in installation adapter 0219/12 or 0219/13. Also suited for mounting into cover plate 2561-xxx, 2564-02-xxx and bases 1812, 1866 EB, and 1867 EB. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Cat. 6A according to ISO/IEC 11801: 2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Bend-radius optimised cable feed (30°). Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. For 8-pole plug RJ 45 only. Housing made from diecast zinc. With integrated dust-protection cap (can be removed if necessary). With insulation displacement connection For data cables with a diameter of 6 -10 mm. For wires of AWG 24-22. For trunk systems, flush-mounted wall boxes and underfloor systems. Protection class (Device): IP 20

Multimedia / communication adapters

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-Radio DAB+ [1])** DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information. Reception frequency: 87.50 MHz - 108.00 MHz. Receive frequency (DAB+): 174 MHz – 240 MHz. With external AUX input/output, reversible. For mono/stereo operation. 8 radio stations storable. With time and date display. With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Control element: 4-button operation via floating rocker Display elements: ICU graphic display with 280 DPI. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm Rated power: 2 W (RMS) Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm Mounting depth: 32 mm		
	8215 U-101-500	2CKA008200A0276	1/10

[1]) No claw. Screw-fixing via keyholes.

	**Busch-Radio BTconnect DAB+ [1])** **With Bluetooth interface for music replay.** DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information. With Bluetooth interface for music replay of mobile devices. Connection of external Bluetooth loudspeakers possible. Reception frequency: 87.50 MHz - 108.00 MHz. Receive frequency (DAB+): 174 MHz – 240 MHz. With external AUX input/output, reversible. For mono/stereo operation. 8 radio stations storable. With time and date display. With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Bluetooth specification: 4.2. Bluetooth profiles supported: A2DP Number of stored Bluetooth connections: max. 8 Control element: 4-button operation via floating rocker Display elements: ICU graphic display with 280 DPI. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Rated power: 2 W (RMS) Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm Mounting depth: 32 mm Bluetooth		
	8217 U-101-500	2CKA008200A0279	1/10

[1]) No claw. Screw-fixing via keyholes.

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-Radio iNet [1]) [2]) [3]) [4])** WLAN Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible via various genres. With high resolution graphic display and background illumination. With external AUX input. Integrated web-server for configuration and control. Remote operation with smartphone via browser surface. UPnP replay function. It is controlled via smartphone. For mono/stereo operation. 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN Standards: IEEE 802.11b / IEEE 802.11g and IEEE 802.11n (2,4 GHz). WLAN safety: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 49 mm Mounting depth: 33 mm APP		
	8216 U-500	2CKA008200A0153	1/10

[1]) No claw. Screw-fixing via keyholes.
[2]) Matching loudspeaker insert 8223 U.
[3]) Can also be combined with built-in loudspeaker (8222 EB) and moist atmosphere loudspeaker (8224 EB).
[4]) To be mounted only in connection with commercially available flush-mounted installation boxes according to DIN 49073 > 40 mm depth gauge or Busch-Jaeger art. no. 3040, 3050 or 3060.

Busch-axcent®

Multimedia / communication adapters

Product	Article-No.	Order-No.	Pack/Qty
	**Loudspeaker insert [1])** **5 cm (2")** With flat plug connector. With broadband characteristics. Rated output: 2 W (RMS) Incl. speaker connection cable. Frequency response: 200 - 20,000 Hz Impedance: 4 Ohm Protection class (Device): IP 20, SELV Mounting depth: 32 mm		
	8223 U-500	2CKA008200A0183	1/10

Room thermostats

Product	Article-No.	Order-No.	Pack/Qty

Room thermostat, flush-mounted [1])
Remote sensor
With remote sensor and thermal feedback
For underfloor heating.
With built-in slide switch and control lamp for nightly reduction of 4 K.
Switch contact opens when the set temperature is reached.
With fixing claws.
Remote sensor cable length: 4 m.
Sensor =NTC, 10 kilo-ohm at 25 degrees C.
Adjusting range: +10 to +50° C.
Connecting cable: 1mm² to 2.5 mm²
Separate terminal to activate nighttime mode and reduction of room temperature by 4K.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 16 A, cos ϕ 1
Dimensions: (L x W x D): 71 mm x 71 mm x 52 mmEN 60730-2-9, British Standard EN 60669-2-1

WaveLINE inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**RF remote control** • Network-independent radio control. • For switching and dimming. • For controlling blinds and light scenes. • With 3 groups (A, B or C) with 5 pairs of channels. • There are 15 radio channels operated singly or up to 30 light scenes can be called.		
	6780	2CKA006780A0002	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • Functions via radio control: ON/OFF, timer and light scene control. • Functions via the extension unit: ON/OFF, timer and sending a radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6701-101-500	2CKA006700A0040	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For functions ON/OFF, timer and lightscene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx. • For remote control WaveLINE 6780. • Switch-off delay: Adjustable between 10 s to 5 min.		
	6702-500	2CKA006700A0023	1
	**2-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For operation mode 2gang switch, 2 separate outputs. • For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). • For functions: ON/OFF and light scene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx		
	6703-500	2CKA006700A0024	1
	**Dimm Aktor WaveLINE** • For wireless switching and dimming of electrical loads. • For functions ON/OFF, dimming and lightscene control. • With soft ON/OFF function. • With selectable light value storage. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx.		
	6704-500	2CKA006700A0025	1

WaveLINE inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**Wall-mounted transmitter WaveLINE [1] [2]** **4-channel** 4gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 4 radio channels can be operated or up to 8 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

	**ZLL-Power supply insert** • With electronic short-circuit protection. • With electronic overload protection. • For ZigBee Light Link control element 6735-xxx, 6736-xxx and 6737-xxx. • Without control cover. • Rated voltage: 230 V~, +10 % / -10 % • Secondary: 5 V-, +5 % / -5 %		
	6710 U-500	2CKA006710A0005	1

	**ZLL-Relay insert** • 3 wire connection (neutral conductor required). • For switching retrofit LED lamps (LEDi). • For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers. • Without control cover.		
	6711 U-500	2CKA006710A0006	1

	**ZLL-Dimmer insert** • Touch dimmer. • For wireless switching and dimming of electrical loads. • 3 wire connection (neutral conductor required). • Optimised for dimming of retrofit LED lamps (LEDi). • For incandescent lamps, 230V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers and dimmable halogen energy-saving lamps.		
	6715 U-500	2CKA006710A0007	1

Product	Article-No.	Order-No.	Pack/Qty
	**ZLL-Plug-in unit Switch** • Plug device for switching electric loads up to 1,380 W/VA. • Control of thermal positioners for heating control possible. • Not for electrical heating devices. • Connected load can be activated/deactivated via micro switch. • Send/receive frequency: 2.4 GHz.		
	6717-84-500	2CKA006710A0008	1

	ZigBee Light Link wall-mounted transmitter **1-channel** 1gang wall-mounted transmitter independent of mains power supply. For the wireless remote control of other ZigBee Light Link radio components. For saving and calling up 2 light scenes. For dimming a light scene. For combining with/integrating in other systems which operate with the ZigBee Light Link protocol, such as Philips hue. With labelling field. Without enclosed labelling sheet. Compatible lettering software is available at www.busch-jaeger-labelingtool.com. Send/receive frequency: 2.4 GHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery type CR2450 (included in scope of delivery) Battery service life: typically 3 years. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 64 mm x 64 mm x 18 mm

	SP, 1gang 1way switch		
	2000/1 US-500	2CKA001012A2059	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] With screw-type terminals. Non-illuminable.

Product	Article-No.	Order-No.	Pack/Qty
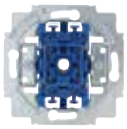
	**Rocker Switch Mechanism [1]** Rated voltage: 250 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	Switch-off and two-way circuit 16 A		
	2400/6 US-500	2CKA001012A2232	10/100
	2gang switch 16 A		
	2400/5 US-500	2CKA001012A2234	10
	1gang intermediate 16 A		
	2400/7 US-500	2CKA001012A2236	10



[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism [1]** **2gang 2way** With screwless terminals. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20 IEC 60669-1		
	2000/6/6US-101-500	2CKA001011A0928	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism [1]** **Changeover/changeover circuit 16 A** With screwless terminals. Rated voltage: 250 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	2400/6/6US-101-500	2CKA001022A0663	10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker Switch Mechanism [1] [2]** **DP, 1gang 1way** For switching high loads. Rated voltage: 250 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	2000/2 US-101-500	2CKA001012A2193	10/100

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Also for switching SCHUKO® socket outlets.

Product	Article-No.	Order-No.	Pack/Qty
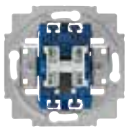
	**Rocker Switch Mechanism [1] [2]** **3-pole, 1gang 1way switch** Rated voltage: 400 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	2000/3 US	2CKA001011A0816	10



[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] With screw-type terminals. Non-illuminable.

Product	Article-No.	Order-No.	Pack/Qty
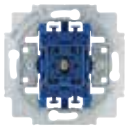
	**Rocker Switch Mechanism [1]** With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20 IEC 60669-1		
	1gang 2way [2]		
	2000/6 USGL-500	2CKA001012A2194	10/100
	2gang 1way		
	2000/5 USGL	2CKA001012A1135	10



[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Replacement lamps 8360, 8362, and 8363 and LED inserts.

Rocker switches / push switches

Product	Article-No.	Order-No.	Pack/Qty
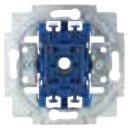
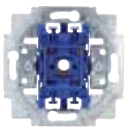
	**Rocker Switch Mechanism, control [1])** **2gang switch with N-clamp 16 A** with LED, Rated voltage: 250 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	2400/5 USK-500	2CKA001012A2238	10



[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Rocker Switch Mechanism, control [1]) [2]) [3])** With neon lamp. Rated voltage: 250 V~ Rated current: 10 AX Suitable for: LEDi / CFLi Rated power: 100 W Protection class (Device): IP 20 IEC 60669-1		
	1gang 2way with N-terminal		
	2000/6 USK-500	2CKA001022A0659	10/100
	DP, 1gang 1way		
	2000/2 UK	2CKA001022A0656	10

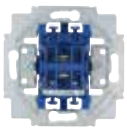


[1]) With 1 mA neon lamp.
[2]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3]) Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

	**Rocker Switch Mechanism, control [1]) [2]) [3])** **Switch-off and two-way circuit with N-clamp 16 A** With neon lamp. Rated voltage: 250 V~ Rated current: 16 AX Suitable for: LEDi / CFLi Rated power: 200 W Protection class (Device): IP 20 IEC 60669-1		
	2400/6 USK-500	2CKA001022A0661	10

[1]) With 1 mA neon lamp.
[2]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[3]) Illuminable by using lamps 8360, 8362, 8363, 8365, 8366, and 8367 and LED inserts.

	**Push-switch mechanism [1])** **SP, with normally open contact (operating current)** With N terminal. Rated voltage: 250 V~ Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-500	2CKA001413A0574	10/100



[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
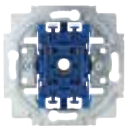
	**Push-switch mechanism [1])** **SP, with normally open contact (operating current)** With 2 independent signalling contacts. Rated voltage: 250 V~ Inputs: 1 Outputs: 1 Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-201	2CKA001413A0483	10



[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Push-switch mechanism [1]) [2]) [3])** **SP, with normally open contact (operating current)** With illumination. With N terminal. Rated voltage: 250 V~ Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 USGL-500	2CKA001413A1106	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2]) Replacement lamps 8360, 8362, and 8363 and LED inserts.
[3]) For relay and touch dimmer applications.

	**Push-switch mechanism [1])** With one input terminal and 2 actuating covers. Rated voltage: 250 V~ Inputs: 1 Outputs: 2x Normally open contact Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-205-500	2CKA001413A1105	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Push-switch mechanism [1])** **SP, 1gang 2way** Can be wired for normally open contacts (stand-by current) or normally closed contacts (operating current). With N terminal. Rated voltage: 250 V~ Rated current: 10 A Protection class (Device): IP 20 IEC 60669-1		
	2020 US-206-500	2CKA001413A1104	10/100

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Comprising Friends of Hue smart switch insert** Comprising 2gang rocker 6736 FoH-8xx for Friends of Hue smart switch. Consisting of 1gang future® linear cover frames. Comprising fixing plate and intermediate ring. Smarter light switches for wireless remote control of Philips Hue lamps For switching and dimming of Philips Hue lamps. For saving, calling up and dimming of a maximum of 2 individual light scenes. Without battery and maintenance-free due to >Energy harvesting<. Can be mounted freely in the room with the enclosed adhesive tape and fixing plate. Requires Philips Hue Bridge (2nd generation square construction type) and Philips Hue app (Version 3.2 or higher). Maximum safety of function by means of Zigbee-Mesh technology.

	**Busch-rotary dimmer [1]) [2]) [3]) [4]) [5]) [6]) [7]) [8]) [9])** **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10

[1]) Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2]) In the case of conventional transformers, take ~20% transformer loss into account.
[3]) In case of electronic transformers, 5 % transformer losses.
[4]) Also applicable for 1gang 2way installations.
[5]) Provided with terminal for net disconnection devices.
[6]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7]) Recommendation: Please use loads and types of one producer.
[8]) The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9]) A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]
UP, LED, 2-400 W
Very small installation depth: < 20 mm
Without claws.
With rotary control, two-way switch and soft-catch.
2-wire connection (neutral conductor not required)
Optimised for dimming of retrofit LED lamps (LEDi).
For dimmable Retrofit-LEDs (LEDi).
For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers.
For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mix operaton of LEDi with conventional loads possible.
With manually adjustable operating mode: trailing / leading edge control.
With adjustable minimum/maximum brightness.
Low-noise level by MOSFET transistors.
With electronic short-circuit protection.
With electronic overload protection.
Without cover plate.
Rated voltage: 230 V~, + 10% / - 10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA (leading edge control)
Nominal power: 2 - 400 W/VA (trailing edge control)
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1] [2] [3] [4] [5]
flush mounted, RLC, 60-420 W
with soft-catch
With intelligence for universal operation. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Short-circuit-proof, overload-protected. Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible.
Operation via rotary-type remote control 6592 U possible,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6591 U-101-500	2CKA006513A0588	1/10

[1] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In the case of conventional transformers, take ~20% transformer loss into account.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[5] Cannot be combined with a 2way switch.

Busch-rotary dimmer, extension [1] [2]
flush mounted
for connection to 6591 U-101,
To be used with Busch-Dimmer®, MDRC 6583.
with soft-catch
A maximum of 5 multi-way extensions can be connected to a 6591U-101,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

	6592 U-500	2CKA006513A0590	1

[1] Control elements 2115-xxx and 6540-xxx.
[2] Required for illuminating the N-connection control element.

Busch-rotary dimmer [1] [2] [3] [4]
flush mounted, 1-10V
With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch-rotary dimmer [1])
Flush-mounted, DALI, with internal power supply, tunable white
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-touch dimmer [1] [2]
flush mounted, RL, 25-500 W
With light-level memory and leading edge control.
For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer.
Compatible with control covers 6543-xxx-10x.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Parallel operation of several transformers and/or incandescents lamps possible.
Without control cover.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 25 - 500 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	6560 U-101-500	2CKA006560A1207	1/10

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Busch touch-dimmer range [1] [2] [3] [4]
flush mounted, RC, 45-315 W
For switching and dimming 2 independent devices.
With trailing edge control.
2gang 1way
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with electronic transformers.
Compatible with control covers 6545-xxx.
Without cover, without cover plate.
Outputs: 2 independent dimmer channels.
Rated power: 40-315 W/VA per channel.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 HzIEC 60669-2-1, British Standard EN 60669-2-1

	6565 U-500	2CKA006565A0057	1/10

[1] Not suitable with conventional transformers.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Does not provide an extension input.

Product	Article-No.	Order-No.	Pack/Qty

Busch-touch dimmer [1] [2] [3] [4]
flush mounted, RLC, 60-420 W
With light-level memory and intelligence for universal operation.
Selectable Soft-ON/OFF function and memory function.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
With touch control.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control cover with control lamp 6543-xxx-10x.
For Busch-Remote control IR control cover 6066-xxx-10x.
For comfort timer control element 6455-101-500.
For Busch-Watchdog 180 flush-mounted Sensor Standard 6810-21x-101.
For Busch-Watchdog 180 flush-mounted sensor Comfort II 6800-xxx-104 and 6800-xxx-104M.
For Busch-Watchdog Presence tech 6813-xxx-101 und 6813/11-xxx.
Combinable with Busch-Watchdog extension insert 6805 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Rated power: 60 - 420 W

Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

	**Proximity switch** 3 wire connection (neutral conductor required). Relay insert with proximity sensor. For contactless ON/OFF switching of electric loads, e.g. lights. For switching incandescent lamps, 230 V tungsten halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are actuated via transformers. Switches when detecting an approach at < approx. 5 cm. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX Rated power: 2300 W/VA Temperature range (Device): -25 °C to 55 °CBritish Standard EN 60669-2-1

Movement detectors

Product	Article-No.	Order-No.	Pack/Qty

Relay insert flex, 1gang [1])
3 wire connection (neutral conductor required).
For switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz. Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps. Rated power: 2300 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 2300 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

	64811 U-500	2CKA006800A3042	1/10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Relay insert flex, 2gang [1])
3 wire connection (neutral conductor required).
For switching lighting systems.
For switching two independent load circuits.
For controlling light and ventilation systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Comfort switch flex control element 64765-... .
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 2
Outputs: 2x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical. Rated power: 300 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 1840 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 1150 VA
Temperature range (Device): -25 °C to 55 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

	64821 U-500	2CKA006800A3045	1

Product	Article-No.	Order-No.	Pack/Qty

e-contact insert flex, 1gang [1]) [2])
2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

	64814 U-500	2CKA006800A3048	1

[1]) Use only dimmable high-voltage LEDs.
[2]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA** 2-wire connection (neutral conductor not required).Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Product	Article-No.	Order-No.	Pack/Qty
	**Extension insert flex [1]** 3 wire connection (neutral conductor required). For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Control/Signal outputs: 1, electronic output, potential-bound. Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mm		
	64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	Comfort switch flex sensor Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. Push switch function possible at all times. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off. Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch-off delay: 1 to 10 min., adjustable. Compatible with all free@home flexTronics inserts. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Please order the respective flush-mounted insert separately. The range specifications refer only to an ambient temperature of 21°C.

Data communication

Product	Article-No.	Order-No.	Pack/Qty
	**WLAN access point, flush-mounted [1] [2]** **power supply from mains power** Operation as WLAN access point for the connection of WLAN terminal devices to the LAN. Operation as WLAN repeater for extending the transmission range of a WLAN. Operation as WLAN adapter for integrating Ethernet terminal devices into a WLAN. Supports WLAN standards IEEE 802.11b/g/n with 2.4 GHz; integrated WLAN antenna. Backward connection of an Ethernet cable via screw terminals (10/100 Mbit/s). Front-side Ethernet connection via a RJ45 socket (10/100 Mbit/s). The three connections (WLAN, Ethernet/screw terminals and Ethernet/RJ45)can be used in parallel via the integrated switch. Power supply via 2-pole connecting terminal. Nominal voltage: 100 - 240 V~ For mounting in commercially available deep flush-mounted and hollow-wall boxes. Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Dimensions: (L x W x D): 80 mm		
	8186/31-101-500	2CKA008100A0359	1

[1] Suitable for cover plate 1803-xxx.
[2] Not to be mounted in SM box 1701-xxx, 1702-xxx, 1703-xxx.

	**Reset magnet** For resetting WLAN access point UP 8186/31-101 and WLAN access point PoE UP 8186/41 to the factory settings. Protection class (Device): IP 20

[1]) Suitable for cover plate 1803-xxx.

Product	Article-No.	Order-No.	Pack/Qty
	**Data-connection box, RJ 45, cat. 6a iso, shielded [1])** **2 x outlets, 8/8-pole** With down-leading outlet and LSA self-cutting clamps. RJ-45 terminals for networks according to Cat 6A, Class EA (10 Gbits/s / 500MHz). Equates to cat. 6a, Class EA according to ISO/IEC 11801:2011-06. Terminal marking A and B according to TIA/EIA-568-B.2. Typ according to EN 60 603-7-51:2011-01. Shielding according to DIN EN 55022, Class B. Up to 500 MHz on all pairs of wires. Suitable for 10-Gigabit Ethernet. Suitable for PoE+ according to IEEE 802.3at, >- 1.000 contact durability. Flex cable entries from all sides without buckles. Earthing of housing via 6,3 mm blade terminal at the back possible. Re-embedded proofed. Suitable for Mix-and-Match operation. Suitable for RJ 11, RJ 12 und RJ 45. For data cables with a diameter of 6 -10 mm. For trunk systems, flush-mounted wall boxes and underfloor systems. For wires of AWG 24-22. Without claws. Mounting depth: 31 mm. Protection class (Device): IP 20		
	0218/12-101	2CKA000230A0411	1/10

[1]) Suitable for cover plate 1803-02-xxx.

	**Universal data connection box 8(6)/ telephone unit 6F+N - connection box [1])** **2 x 6-pole** with straight outlet, with screw contacts, Universal data-connection boxes: RJ 11/12, ISDN capable Cat. 3 in acc. with IEC 603-7/German Standard DIN EN 60603-7, Telecommunication outlet (telephone unit): for 1 telephone, 1 auxiliary device or 1 data transmission unit, With claw. Protection class (Device): IP 20

Product	Article-No.	Order-No.	Pack/Qty
	**VGA connection unit [1]) with screw-type terminals and strain relief** Suitable for telephone connection unit cover plates 2539-21x and 1766-xxx. To link analogue video data between PCs and laptops to monitors or digital projectors etc. VGA-type: D-type, 15-pole. Fully HD ready (1920 x 1080 pixel). For 15-wire VGA-cables via srew-type terminals. For trunk systems, flush-mounted wall boxes and underfloor systems. For easy mounting and adhering to the admissible bending radii, the Kaiser >Electronic socket<, article number 1068-02 or 9062-74, is recommended. Without cover plate. Without claws. Protection class (Device): IP 20 Mounting depth: 34 mm

WaveLINE inserts / control elements

Product	Article-No.	Order-No.	Pack/Qty
	**RF remote control** • Network-independent radio control. • For switching and dimming. • For controlling blinds and light scenes. • With 3 groups (A, B or C) with 5 pairs of channels. • There are 15 radio channels operated singly or up to 30 light scenes can be called.		
	6780	2CKA006780A0002	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • Functions via radio control: ON/OFF, timer and light scene control. • Functions via the extension unit: ON/OFF, timer and sending a radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6701-101-500	2CKA006700A0040	1
	**1-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For functions ON/OFF, timer and lightscene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx. • For remote control WaveLINE 6780. • Switch-off delay: Adjustable between 10 s to 5 min.		
	6702-500	2CKA006700A0023	1
	**2-fach Aktor WaveLINE** • For wireless switching of electrical loads. • For operation mode 2gang switch, 2 separate outputs. • For operation mode timer: output 1 (eg lighting), output 2: ON/Off delay in dependence of output 1 (eg fan control). • For functions: ON/OFF and light scene control. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx		
	6703-500	2CKA006700A0024	1
	**Dimm Aktor WaveLINE** • For wireless switching and dimming of electrical loads. • For functions ON/OFF, dimming and lightscene control. • With soft ON/OFF function. • With selectable light value storage. • For wall mounted transmitter Waveline 6731-xxx, 6732-xxx und 6733-xxx.		
	6704-500	2CKA006700A0025	1
	**Serien/Jalousieaktor WaveL** • For wireless switching of electrical loads. • For driving and adjusting blinds/shutters and awnings over radio. • Functions via radio control: 2gang switch, blind switch and light scene control. • Functions via extension unit: 2gang switch, blind switch and send radio control telegram. • Operation via conventional push button (2020 US/2021/6 UK) possible.		
	6705-101-500	2CKA006700A0042	1

Product	Article-No.	Order-No.	Pack/Qty
	**2-fach Binärein. WaveLINE** • Radio control telegrams are sent when the two extension units are activated with mains voltage (AC 230 V~). • Operation via conventional push button (2020 US/2021/6 UK) possible. • The 2gang binary input has 5 function modes: 1) 2-channel switching 2) 2-channel dimming 3) 1 channel blind 4) Two-channel light scene control 5) Channel 1: Switching ON Channel 2: Continuous switching ON/OFF		
	6725-500	2CKA006720A0008	1
	**Wall-mounted transmitter WaveLINE [1] [2]** **1-channel** 1gang wall-mounted transmitter independent of mains power supply. With labelling field and labelling strip. For switching and dimming. For controlling blinds and light scenes. 1 radio channel can be operated or up to 2 light scenes can be called up. For flush-mounted WaveLINE actuators 6701-101, 6702, 6703, 6704 and 6705-101. Compatible with WaveLINE KNX gateway TP-RF 6770. Send frequency: 868 MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery Type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: rocker switch left/right Display elements: LED to indicate the transmission Rated voltage: 3 V- Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 63 mm x 63 mm x 16 mm

For saving and calling up 4 light scenes. For dimming 2 light scenes. For combining with/integrating in other systems which operate with the ZigBee Light Link protocol, such as Philips hue. With labelling field. Without enclosed labelling sheet. Compatible lettering software is available at www.busch-jaeger-labelingtool.com. Send/receive frequency: 2.4 GHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery type CR2450 (included in scope of delivery). Battery service life: typically 3 years. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Rated voltage: 3 V-. Protection class (Device): IP 20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 64 mm x 64 mm x 18 mm.

	ZigBee Light Link control element 1gang For wireless switching and dimming of electrical loads. For ZigBee Light Link flush-mounted inserts 6710 U, 6711 U and 6715 U. In connection with the ZigBee Light Link flush-mounted inserts 6711 U and 6715 U the top rocker is used to switch or dim the non-ZLL lamps connected to the flush-mounted insert directly. In the case of 6736 and 6737, the other keys can be used for saving, calling and dimming lightscenes. In combination with the ZigBee LightLink-UP insert 6710 U for storing and calling up 2 light scenes or dimming a light scene. For combining with/integrating in other systems which operate with the ZigBee Light Link protocol, such as Philips hue. Push-button function: Switching/dimming/light scenes. With labelling field. Without enclosed labelling sheet. Compatible lettering software is available at www.busch-jaeger-labelingtool.com. Send/receive frequency: 2.4 GHz. Free-field range: approx. 100 m. basic55®

One concept, numerous possibilities.

Square but still round, white but colourful. A smart concept which inspires the imagination and acknowledges the desire for individual styling. Elements formed into a creative solution. White rockers and frames fine-tuned with discreet colour rings. The concept which makes its own style.

05 alpine white / apricot
06 alpine white / silver
07 alpine white / blue
08 alpine white / light green
09 white / white

basic55®

basic55® range has many facets. It fulfils every wish for creative design. Six frame colours can be perfectly combined with two rocker colours to meet individual expectations. Plus the luxurious champagne version as alternative. Thirteen exclusive options for combining puristic design with modern, pleasant colours.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7] [8] [9]** **UP, LED, 2-400 W** Very small installation depth: < 20 mm Without claws. With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum/maximum brightness. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control) Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 UR-103-500	2CKA006512A0345	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.
[8] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[9] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

 END OF LIFE	**Busch-rotary dimmer [1] [2] [3] [4]** **flush mounted, R, 60-600 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps and 230 V tungsten halogen lamps. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 60 - 600 W IEC 60669-2-1, British Standard EN 60669-2-1		
	2250 U-500	2CKA006515A0848	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] Also applicable for 1gang 2way installations.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Provided with terminal for net disconnection devices.

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1] [2] [3] [4] [5]** **flush mounted, RL, 20-500 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 20 - 500 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	2247 U-500	2CKA006512A0302	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] Provided with terminal for net disconnection devices.
[4] Also applicable for 1gang 2way installations.
[5] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1] [2] [3] [4] [5] [6]** **UP, RL, 200-700 W** With rotary control, 2way On-Off switching and soft-catch. Leading Edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. Short-circuit-proof, overload-protected. With adjustable minimum brightness. Without cover plate. Without claws. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 200 - 700 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6520 U-500	2CKA006520A0227	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] Provided with terminal for net disconnection devices.
[4] Also applicable for 1gang 2way installations.
[5] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[6] Should be mounted in a seperate wallbox.

Product	Article-No.	Order-No.	Pack/Qty
 END OF LIFE	**Busch-rotary dimmer [1] [2] [3] [4] [5] [6]** **flush mounted, RC, 40-420 W** With rotary control, soft-catch and with trailing edge control. For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with electronic transformers. Low-noise, short-circuit-proof, overload-protected. Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Rated power: 40 - 420 W/VA IEC 60669-2-1, British Standard EN 60669-2-1		
	6513 U-102-500	2CKA006513A0586	1/10

[1] Not suitable with conventional transformers.
[2] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Provided with terminal for net disconnection devices.
[5] Also applicable for 1gang 2way installations.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Dimmers

Product	Article-No.	Order-No.	Pack/Qty

END OF LIFE

Busch-rotary dimmer [1] [2] [3] [4] [5]
flush mounted, RLC, 60-420 W
with soft-catch
With intelligence for universal operation.
For incandescent lamps, 230 V tungsten halogen lamps and low-voltage halogen lamps with conventional transformers or electronic transformers.
Short-circuit-proof, overload-protected.
Capacity expansion via output-side, parallel connectable load line with a power module 6594 U up to 735 W/VA possible. Operation via rotary-type remote control 6592 U possible, Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 60 - 420 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

6591 U-101-500	2CKA006513A0588	1/10

[1] Illuminable with neon lamp 3855. Neon lamp included in delivery with cover plate.
[2] In case of electronic transformers, 5 % transformer losses.
[3] In the case of conventional transformers, take ~20% transformer loss into account.
[4] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[5] Cannot be combined with a 2way switch.

END OF LIFE

Busch-rotary dimmer, extension [1] [2]
flush mounted
for connection to 6591 U-101,
To be used with Busch-Dimmer®, MDRC 6583.
with soft-catch
A maximum of 5 multi-way extensions can be connected to a 6591U-101,
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz

6592 U-500	2CKA006513A0590	1

[1] Control elements 2115-xxx and 6540-xxx.
[2] Required for illuminating the N-connection control element.

Busch-rotary dimmer [1] [2] [3] [4]
flush mounted, 1-10V
With rotary control.
For controlling ballast units for fluorescent lamps with control output 1-10 V DC, control current max. 50 mA DC.
For LED control via control gears
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Rated power: 700 W/VA
IEC 60669-2-1, British Standard EN 60669-2-1

2112 U-101-500	2CKA006599A2873	1/10

[1] Non-illuminable.
[2] Use cover plates 2115 J-.../2115-.../6540-... .
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Making-current limiters have to be provided in case of too high making currents.

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1]
Flush-mounted, DALI, tunable white
For DALI broadcast service (via central telegram).
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
Fool proved.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Max. current consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE article no. 2116/11 U.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

2116 U	2CKA006599A3025	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

basic55®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Busch-rotary dimmer [1])
Flush-mounted, DALI, with internal power supply, tunable white
For DALI broadcast service (via central telegram).
With integrated DALI power adaptor.
For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface.
With rotary control and ON/OFF push operation.
For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8).
Colour temperature can then be set between 2,700 K - 6,500 K.
With electronic short-circuit protection.
With electronic overload protection.
Brightness power-on level and backround brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Color of orientation light adjustable (18 presets and OFF).
Up to 5 potentiometers are connectable in parallel.
Up to 3 potentiometers are connectable in parallel in active mode.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
DALI-voltage: 15,5 V=
Rated current: max. 75 mA
Power consumption: < 2,5 W
Number of DALI-units:
37 in case of one active power-potentiometer
in case of three active power-potentiometer in parallel connection: 111
Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices.
Passive mode: the potentiometer is suitable as additional operation point.
Max. DALI-cable length: 300 m (1,5 - 2,5 mm²).
Without cover plate.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz - 60 Hz
Protection class (Device): IP 20
Temperature range (Device): 0 °C to 35 °C

	**LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA** 2-wire connection (neutral conductor not required).Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Buscah-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. Movement detectors

Product	Article-No.	Order-No.	Pack/Qty
	**Relay insert flex, 1gang [1])** 3 wire connection (neutral conductor required). For switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V- LEDi, typical. Rated power: 300 VA Suitable for: 230 V incandescent lamps/230 V halogen lamps Rated power: 2300 W Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 2300 VA Temperature range (Device): -25 °C to 55 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mm 		
	64811 U-500	2CKA006800A3042	1/10

[1]) Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Relay insert flex, 2gang [1]** 3 wire connection (neutral conductor required). For switching lighting systems. For switching two independent load circuits. For controlling light and ventilation systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Comfort switch flex control element 64765-... . For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 2 Outputs: 2x Normally open contact, potential-bound Suitable for: 230 V- LEDi, typical. Rated power: 300 VA Suitable for: 230 V incandescent lamps/230 V halogen lamps Rated power: 1840 W Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 1150 VA Temperature range (Device): -25 °C to 55 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mm 		
	64821 U-500	2CKA006800A3045	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**e-contact insert flex, 1gang [1] [2]** 2-wire connection (neutral conductor not required) Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). For switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with extension insert, 64891 U. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Inputs: 1 Outputs: 1x Normally open contact, potential-bound Suitable for: 230 V- LEDi, typical. Rated power: 3 - 240 VA Suitable for: 230 V incandescent lamps/230 V halogen lamps Rated power: 10 - 240 W Suitable for: Low voltage halogen lamps that are operated via transformers. Rated power: 3 - 240 VA Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm Mounting depth: 25 mm 		
	64814 U-500	2CKA006800A3048	1

[1] Use only dimmable high-voltage LEDs.

[2] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	**LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA** 2-wire connection (neutral conductor not required). Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1 		
	64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

	**Extension insert flex [1]** 3 wire connection (neutral conductor required). For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Control/Signal outputs: 1, electronic output, potential-bound. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mm		
	64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

Product	Article-No.	Order-No.	Pack/Qty
	Comfort switch flex sensor Movement detector push-button switch combination. For switching lighting systems that depend on brightness and movement. Push switch function possible at all times. Extension of the detection range by means of master/slave combination. Additional activation/deactivation option via push-button input on the flush-mounted insert. Adjustable operating mode: automatic mode, automatic (motion-controlled) switch-on and switch-off. Adjustable operating mode: semiautomatic, manual switch-on, automatic (timer and movement-controlled) switch-off. Adjustable operating mode: automatic mode, automatic switch-on, manual switch-off. With continuous light/continuous Off function. Adjusting elements on rear side. Surveillance density: 9 sectors with 28 switching segments. Switch-off delay: 1 to 10 min., adjustable. Compatible with all free@home flexTronics inserts. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. Please order the respective flush-mounted insert separately. The range specifications refer only to an ambient temperature of 21°C.

Product	Article-No.	Order-No.	Pack/Qty
	**Blind compact timer** Suitable for blind and roller blind drives with mechanical or electronic limit switch shut-off. Without extension unit input. Running time: 3 min N-busbar connection is required. For manual and time-controlled switching of blinds and roller blinds. Memory function for the simple storage of switching times. The controlled devices can be manually operated at any time. Simple setting via display with with segment display and background illumination. Factory pre-set switching times, individual adaptations are possible. 2 switching times per day can be freely adjusted for each day of the week. Automatic switchover from summer time to winter time (switch-off function). Switching times and programs are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. See the associated cover plates 6435-xx. Programming possible only with control element attached and energized. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz Outputs: 2x Normally open contact Rated current: 3 A, cos ϕ 0.5 Rated power: 690 VA Temperature range (Device): 0 °C to 45 °C

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Comfort timer control element [1])** For manual and time-controlled switching of blinds, roller blinds, awnings, lighting and other electrical devices. With dusk to dawn program including (Astro-program) Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Combined with Busch-Blind control II insert 6411 U/S-101, sun protection and twilight function. Freely adjustable temperature and brightness-dependent sun protection function. Freely adjustable twilight function. User-adjustable running times for blinds and air conditioning. Programming possible only with control element attached and energized. 6 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. When combined with LED dimmer 6524 U, Busch-Universal master dimmer insert 6593 U or Busch-Memory touch-type controller 6550 U-101, the brightness of the lighting can be adjusted for each ON switching time. For Busch-Blind control II insert 6411 U-101, 6411 U/S-101. For Busch-Universal relay switch insert 6401 U-102. For Busch-Universal master dimmer insert 6593 U. For LED dimmer insert 6524 U and 6526 U.. For Busch-Memory touch-type controller 6550 U-101. Temperature range (Device): 0 °C to 35 °C

Blind control / timers

Product	Article-No.	Order-No.	Pack/Qty
	**Blind insert, 1 gang, 2 way flex** 3 wire connection (neutral conductor required). For the control of roller shutters, blind and awning motors with mechanical or electronic limit switch shut-off. Group formation via extension input possible. Operation also via conventional push buttons (2020 US non-illuminated/2021/6 UK) possible. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL.		
	64831 U-500	2CKA006400A0096	1
	**Extension insert flex** 3 wire connection (neutral conductor required). For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts.		
	64891 U-500	2CKA006800A3051	1
	**Control element, 1 gang flex** Tapping control element, 1gang. Compatible with all free@home flex inserts. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.		
	64711-500	2CKA006400A0099	1
	**Control element, 1 gang, flex wireless** Tapping control element, 1gang. For the manual and automatic control of roller blinds, blinds, awnings, lighting and electric loads. Compatible with all free@ home flex inserts. Remote operation via the Bluetooth and smartphone/tablet app. Programming via Bluetooth with the ABB-free@home® app or via the web interface of the System Access Point. Timer with Astro function. For 1gang rocker 6230-10x-xxx, 6231-10x-xxx, 6232-10x-xxx, 6233-10x-xxx and 6234-10x-xxx. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.		
	62711-WL-500	2CKA006200A0281	1
	**Control element, 2 gang flex** Tapping control element, 2gang For 2gang rocker 6230-2x-xxx, 6231-2x-xxx, 6232-2x-xxx, 6233-2x-xxx and 6234-2x-xxx. For saving and calling up 2 scenes via the right rocker. For relay insert flex, 1gang, 64811 U. For series relay insert flex, 2gang, 64821 U. For e-contact insert flex, 1gang, 64814 U. For LED touch dimmer insert flex, 1gang, 64851 U. For extension insert flex, 64891 U. For blind insert flex, 1gang, 64831 U.

Multimedia communication adapter

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-Radio DAB+** [1] DAB+ and RDS stereo radio alarm clock for flush-mounted installation. With high-resolution colour display for showing additional information. Reception frequency: 87.50 MHz - 108.00 MHz. Receive frequency (DAB+): 174 MHz – 240 MHz. With external AUX input/output, reversible. For mono/stereo operation. 8 radio stations storable. With time and date display. With individual alarm and snooze function. With automatic switch-off function (automatic sleep mode). With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed as 1gang and in multiple combinations. Control element: 4-button operation via floating rocker Display elements: ICU graphic display with 280 DPI. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Control/Signal outputs: 2, Loudspeaker output, impedance 4 Ohm Rated power: 2 W (RMS) Protection class (Device): IP 20 Temperature range (Device): 5 °C to 40 °C Dimensions: (L x W x D): 71 mm x 71 mm x 47 mm Mounting depth: 32 mm		
	8215 U-101-500	2CKA008200A0276	1/10

[1] No claw. Screw-fixing via keyholes.

Change-over contact, setpoint indication, timer
With change-over contact.
Easy adjustment using menu and text-based display.
4 switching times per day can be user-defined for each day of the week.
With fixing claws.
Automatic summer/wintertime switch-over
Power reserve > 10 hours.
To fit cover plate 6435-xxx.
Class of temperature controller 1
Contribution to space heating energy efficiency 1,0%.
Rated voltage: 230 V~
Rated current: 10 A
Temperature range (Device): 5 °C to 30 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 52 mmEN 60730-2-9

	1098 U-101	2CKA001032A0508	1/10

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[2] Servo valves of "closed or open when de-energized" design are required for the controller. E.g. article no. 6164/10-101.
[3] Switching temperature difference: ± 0.5 K.

Room thermostat, flush-mounted [1] [2]
Change-over contact, setpoint indication, timer, remote sensor
With change-over contact.
Easy adjustment using menu and text-based display.
4 switching times per day can be user-defined for each day of the week.
With fixing claws.
Automatic summer/wintertime switch-over
Remote sensor cable length: 4 m.
Sensor =NTC, 10 kilo-ohm at 25 degrees C.

Telephone & data outlets

Product	Article-No.	Order-No.	Pack/Qty
	**Telephone outlet RJ12** RJ12 type connector. 6 contacts. Suitable for 2 (6P2C), 4 (6P4C) or 6 (6P6C) RJ11 and RJ12 jacks. Screw terminals. Mounting grid delivered with the cover plate. Cover plate code: 8518.1 & 8518.2.		
	2017.2	2CLA201720A1001	10
	**Telephone outlet RJ45 Cat.3** RJ45 type connector. Cat.3. 8 contacts. Suitable for 8 (8P8C) RJ45 jacks. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8518.1 & 8518.2.		
	2017.3	2CLA201730A1001	10
	**Data outlet RJ45 Cat.5e UTP** RJ45 type connector. Cat.5e UTP. In compliance with ANSI/TIA/EIA 568B.2, ISO/IEC11801 & EN50173. Universal TIA/EIA 568A and 568B labeling. Housing: ABS UL-94-0. Durability: 750 cycles min. (ISO/IEC 11801, IEC 60603-7-4). IDC: PC UL94V-0, Accept 22-26AWG solid wire. Contact: RJ45 8P8C, 3~50 micro-inch gold plating over nickel plated on contact area. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8518.1 & 8518.2.		
	2018.5	2CLA201850A1001	10
	**Data outlet RJ45 Cat.6 UTP** RJ45 type connector. Cat.6 UTP. In compliance with ANSI/TIA/EIA 568B.2, ISO/IEC11801 & EN50173. Universal TIA/EIA 568A and 568B labeling. Housing: ABS UL-94-0. Durability: 750 cycles min. (ISO/IEC 11801, IEC 60603-7-4). IDC: PC UL94V-0, Accept 22-26AWG solid wire. Contact: RJ45 8P8C, 3~50 micro-inch gold plating over nickel plated on contact area. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8518.1 & 8518.2.		
	2018.6	2CLA201860A1001	10
	**Data outlet RJ45 Cat.6A STP** RJ45 type connector. Cat.6A STP. In compliance with ANSI/TIA/EIA 568B.2 , ISO/IEC11801 & EN50173. Universal TIA/EIA 568A and 568B Labeling. 10 Gb/sec. Durability: 750 cycles min. (ISO/IEC 11801, IEC 60603-7-4). Housing: Zinc Die-casting design for optimal EMI protection. Slim size is ideal for interfaces where the spaces are tight. IDC: PC UL94V-0, Accept 22-26AWG solid wire. Contact: RJ45 8P8C, 3~50 micro-inch gold plating over nickel plated on contact area. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8518.1 & 8518.2.

Light controls - Rotatory dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Rotatory dimmer, RL, 20-500 W** Rated voltage: 230 V~ ; ± 10% - 50 Hz. With rotatory control, 2-way On-Off switching and soft-catch. Leading Edge control. Rated power: 20 - 500 W / VA. For incandescent lamps, 230 V tungsten halogen lamps and low-volt halogen lamps with conventional transformer. With adjustable minimum brightness. In the case of conventional transformers, take ~20% transformer loss into account. Provided with terminal for net disconnection devices. Also applicable for 1gang 2way installations. Included: fixing claws. Cover plate code: 8560.2.		
	2247 U-500	2CKA006512A0302	1
	**LED dimmer** Very small installation depth: < 20 mm Without claws. With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum/maximum brightness. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control) Protection class (device): IP 20 Temperature range (device): 0 °C - 35 °C Illuminable with neon lamp. Neon lamp included in delivery with cover plate. In the case of conventional transformers, take ~20% transformer loss into account. In case of electronic transformers, 5 % transformer losses. Also applicable for 1gang 2way installations. Provided with terminal for net disconnection devices. Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete) Recommendation: Please use loads and types of one producer. The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended. A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Light controls - DALI controlers

Product	Article-No.	Order-No.	Pack/Qty
	**Rotary DALI dimmer Flush-mounted, tunable white.** For DALI broadcast service (via central telegram). For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. Fool proved. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Max. current consumption: 15 mA. Not suitable for combining with other DALI sensors or central units of other manufacturers. For the generation of the DALI voltage a power supply according to IEC 62386 is required. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate.		
	8161.6	2CKA006599A3025	1
	**Rotary DALI dimmer Flush-mounted, DALI, with internal power supply, tunable White** For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of >tunable white< lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate..3

Light controls - Motion sensors

Product	Article-No.	Order-No.	Pack/Qty
	**180° motion sensor** For automatic switching of devices dependent on motion and brightness. For relay inserts 8161. With integrated selector switch for ON-AUTOMATIC-OFF (lockable). Surveillance density: 18 sectors with 72 switching segments. Switch-off delay: 10 sec to 30 min or short-time pulse 1 sec adjustable. Temperature range device: 0 °C to 35 °C. Detection range: frontal: 12 m, lateral: 8 m. Brightness limit value: from 5 lux up to daytime operation. Detection angle: 180 °. Mounting height: 0.8 m - 1.2 m.

Light controls - Programmable switches

Product	Article-No.	Order-No.	Pack/Qty
	**Relay switch** Rated voltage: 230 V~ ; ± 10% - 50/60 Hz. 3 wire connection (neutral conductor required). For timer control element 8165.31. Operation also possible via conventional push buttons 8104.X. Outputs: 1 Normally open contact, potential-bound. Suitable for: 230 V incandescent lamps, 230 V halogen lamps, fluorescent lamps and low-voltage halogen lamps, that are operated via transformers. Rated current: 10 AX. Rated power: 2300 W / VA. Temperature range device: -25 °C to 55 °C. Included: fixing claws.		
	8161	2CLA816120A1001	1
	**Relay switch for blinds** Rated voltage: 230 V~ ; ± 10% - 50 Hz. Suitable for blind, roller blind and awning drives with mechanical or electronic limit switch shut-off. Two 230 V multi-way input terminals (Up/Down) for group control. Operating mode switch for the following modes: normal, louvre, base station, position. Wind alarm, cleaning functions can be accommodated via extension input. For comfort timer control element 8165.31. Remote control with blind controls code: 8144.X. Running time: 3 min. Outputs: 2 Normally open contact. Rated current: 3 A, cos φ0.5. Rated power: 690 VA. Control/Signal outputs: 2. Temperature range device: 0 °C to 35 °C. Included: fixing claws.		
	8161.2	2CLA816120A1001	1
	**Timer control element** For manual and time-controlled switching of blinds, roller blinds, awnings, lighting and other electrical devices. With dusk to dawn program including (Astro-program). Individual Astro adjustment and Astro blocking time. The controlled devices can be manually operated at any time. Simple setting via high-resolution display with background illumination. With preset switching times/date/time. Factory-set switching times can be individually adjusted. Automatic switchover from summer time to winter time (switch-off function). Switching times/programme are safely stored in the event of a mains power failure. Power reserve for time and date > 10 years. Simple toggling between manual/automatic/vacation modes. Freely adjustable temperature and brightness-dependent sun protection function. Freely adjustable twilight function. User-adjustable running times for blinds and air conditioning. Programming possible only with control element attached and energized. 6 switching times per day can be user-defined for each day of the week. Astro switching times and switching times can be combined. For universal relay switch insert 8161. For blind control insert 8161.2. Temperature range device: 0 °C to 35 °C. Cover plate code: 8565.3.

Light controls - Wireless control

Product	Article-No.	Order-No.	Pack/Qty
	**Wireless switch transmitter - 1 channel** 1-gang wall-mounted transmitter independent of mains power supply. 1 radio channel for switching, dimming, controlling blinds or 2 light scenes can be called up. For wireless actuators: 8130.4, 8130.5, 8130.7 & 8130.6. MHz. Free-field range: approx. 100 m. Power supply: lithium button cell battery type CR2032. Battery service life: typically 5 years, therefore practically maintenance-free. Rated voltage: 3 Vdc. Automatic monitoring of battery life. Including fixing plate for mounting on smooth walls or on switch boxes. Control element: switch contacts top/bottom. Display elements: LED to indicate the transmission. Temperature range device: -5 °C to 45 °C. Battery included in delivery.

	**Wireless switch actuator** Rated voltage: 230 Vac ; ± 10% - 50/60 Hz. For wireless switching of electrical loads. 2 functions: ON/OFF switch or time delayed switch. For wall mounted transmitter code: 8531.1 &8531.2. Switch-off delay: 3 sec. / 1 min. / 5 min. / 15 min. Repeater function can be activated for extended range. For universal attachment or installation. 3 wire connection (neutral conductor required). With auxiliary input for push-buttons code: 8104.X. Send/receive frequency: 868 MHz. Free-field range: approx. 100 m. Control element: adjustable potentiometer. Display elements: status indication of output via LED. Outputs: 1x Normally Open or Normally Closed contact, 230 Vac. Rated power: - Incandescent, halogen, electronic transformer and ferromagnetic transformers: 2.300 W / VA. - Fluorescent load: 1.000 VA. Temperature range (device): -5 °C to 45 °C. Dimensions: (L x W x D): 47 mm. x 48 mm. x 22 mm.		
	8130.4	2CLA813040A1001	1

Product	Article-No.	Order-No.	Pack/Qty
	**Wireless dimming actuator** Rated voltage: 230 Vac ; ± 10% - 50/60 Hz For wireless switching and dimming of electrical loads. For functions ON/OFF switch and dimming. For wall mounted transmitter code: 8531.1 & 8531.2. Repeater function can be activated for extended range. For universal attachment or installation. 2-wire connection (neutral conductor not required) 3-wire connection system (neutral conductor is required) is preferred when using electronic transformers, electromagnetic transformers and energy saving lamps. With auxiliary input for push-buttons code: 8104.X. Send/receive frequency: 868 MHz. Free-field range: approx. 100 m. Control element: adjustable potentiometer Display elements: status indication of output via LED. Outputs: 1 dimming channel, 230Vac Rated power: - Incandescent lamps: 35 - 300 W - Low voltage halogen lamps, which are operated by electronic transformers: 35 - 200 VA - Low voltage halogen lamps with conventional transformers: 35 - 175 VA Temperature range device: -5 °C to 45 °C Dimensions: (L x W x D): 47 mm x 48 mm x 33 mm		
	8130.5	2CLA813050A1001	1
	**Wireless blind actuator** Rated voltage: 230 Vac ; ±10 % - 50/60 Hz. For wireless switching of electrical loads or controlling blinds/shutters. 2 functions: 2-gang switch or blind control. Operation also possible via conventional blind controls code 8144.X or push-buttons 8104.X. For wall mounted transmitter code: 8531.1 & 8531.2. With blind switch function: 3 minutes run time. Repeater function can be activated for extended range. For universal attachment or installation. 3 wire connection (neutral conductor required). Send/receive frequency: 868 MHz. Free-field range: approx. 100 m. Control element: adjustable potentiometer. Display elements: status indication of output via LED. Inputs: 2. Polling voltage: 230 V~, Sensing pulse, L-wire. Outputs: 2 Normally Open contact, 230 Vac. Rated power: - Blind motors: 3 A, cos φ0.5. - Incandescent/halogen lamps: 3 A. - Fluorescent lamps: 3 AX. Temperature range device: -5 °C to 45 °C. Dimensions: (L x W x D): 47 mm. x 48 mm. x 22 mm.		
	8130.7	2CLA813070A1001	1
	**Wireless DIN-rail actuator** Rated voltage: 230 Vac ; ±10 % - 50/60 Hz. For wireless switching of electrical loads. 2 functions: ON/OFF switch or time delayed switch. For wall mounted transmitter code: 8531.1 &8531.2. Switch-off delay: 3 sec. / 1 min. / 5 min. / 10 min. / 30 min. Repeater function can be activated for extended range. For DIN-rail installation. 3 wire connection (neutral conductor required). Send/receive frequency: 868 MHz. Free-field range: approx. 30 m. Control element: adjustable potentiometer. Display elements: status indication of output via LED. Outputs: 1x Normally Open or Normally Closed contact, 230 Vac. Rated power: - Incandescent, halogen, electronic transformer and ferromagnetic transformers: 2.300 W / VA. - Fluorescent load: 1.000 VA. Temperature range device: -5 °C to 45 °C. Dimensions: 1 module.

Temperature controls - RTC

Product	Article-No.	Order-No.	Pack/Qty
	**Digital room thermostat** Rated voltage: 230 Vac - 50/60 Hz. Power consumption: < 1W Operating temperature range: + 0 ºC to 50 ºC. Measurement accuracy: ±2 ºC (± 1 ºC with calibration). Resolution: 0.1 ºC. Control output: Potential-free relay contacts Normally. Open (NO). Maximum load: 3A cos = 0,5. Output relay operation modes: - Hysteresis: 0.5 ºC. - Pulse-width modulation: with a ±4 ºC difference with the set-point temperature, variable from 100% to 0% modulation. Mounting grid delivered with the cover plate (without fixing claws). Cover plate code: 8540.5.		
	8140.5	2CLA814050A1001	1

Multiroom Bluetooth system

Product	Article-No.	Order-No.	Pack/Qty
	**Multiroom sound module** Rated voltage: 127-230 Vac ± 15%; 50-60 Hz. Max. consumption: 200 mA. Stand-by consuption: 0,3W. Amplifier power: 6+6 W; <1% distorsion (4 Ω). Speaker impedance: 4 Ω (2+2 W audio). FM radio digital tuner with RDS. Alarm clock with buzzer, radio types and snooze function. Bluetooth receiver: Bluetooth® v2.1 2.4GHz IEEE 802.15.1. Multiroom function available (1 master device and up to 14 slave devices). Remote control using code 9368.2 (ZigBee 2.4GHz IEEE 802.15.4). Optional: auxilary module 9368.3 for I/O (1 mini-jack stereo input & 1 mini-jack stereo output) and USB connection functions.		
	9368.1	2CLA936810A1001	1
	**Remote control for multiroom sound module - 2M** Rated voltage: 127-230 Vac ± 15%; 50-60 Hz. Max. consumption: 15 mA. Stand-by consuption: 0,5W. To control 9368.1 module (1 remote control for each module). Wireless connection between moles 9368.1 and 9368.2 (ZigBee 2.4GHz IEEE 802.15.4). Optional: auxilary module 9368.3 for I/O (1 mini-jack stereo input & 1 mini-jack stereo output) and USB connection functions. In case of using 9368.3 module, the connection between modules 9368.1 and 9368.2 must be wired (3 wires). Mounting grid delivered with the cover plate (without fixing claws). Cover plate code: 8568.		
	9368.2	2CLA936820A1001	1

Sky Niessen & Skymoon - Sound system

FM radio with alarm

Product	Article-No.	Order-No.	Pack/Qty
	**FM-radio and alarm module - 2M** Rated voltage: 230 Vac ± 15%; 50-60 Hz. Max. consumption: 100 mA. Stand-by consuption: 0,2W. Amplifier power: 2+2 W; <1% distorsion (16 Ω). Speaker impedance: 16 Ω (2+2 W audio). FM radio digital tuner with RDS. Alarm clock with buzzer, radio types and snooze function. Optional: auxilary module 9368.3 for I/O (1 mini-jack stereo input & 1 mini-jack stereo output), USB connection and Bluetooth receiver functions. Mounting grid delivered with the cover plate (without fixing claws). Cover plate code: 8568.

5" loudspeaker for ceiling

Product	Article-No.	Order-No.	Pack/Qty
	**5" loudspeaker 6 W** Compatible with sound modules and amplifier code: 9368, 9368.1, 9368.7 and 9335.1. With broadband characteristics. With screw terminals. Rated output: 6 W (RMS). Frequency response: 70 - 10.000 Hz. Impedance: 16 Ohm. Flush mounted installation with 9399 mounting box or 9399.1 mounting ring. Embellishing grid code: 9399.2.		
	9329.1	2CLA932910A1001	1

Product	Article-No.	Order-No.	Pack/Qty
	**Installation box for 5" loudspeaker** For 9329.1 loudspeaker. For flush-mounted assembly. Drilling measurements: 174 mm. Mounting depth: 84 mm.		
	9399	2CLA939900A1001	12

Product	Article-No.	Order-No.	Pack/Qty
	**Installation ring for 5" loudspeaker** For 9329.1 loudspeaker. For mounting in hollow walls/ceilings. With spring brackets. Drilling measurements: 160 mm. Mounting depth: 110 mm.		
	9399.1	2CLA939910A1001	12

Product	Article-No.	Order-No.	Pack/Qty
	**Embellishing grid for 5" loudspeaker** Embellishing grid for 5" loudspeaker code: 9329.1. Plastic material. With central fixation screw.		
	9399.2	2CLA939920A1001	12

Auxiliary amplifier

Product	Article-No.	Order-No.	Pack/Qty
	**Auxiliary 20W amplifier** Rated voltage: 230 Vac ± 10 % / 50-60 Hz. Power consumption: 3,5 VA (max. 36 VA). Output voltage: 15 V- (max. 1,5 A). Output power: - 10 + 10 W (2 Ω). - 20 W (4 Ω). Speaker impedance: - 2 - 16 Ω (10 + 10 W). - 4 - 16 Ω (20 W). Can be operated in booster mode with FM radio modules 9368 and 9368.7 and multiroom modules 9368.1. Can be operated in “”standalone”” mode with one audio input. Can be used in bridge operation. For extending the number of speakers at one amplifier insert. For max. 16 speakers code 9329 or 9329.1. DIN-rail installation. Module width: 7.		
	9335.1	2CLA933510A1001	1

Sensors

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor unit - 1-gang** For sending switching, dimming and blind commands to an ABB-free@home® actuator. Control element: Switch contacts top/ bottom. Display elements: LED as light for orientation or display of switching state. Mounting depth: 9 mm. To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.		
	SU-F-1.0.1	2CKA006220A0117	1
	**free@home Sensor unit - 2-gang** For sending switching, dimming and blind commands to an ABB-free@home® actuator. Control element: Switch contacts top/ bottom. Display elements: LED as light for orientation or display of switching state. Mounting depth: 9 mm. To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.		
	SU-F-2.0.1	2CKA006220A0118	1

Sensor & switch actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Switch actuator - 1/1-gang** For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Mounting depth: 32 mm. To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.		
	SSA-F-1.1.1	2CKA006220A0123	1
	**free@home Sensor/Switch actuator - 2/1-gang** For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Mounting depth: 32 mm. To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.		
	SSA-F-2.1.1	2CKA006220A0124	1
	**free@home Sensor/Switch actuator - 2/2-gang** For switching 230 V~ devices. With 2 integrated switch actuator. Switching function is available pre-configured. Outputs: 2× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2 x 1200 W. Suitable for: capacitive. Rated current: 10 AX. Mounting depth: 32 mm. To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates. Mounting depth: 32 mm. To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.

Sensor & dimmer actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home sensor/Dimmer actuator - 1/1-gang** For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. Outputs: 1× dimming channel. Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Rated power: 10–180 W / VA. Suitable for: LEDi and energy-saving bulbs. Rated power: 2–80 W / VA. Mounting depth: 32 mm. To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.		
	SDA-F-1.1.1	2CKA006220A0126	1
	**free@home Sensor/Dimmer actuator - 2/1-gang** For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. Sky Niessen & Skymoon - Free@home - Home automation

Room temperature controller

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Room temperature controller** Control element with room temperature control function for controlling commercially available actuating drives or analogue actuating drives (continuous controllers), as well as fan coils. With display of setvalue temperature. Display elements: LCD Display showing operation modes. Mounting depth: 14 mm. To be installed with CP-RTC-85 cover plates for RTC or CP-RTC-FC-85 cover plates for fan coil control.		
	RTC-F-1	2CKA006220A0122	1

Motion sensor & actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home 180° motion sensor** With select lens for detection with animal access. For automatic switching of ABB-free@home® actuators dependent on movement and brightness. To be used with. Detection range: frontal 6 m, lateral 3 m. Detection angle: 180°. Brightness limit value: 1 – 500 lux. Protection class of device: IP 20. Mounting depth: 14.1 mm. To be installed with CP-MD-85 cover plates (mounting grid without claws included).		
	MD-F-1.0.PB.1	2CKA006220A0229	1
	**free@home 180° motion sensor/actuator** With select lens for detection with animal access. Including an integrated actuator for switching 230 V~ devices. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Detection range: frontal 6 m, lateral 3 m. Detection angle: 180°. Brightness limit value: 1 – 500 lux. Protection class of device: IP 20. Mounting depth: 31.5 mm. To be installed with CP-MD-85 cover plates (mounting grid without claws included).		
	MSA-F.1.1.PB.1	2CKA006220A0231	1

Wireless sensors

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor unit - 1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For transmitting switching, push-button, dimming and blind commands to an ABB-free@home® actuator. Wireless communication with the free@home system. With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-1-85 cover plates.		
	SU-F-1.0.1-WL	2CKA006200A0072	1
	**free@home Sensor unit - 2-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For transmitting switching, push-button, dimming and blind commands to an ABB-free@home® actuator. Wireless communication with the free@home system. With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-2-85 cover plates.		
	SU-F-2.0.1-WL	2CKA006200A0073	1
	**free@home Sensor/Switch actuator - 1/1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For switching 230 V~ consumers. Wireless communication with the free@home system. With integrated switch actuator. Switching function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). 3 wire connection (neutral conductor required). With 230 V extension unit input (On/Off). With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Outputs: 1 Normally Open contact, potential-bound (output voltage: 230 Vac) Suitable for: ohmic. Rated current / power: 10 A / 2300 W. Suitable for: capacitive. Rated current / power: 10 AX / 2300 VA. Suitable for: inductive. Rated current / power: 10 A / 2300 VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-1-85 cover plates.

Sky Niessen & Skymoon - Free@home - Home automation

Wireless sensor & switch actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Switch actuator - 2/1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For switching 230 V~ consumers. Wireless communication with the free@home system. With integrated switch actuator. Switching function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.). 3 wire connection (neutral conductor required). With 230 V extension unit input (On/Off). With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Outputs: 1 Normally Open contact, potential-bound (output voltage: 230 Vac). Suitable for: ohmic. Rated current / power: 10 A / 2300 W. Suitable for: capacitive. Rated current / power: 10 AX / 2300 VA. Suitable for: inductive. Rated current / power: 10 A / 2300 VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-2-85 cover plates.		
	SSA-F-2.1.1-WL	2CKA006200A0075	1
	**free@home Sensor/Switch actuator - 2/2-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For switching 230 V~ consumers. Wireless communication with the free@home system. With integrated 2-gang switch actuator. Switching function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.). 3 wire connection (neutral conductor required). With two 230 V extension unit inputs (On/Off). With fixing claws. Control element: switch contacts top/bottom Display elements: LED as light for orientation or display of the switching state. Outputs: 2 Normally Open contacts, potential-bound (output voltage: 230 Vac). Suitable for: ohmic. Rated current / power: 5 A / 1200 W. Suitable for: capacitive. Rated power: 920 VA. Suitable for: inductive. Rated power: 800 VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-2-85 cover plates.

Wireless sensor & dimmer actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Dimmer actuator - 1/1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For dimming 230 V~ loads. Wireless communication with the free@home system. With integrated universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, lowvoltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi). Dimming function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). 2-wire connection (neutral conductor not required) 3-wire connection technology is possible as an option for improved load behaviour (for details see the manual). With 230 V extension unit input (dimming brighter/darker, switching). With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Outputs: 1 dimming channel. Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 20 - 180 W / VA. Suitable for: LEDi and energy-saving bulbs; typical. Rated power: 2 - 80 W / VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-1-85 cover plates.		
	SDA-F-1.1.1-WL	2CKA006200A0077	1
	**free@home Sensor/Dimmer actuator - 2/1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For dimming 230 V~ loads. Wireless communication with the free@home system. With integrated universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, lowvoltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi). Dimming function is available also without prior programming (left sensor channel is pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.). 2-wire connection (neutral conductor not required) 3-wire connection technology is possible as an option for improved load behaviour (for details see the manual). With 230 V extension unit input (dimming brighter/darker, switching). With fixing claws. Control element: switch contacts top/bottom Display elements: LED as light for orientation or display of the switching state. Outputs: 1 dimming channel. Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 20 - 180 W / VA. Suitable for: LEDi and energy-saving bulbs; typical. Rated power: 2 - 80 W / VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-2-85 cover plates.

Sky Niessen & Skymoon - Free@home - Home automation

Wireless sensor & blind actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Blind actuator - 1/1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For controlling blind or awning motors. Wireless communication with the free@home system. With integrated blind actuator. Blind function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). 3 wire connection (neutral conductor required). With two 230 V extension unit inputs (Up/Down). With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Outputs: 2 Normally Open contact, potential-bound (output voltage: 230 Vac). Suitable for: blind motors. Rated current / power: 4 A / 920 VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-1-85 cover plates.		
	SBA-F-1.1.1-WL	2CKA006200A0079	1
	**free@home Sensor/Blind actuator - 2/1-gang - Wireless** Rated voltage: 230 Vac - 50/60Hz. For controlling blind or awning motors. Wireless communication with the free@home system. With integrated blind actuator. Blind function is available also without prior programming (pre-configured). Configuration can be changed later via the web interface (groups, scenes, etc.). The right sensor channel for programming additional functions (groups, scenes, etc.). 3 wire connection (neutral conductor required). With two 230 V extension unit inputs (Up/Down). With fixing claws. Control element: switch contacts top/bottom. Display elements: LED as light for orientation or display of the switching state. Outputs: 2 Normally Open contacts, potential-bound (output voltage: 230 Vac). Suitable for: blind motors. Rated current / power: 4 A / 920 VA. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with SR-2-85 cover plates.

Wireless temperature controller

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Room thermostat - Wireless** Rated voltage: 230 Vac - 50/60Hz. Heating/cooling operation. Wireless communication with the free@home system. Control element with room temperature controller function. With display of set-value temperature. In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor. With fixing claws. Control element: floating rocker for the selection of set values and operating modes. Display elements: LCD showing operation modes. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with CP-RTC-85 cover plates for RTC or CP-RTC-FC-85 for fan coil control.		
	RTC-F-1-WL	2CKA006200A0081	1
	**free@home Room thermostat/actuator - Wireless** Rated voltage: 230 Vac - 50/60Hz. Rated frequency: 50 Hz / 60 Hz. Heating/cooling operation. Wireless communication with the free@home system. Control element with room temperature controller function. With display of set-value temperature. With integrated switch actuator, e.g. for controlling thermoelectric actuating drives in heating/cooling systems or electric floor heating systems. RTC function is available also without prior programming (pre-configured). In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor. 3 wire connection (neutral conductor required). With fixing claws. Control element: floating rocker for the selection of set values and operating modes. Display elements: LCD showing operation modes. Outputs: 1 Normally Open contact, potential-bound (output voltage: 230 Vac). Suitable for: ohmic. Rated current / power: 16 A / 3680 W. Temperature range device: -5 °C to 45 °C. Mounting depth: 32 mm. To be installed with CP-RTC-85 cover plates.

Touch displays

Color	Article-No.	Order-No.	Pack/Qty
	**ABB-free@homeTouch 7"** For the central control of up to 16 configurable ABB-free@home® functions of type: switching, dimming, blind, RTC, scene, Philips HUE. Display of the video image of the outdoor station of ABB-Welcome door entry system. Suitable as room temperature controller extension unit (up to 8). Surface mounting. The bus can be connected via enclosed terminal block. Display size / resolution: 17.8 cm (7") / 800 x 480 Consumer units: 11 Display elements: TFT Touch Display Dimensions: (L x W x D): 155 mm x 218 mm x 29 mm Programming only with bus voltage applied via the web interface of the System Access Point. The power is supplied by the ABB-Welcome system controller or when using the ABB-free@home panel without an ABB-Welcome system, a separate ABB 24 V- power supply is required. Protection class (device): IP30 Temperature range (device): -5 °C to 40 °C		
White	**DP7-S-611**	2CKA008300A0356	1
Black	**DP7-S-625**	2CKA008300A0357	1
	**ABB-free@homeTouch 4.3"** For the central control of up to 16 configurable ABB-free@home® functions. For the display of configurable system messages. A configurable primary function can be triggered with a multi-touch gesture. Capacitive touch screen with closed glass surface. With integrated room temperature controller and temperature sensor. In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor. Suitable as room temperature controller extension unit (up to 8). Requires additional ABB power supply 24 VDC. Display size / resolution: 10.9 cm (4.3") / 480 x 854. Mounting height: 8 mm Control element: freely programmable touch surfaces. Display elements: LCD display Bus voltage: 24 V- Dimensions: (L x W x D): 104 mm x 143 mm x 53 mm Programming only with bus voltage applied via the web interface of the System Access Point. Protection class (device): IP20 Temperature range (device): -5 °C to 40 °C		
White	**DP4-1-611**	2CKA006220A0119	1
Black	**DP4-1-625**	2CKA006220A0120	1

Color	Article-No.	Order-No.	Pack/Qty
	**Flush mounting installation box** For flush-mounted in hollow-wall installation of the ABB-free@homeTouch 4.3". Windproof. Installation dimensions (H x W x D): 82 mm x 123 mm x 50 mm Mounting depth: 50 mm Halogen free.		
	DP4-F	2CKA006220A0389	1
	**Temperature sensor** For use as remote sensor with ABB- free@homeTouch 4.3". Line type: H03 VV-F Cable length: 4 m Type: NTC 10 kohm.		
	DP4-T-1	2CKA006220A0721	1

System Access Point

Product	Article-No.	Order-No.	Pack/Qty
	**System Access Point - Wireless** For commissioning and remote control of the ABB-free@home® system. With integrated free@home wireless antenna. With integrated free@home bus connection. Allows the execution of astro and time programs. Commissioning and remote control is executed via the web interface or app. No additional commissioning software is required. Easy commissioning with WLAN ad-hoc mode. WLAN modes switchable via local operation. Connection to the home network via WLAN client mode or via CAT cable. The bus connection is provided via the enclosed bus terminal. Display elements: LED for status display. Rated voltage: 230 V~; 50/60 Hz. Bus voltage: 24 V. Dimensions: (L x W x D): 110 mm x 170 mm x 31 mm Programming via the web interface of the System Access Point. Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C		
	SAP-S-2	2CKA006200A0105	1
	**External antenna - Wireless** For use with System Access Point SAP-S-2 and SAP-S-127.2. Feed the free@home wireless signal to the outside when the internal antenna of the System Access Point is shielded due to structural conditions. With magnetic base. Cable length: 1.5 m		
	SAP-1-WL	2CKA006200A0100	1

Weather station

Product	Article-No.	Order-No.	Pack/Qty
	**Weather station** For recording and transmitting of brightness, temperature, wind speed and rain. Weather data can be linked with actuators to automatically control functions. Weather data can be visualized in the free@home web interface and the free@home app. Wind speed measuring range 2 - 30 m/s The bus can be connected via enclosed terminal block. Rated voltage: 110 V~ - 230 V~; 50/60 Hz. Bus voltage: 24 V- Inputs: 4 Temperature range (sensor): Brightness limit value: 1 lux - 100000 lux Dimensions: (L x W x D): 108 mm x 121 mm x 227 mm Protection class (device): IP44 Temperature range (device): -20 °C to 55 °C		
	WS-1	2CKA006220A0390	1

Power supply

Product	Article-No.	Order-No.	Pack/Qty
	**Power supply** Power supply with integrated choke. Fast diagnosis due to LED display for operational readiness and errors. The bus can be connected via enclosed terminal block. Display elements: operational load/overload LED Rated voltage: 127 V~ - 230 V~, +10 % / -15 %; 50/60Hz Secondary: 30 V, +2 V / --2 V Outputs: 1 Rated current: 640 mA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm Module width (DIN-rail): 4 MW		
	PS-M-64.1.1	2CDG510001R0011	1

Sky Niessen & Skymoon

Binary inputs

Product	Article-No.	Order-No.	Pack/Qty
	**Binary input 2-gang** Conventional push-buttons or auxiliary contacts can be connected to 2 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 2 Polling voltage: 20 V- Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm.		
	BI-F-2.0.1	2CDG510002R0011	1
	**Binary input 4-gang** Conventional push-buttons or auxiliary contacts can be connected to 4 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 4 Polling voltage: 20 V- Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm		
	BI-F-4.0.1	2CDG510003R0011	1
	**Binary input 4-gang** The device detects AC/DC signals of 10 - 230 V via 4 channels. The information of the signal evaluation can be used for controlling ABB-free@home® actuators or for recording status information. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 4 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 36 mm x 64 mm Module width DIN-rail): 2 MW		
	BI-M-4.0.1	2CDG510004R0011	1

Switch actuators

Product	Article-No.	Order-No.	Pack/Qty
	**Binary input 8-gang / switch actuator 8-gang** Combination device with 8 binary inputs and 8 switch actuators. Conventional push-buttons or auxiliary contacts can be connected to 8 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available by the device itself. Maximum cable length at a cable cross-section of 1.5 mm^2 < 100 m For switching 8 independent 230 V~ loads. No additional commissioning software is required. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 8 Polling voltage: 35 V- Outputs: 8 Normally Open contact, potential free Suitable for: AC1 (Output voltage: 230 V~) Rated current: 6 A, cos φ 0.8 Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A, cos φ 0.45 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 144 mm x 64.5 mm Module width (DIN-rail): 8 MW.		
	SA-M-8.8.1	2CDG510007R0011	1
	**Switch actuator 4-gang** For switching 4 independent 127 V~/230 V~ loads. Each contact has a manual operation function independent of auxiliary voltage for additionally displaying the contact setting. The bus can be connected via enclosed terminal block. Control element: relay control element. Display elements: relay control element. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 4 W Bus voltage: 24 V Outputs: 4 Suitable for: AC1 (Output voltage: 230 V~) Rated current: 16 A, cos φ 0.8 Suitable for: AC3 Rated current: 8 A, cos φ 0.45 Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm Module width (DIN-rail): 4 MW.		
	SA-M-0.4.1	2CDG510006R0011	1

Sky Niessen & Skymoon

Dimmer actuator

Product	Article-No.	Order-No.	Pack/Qty
	**DA-M-0.4.2**	2CKA006220A0395	1

Dimming actuator 4-gang
Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps.
For dimmable Retrofit-LEDs (LEDi).
Increasing the max. load via channel bridging possible.
The outputs can be switched parallel in any combination.
Outputs automatically recognize the connected load.
In addition, the operating mode can be selected manually.
Status indication of the channels via LED.
The bus can be connected via enclosed terminal block.
Display elements: outputs status indication via LED.
Programming only with bus voltage applied via the web interface of the System Access Point.
Rated voltage: 230 V~; 50/60 Hz
Bus voltage: 24 V
Outputs: 4 dimming channel
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer.
Rated power: 10 - 315 W/VA
Suitable for: LEDi and energy-saving bulbs; typical
Rated power: 2 - 80 W/VA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm
Module width (DIN-rail): 8 MW.

Blind actuator

Product	Article-No.	Order-No.	Pack/Qty
	**BA-M-0.4.1**	2CDG510011R0011	1

Blind actuator 4-gang
For controlling 4 independent blind or roller shutter drives.
The outputs are inversely blocked.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 2 W
Bus voltage: 24 V
Outputs: 4
Suitable for: AC3 (Output voltage: 230 V~)
Rated current: 6 A, cos ϕ0.45
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm
Module width (DIN-rail): 4 MW.

Heating & fan coil actuators

Product	Article-No.	Order-No.	Pack/Qty
	**HA-M-0.6.1**	2CDG510008R0011	1

Heating actuator 6-gang
For controlling thermoelectric actuating drives in heating/cooling systems.
The outputs are protected against short-circuit and overload.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 2 W
Bus voltage: 24 V
Outputs: 6
Suitable for: resistive
Rated current: 160 mA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C.
Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm.
Module width (DIN-rail): 4 MW.

	**HA-M-0.12.1**	2CDG510009R0011	1

Heating actuator 12-gang
For controlling thermoelectric actuating drives in heating/cooling systems.
The outputs are protected against short-circuit and overload.
The bus can be connected via enclosed terminal block.
Programming only with bus voltage applied via the web interface of the System Access Point.
Power dissipation: 4 W
Bus voltage: 24 V
Outputs: 12
Suitable for: ohmic
Rated current: 160 mA
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C
Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm.
Module width: 8 MW.

	**FCA-M-2.3.1**	2CDG510010R0011	1

Fan coil actuator
For controlling blower convectors. Supports 2-pipe and 4-pipe system for heating and cooling. The fan speed levels can be switched using a changeover or step switch function.
Three contacts for switching a three-stage fan.
Two contacts for activating the heating and cooling valves.
Supports 24V and 230V valves.
With two binary inputs for connecting dew-point and condensation contacts.
The scanning voltage is provided by the device.
The bus connection is provided via the enclosed bus terminal.
Programming only with bus voltage applied via the web interface of the System Access Point.
Bus voltage: 24 V
Inputs: 2
Polling voltage: 10 V-
Outputs: 3 Normally Open contact, potential free
Suitable for: AC3 (Output voltage: 230 V~)
Rated current: 6 A
Protection class (device): IP20
Temperature range (device): -5 °C to 45 °C.
Dimensions: (L x W x D): 90 mm x 108 mm x 64.5 mm.
Module width (DIN-rail): 6 MW.

Sensor

Product	Article-No.	Order-No.	Pack/Qty
	**KNX Push-button coupler - 2-gang with bus coupler** With integrated temperature sensor. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. With middle position. The bus can be connected via enclosed terminal block. Control element: switch contacts top/bottom. Display elements: 2 LED per rocker via separate communication object for status (Red/ Green/ OFF) or orientation light. Connections: KNX-line - bus connection terminal. Rated voltage: 24 V-, +5 V / -5 V. Temperature range device: -5 °C to 45 °C. To be installed with SR-1-85, SRL-1-85, SRD-1-85, SRB-1-85 and SRS-1-85 cover plates.		
	6108/06-500	2CKA006133A0221	1
	**KNX Push-button coupler - 4-gang with bus coupler** With integrated temperature sensor. Support of KNX functions through innovative colour concept (yellow=lighting, blue=blind, orange=RTC, magenta=scene and white=neutral/no function assigned) or standard illumination red/green. With middle position. The bus can be connected via enclosed terminal block. Control element: switch contacts top/bottom. Display elements: 2 LED per rocker via separate communication object for status (Red/ Green/ OFF) or orientation light. Connections: KNX-line - bus connection terminal. Rated voltage: 24 V-, +5 V / -5 V. Temperature range device: -5 °C to 45 °C. To be installed with SR-2-85, SRL-2-L-85 SRL-2-R-85, SRD-2-L-85, SRD-2-R-85, SRB-2-85 SRS-2-L-85 and SRS-2-R-85 cover plates.		
	6108/07-500	2CKA006133A0223	1
	**KNX Room thermostat with display** Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators. For controlling commercially available valve drives. With display of set-value temperature. Master/slave configuration. With base-load operation. The bus can be connected via enclosed terminal block. Class of temperature controller 1 Contribution to space heating energy efficiency 1,0%. Control element: switch contacts. Display elements: LCD showing operation mode and temperature. Connections: KNX-line - bus connection terminal. Rated voltage / current: 24 V- / 5 mA. Temperature range device: -5 °C to 45 °C. To be installed with CP-RTC-85 cover plates for RTC or CP-RTC-FC-85 cover plates for fan coil control.		
	6108/18-500	2CKA006134A0319	1

Product	Article-No.	Order-No.	Pack/Qty
	**KNX RTC with 5-gang universal input** Control element with room thermostat function for triggering the heating, ventilation and fan-coil actuators. With universal input with: - max. of 5 binary inputs. - 4 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V - 2 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V and an external temperature sensor PT1000 / T6226. With display of set-value temperature. Master/slave configuration. With base-load operation. The bus can be connected via enclosed terminal block. Class of temperature controller 1. Contribution to space heating energy efficiency 1,0%. Control element: switch contacts. Display elements: LCD showing operation mode and temperature. Connections: KNX-line - bus connection terminal. Rated voltage / current: 24 V- / 5 mA. Inputs: 5. Polling voltage: binary inputs, presence and/or window contact. Control/Signal outputs: 1, 0-10 V (passive). Temperature range device: -5 °C to 45 °C. Tobe installed with CP-CO-85 cover plates.		
	6109/18-500	2CKA006134A0315	1
	**KNX RTC with CO_2/moisture sensor** Control element with room temperature controller function and CO_2/moisture/air pressure sensor. For activating heating, ventilation and fan coil actuators. With universal input with: - max. of 5 binary inputs. - 4 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V. - 2 binary inputs and 1 analogue input for activating sensors with external power supply 1-10 V/0-10 V and an external temperature sensor PT1000 / T6226. With display of set-value temperature. Master/slave configuration. With base-load operation. The bus can be connected via enclosed terminal block. Class of temperature controller 1. Contribution to space heating energy efficiency 1,0%. Control element: switch contacts. Display elements: LCD showing operation mode and temperature. Connections: KNX-line - bus connection terminal. Rated voltage / current: 24 V- / 5 mA. Inputs: 5. Polling voltage: binary inputs, presence and/or window contact. Control/Signal outputs: 1, 0-10 V (passive). Temperature range device: -5 °C to 45 °C.		
	6109/28-500	2CKA006134A0317	1
	**KNX 180° motion sensor** Movement detector with up to 4 channels. Detection range: frontal: 6 m, lateral: 6 m. Brightness limit value: 5 lux - 150 lux. Detection angle: 180°. Position for installation: vertical. Mounting height: 1.1 m. Temperature range (device): -5 °C to 45 °C. To be installed with CP-MD-85 cover plates (mounting grid without claws included).		
	6122/98-509	2CKA006132A0307	1

Skymoon

The finest and most exclusive by Niessen

Skymoon offers minimum protrusion from the wall with a standard installation. Its 6 mm thickness makes it one of the market's thinnest lines. With Skymoon you will have a jewel to decorate the most exclusive environments.

Maximum slimness 6 mm

Machined metal switch
Also the covers of the functions

Display
Lighting in white

Chromed outlet cover
Available in stainless steel and black finishes

Perfect integration between switch and frame.
Acting as a single assembly

100% noble materials
Available in stainless steel and glass finishes

AENOR
Ecodiseño
ED-0008/2007

Eco-design
The Sky Niessen & Skymoon switch range has been designed following the Product Design and Development Environmental Management regulations: Eco-design.

Skymoon line

Skymoon is the ultimate expression of design, with unique class and subtlety. Its innovative design presents technical solutions never seen before. Elegant materials, machined metallic keys, 6mm high with respect to the wall... With the Skymoon line you will achieve that distinctive touch that makes a room a unique space. Its avant-garde design will mean that all eyes will be drawn to the most attractive item in your home or business.

• 250 V~
• 16 A
• IP21
• Compliant with standards: - European Directive RoHS 2011/65/EU - IEC 60884-1 - UNE-EN 20315 - UNE 20324-REBT-BT27 - IP21
• AENOR certified product pursuant to: - UNE 20315-1-1

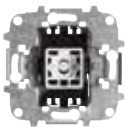
Sky Niessen & Skymoon

1-way switches

Product	Article-No.	Order-No.	Pack/Qty
	**Switch 1-gang, 1-way, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. Optional: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601, & 8601.3.		
	8101	2CLA810100A1001	10

2-way switches

Product	Article-No.	Order-No.	Pack/Qty
	**Switch 1-gang, 2-way, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. Optional: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601 & 8601.3.		
	8102	2CLA810200A1001	10
	**Switch 1-gang, 2-way, single pole 16A** Rated voltage: 110 - 250 Vac. Rated current: 16 AX. Screwless terminals. Included: fixing claws. Optional: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601 & 8601.3.		
	8102.1	2CLA810210A1001	10



Intermediate switches

Product	Article-No.	Order-No.	Pack/Qty
	**Switch 1-gang, intermediate, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. Optional: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601 & 8601.3.		
	8110	2CLA811000A1001	10

Switches with indicator lamp

Product	Article-No.	Order-No.	Pack/Qty
	**Switch 1-gang, 1-way, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. 3 wire connection (neutral conductor required). Included: indicator LED lamp 6192 BL (230 Vac). Rocker code: 8601.3.		
	8101.5	2CLA810150A1001	10
	**Switch 1-gang, 2-way, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. 4 wire connection (neutral conductor required). Indicator: indicator LED lamp 6192 BL (230 Vac). Rocker code: 8601.3.		
	8102.5	2CLA810250A1001	10

Push-buttons

Product	Article-No.	Order-No.	Pack/Qty
	**Push-button 1-gang, single pole, NO** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. NO: Normally Open. Screwless terminals. Included: fixing claws. Optional: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601 & 8601.3.		
	8104	2CLA810400A1001	10
	**Push-button 1-gang, SP, NO w/ locator lamp** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. NO: Normally Open. Screwless terminals. Included: fixing claws. 3 wire connection (neutral conductor required). Included: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601.3.		
	8104.5	2CLA810450A1001	10
	**Push-button 1-gang, single pole, NC** Rated voltage: 110 - 250 Vac. Rated current: 10AX. NC: normally closed. Screwless terminals. Included: fixing claws. Optional: locator LED lamp 6192 BL (230 Vac). Rocker code: 8601 & 8601.3.		
	8104.9	2CLA810490A1001	5

Rockers for switches and push-buttons

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker for switch, 1-gang** Rocker for switches code: 8101, 8102, 8102.1 & 8110.		
Chrome	**8601 CR**	2CLA860100A1401	5
Black Glass	**8601 CN**	2CLA860100A1501	5
	**Rocker for switch, 1-gang** Rocker for switches code: 8101, 8102, 8102.1 & 8110.

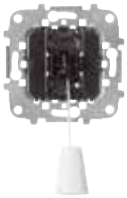
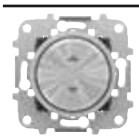
Indicator / locator LED lamp



Product	Article-No.	Order-No.	Pack/Qty
	**Indicator/locator LED lamp 230Vac** For 81XX inserts. Lamp: white LED. Long life cycle. Two functions: indicator or locator light. Power consumption: 0,2 mA. Especially recommended for LED and energy saving lamps.		
Soft White	**6192 BL**	2CLA819202A1001	10

Sky Niessen & Skymoon



2-gang switches & push-buttons

Product	Article-No.	Order-No.	Pack/Qty
	**Switch 2-gangs, 1-way, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. Rocker code: 8611.		
	8111	2CLA811100A1001	10
	**Switch 2-gangs, 2-way, single pole** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. Rocker code: 8611.		
	8122	2CLA812200A1001	10
	**Push-button 2-gangs, single pole, NO** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Without interlock. Included: fixing claws. Rocker code: 8611.		
	8144.2	2CLA814420A1001	10
	**Switch 2-way + push-button 1-way NO, SP** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Screwless terminals. Included: fixing claws. Rocker code: 8611.		
	8142	2CLA814200A1001	10
	**Rocker for switch/push-button, 2-gangs** Rocker for switch/push-buttons code: 8111, 8122, 8144.2 & 8142.		
Chrome	**8611 CR**	2CLA861100A1401	5

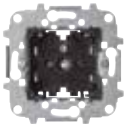
Blind controls



Product	Article-No.	Order-No.	Pack/Qty
	**Push-button blind control 2-gangs** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Direct control. Interlocked gangs. Included: fixing claws. Rocker code: 8644.		
	8144	2CLA814400A1001	10
	**Switch blind control 2-gangs** Rated voltage: 110 - 250 Vac. Rated current: 10 AX. Direct control. Interlocked gangs. Included: fixing claws. Rocker code: 8644.		
	8144.1	2CLA814410A1001	10
	**Rocker for blind switch/push-button** Rocker for blind switch/push-button code: 8144 & 8144.1.		
Chrome	**8644 CR**	2CLA864400A1401	5
Black Glass	**8644 CN**	2CLA864400A1501	5
	**Electronic blind control 1-gang** Rated voltage: 110 - 250 Vac ; 50 / 60 Hz. Rated current: 700VA@230Vac / 350VA@127Vac. Direct control. Functions: - PERS: standard blinds control. Optionally other 8144 inserts can be connected to the 8630.3 to control the blind from other locations. - LAM: venetian type blinds control. Optionally other 8144 inserts can be connected to the 8630.3 to control the blind from other locations. - Centralization (CEN): one 8630.3 can control all the 8630.3 of a line centrally. Without fixing claws.

Telephone & data outlets

Product	Article-No.	Order-No.	Pack/Qty
	**Telephone outlet RJ12** RJ12 type connector. 6 contacts. Suitable for 2 (6P2C), 4 (6P4C) or 6 (6P6C) RJ11 and RJ12 jacks. Screw terminals. Mounting grid delivered with the cover plate. Cover plate code: 8618.1 & 8618.2.		
	2017.2	2CLA201720A1001	10
	**Telephone outlet RJ45 Cat.3** RJ45 type connector. Cat.3. 8 contacts. Suitable for 8 (8P8C) RJ45 jacks. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8618.1 & 8618.2.		
	2017.3	2CLA201730A1001	10
	**Data outlet RJ45 Cat.5e UTP** RJ45 type connector. Cat.5e UTP. In compliance with ANSI/TIA/EIA 568B.2, ISO/IEC11801 & EN50173. Universal TIA/EIA 568A and 568B labeling. Housing: ABS UL-94-0. Durability: 750 cycles min. (ISO/IEC 11801, IEC 60603-7-4). IDC: PC UL94V-0, Accept 22-26AWG solid wire. Contact: RJ45 8P8C, 3~50 micro-inch gold plating over nickel plated on contact area. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8618.1 & 8618.2.		
	2018.5	2CLA201850A1001	10
	**Data outlet RJ45 Cat.6 UTP** RJ45 type connector. Cat.6 UTP. In compliance with ANSI/TIA/EIA 568B.2, ISO/IEC11801 & EN50173. Universal TIA/EIA 568A and 568B labeling. Housing: ABS UL-94-0. Durability: 750 cycles min. (ISO/IEC 11801, IEC 60603-7-4). IDC: PC UL94V-0, Accept 22-26AWG solid wire. Contact: RJ45 8P8C, 3~50 micro-inch gold plating over nickel plated on contact area. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8618.1 & 8618.2.		
	2018.6	2CLA201860A1001	10
	**Data outlet RJ45 Cat.6A STP** RJ45 type connector. Cat.6A STP. In compliance with ANSI/TIA/EIA 568B.2 , ISO/IEC11801 & EN50173. Universal TIA/EIA 568A and 568B Labeling. 10 Gb/sec. Durability: 750 cycles min. (ISO/IEC 11801, IEC 60603-7-4). Housing: Zinc Die-casting design for optimal EMI protection. Slim size is ideal for interfaces where the spaces are tight. IDC: PC UL94V-0, Accept 22-26AWG solid wire. Contact: RJ45 8P8C, 3~50 micro-inch gold plating over nickel plated on contact area. Tool-less wiring. Mounting grid delivered with the cover plate. Cover plate code: 8618.1 & 8618.2.

Light controls - Rotatory dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Universal rotatory/push dimmer** Rated voltage: 230 Vac / 50 Hz. Min. power: 60 W / VA. Max. power: - Incandescent: 500 W. - Halogen lamp with electronic transformer: 500 VA. - Halogen lamp with ferromagnetic transformer: 400 VA. 2 wire connection. Optional: auxiliary control with 8104.X push-buttons. Indicator LED lamp included. Operating temperature: 0 - 30º C. Included: - Cover plate with chrome ring. - Mounting grid without claws.		
Chrome	**8660 CR**	2CLA866000A1401	1
Black Glass	**8660 CN**	2CLA866000A1501	1
	**LED rotatory/push dimmer** Rated voltage: 230 Vac ± 10%. Frequency: 50 Hz (Nominal power: 250 W/VA) / 60 Hz (Nominal power: 200 W/VA). Power (min./max load): - LEDi: 2 / 100 W/VA (max. 10 lamps). - Dimmable energy saving lamps: 2 / 100 W/VA (max. 10 lamps). - LV LEDi with transformer (only type L or LC): 4 / 100 W / VA (max. 10 lamps). - Incandescent lamps: 10 / 250 W / VA. - Halogen lamps: 10 / 250 W / VA. - LV halogen with transformer (only type L or LC): 10 / 250 W/VA (max. 10 lamps). 2 wire connection. Optional: auxiliary on/off with 2-way switch 8102. Indicator LED lamp included. Back-up fuse: Electronic. Overload protection: Electronic. Ambient temperature: 0° C to +35° C. Included: - Cover plate with chromes ring. - Mounting grid without claws.

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Flat LED-dimmer, with rotary control** Rotary control dimmer for LED lamps. Via mode switch adjustable between leading edge control (RL) or trailing edge control (RC). 2-wire connection (N-wire not needed). Nominal power: 2 - 100 VA or 10-400W (details in manual). Linear and low-noise operation. Mixed loads allowed. Electronic short-circuit and overload protection. Adjustable minimum brightness. Also applicable for 1-gang 2-way installations. Nominal voltage 230 V/50-60 Hz. Maximum 20 LED lamps behind one dimmer. Compatibility with defined Philips LED lamps is guaranteed. 		
	LED dimmer, rotary 2-100VA, with neon lamp

Note! There might be limitations from transformer producers on how many dimmable LED bulbs can be connected behind one transformer.

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1])** **Flush-mounted, DALI, with internal power supply, tunable white** For DALI broadcast service (via central telegram). With integrated DALI power adaptor. For switching and dimming up to 64 DALI- devices like electronic ballasts and transformers with DALI-interface. With rotary control and ON/OFF push operation. For changing the colour temperature of "tunable white" lamps, which meet DALI Standard IEC 62386-209 (Device Type 8). Colour temperature can then be set between 2,700 K - 6,500 K. With electronic short-circuit protection. With electronic overload protection. Brightness power-on level and backround brightness level adjustable, buffered. With integrated LED illumination for orientation. Color of orientation light adjustable (18 presets and OFF). Up to 5 potentiometers are connectable in parallel. Up to 3 potentiometers are connectable in parallel in active mode. Not suitable for combining with other DALI sensors or central units of other manufacturers. DALI-voltage: 15,5 V= Rated current: max. 75 mA Power consumption: < 2,5 W Number of DALI-units: 37 in case of one active power-potentiometer in case of three active power-potentiometer in parallel connection: 111 Active mode: the potentiometer is supporting the necessary control circuit for other DALI-devices. Passive mode: the potentiometer is suitable as additional operation point. Max. DALI-cable length: 300 m (1,5 - 2,5 mm²). Without cover plate. Rated voltage: 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °C

Movement detectors

e-contact insert flex, 1gang [1] [2]
2-wire connection (neutral conductor not required)
Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA).
For switching lighting systems.
Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units.
Operation also possible via conventional push buttons (2020 US, 2021/6 UK).
Without control cover.
For control element flex, 1gang, wireless, 62711-WL.
For control element flex, 2gang, wireless, 62721-WL.
For Busch-Watchdog 180 flex sensors 6476x-... .
For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL.
Combinable with extension insert, 64891 U.
Rated voltage: 230 V~, +10 % / -10 %
Rated frequency: 50 Hz
Inputs: 1
Outputs: 1x Normally open contact, potential-bound
Suitable for: 230 V- LEDi, typical.
Rated power: 3 - 240 VA
Suitable for: 230 V incandescent lamps/230 V halogen lamps
Rated power: 10 - 240 W
Suitable for: Low voltage halogen lamps that are operated via transformers.
Rated power: 3 - 240 VA
Temperature range (Device): -5 °C to 45 °C
Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm
Mounting depth: 25 mm

64814 U-500	2CKA006800A3048	1

[1] Use only dimmable high-voltage LEDs.

LED dimmer insert flex, 1gang [1] [2] [3] [4] [5] [6] FM, LED, 3-240 VA
2-wire connection (neutral conductor not required).Neutral conductor optionally connectable (recommended for the connection of low loads < 10 W/VA). Touch dimmer for switching lighting systems. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Operation also possible via conventional push buttons (2020 US, 2021/6 UK). Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum brightness. With light-level memory and minimum brightness memory. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without control cover. For control element flex, 1gang, 64711. For control element flex, 2gang, 64721. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Rated power: 3-240 VA (LEDi). Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Inputs: 1. Outputs: 1x dimming channel. Suitable for: 230 V LEDi, typical (leading edge control). Rated power: 3 - 100 VA. Suitable for: 230 V LEDi, typical (trailing edge control). Rated power: 3 - 240 W. Suitable for: 230 V incandescent lamps, 230 V halogen lamps and low-voltage halogen lamps with conventional transformers or Busch Electronic Transformer. Rated power: 10 - 240 VA.Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mmIEC 60669-2-1, British Standard EN 60669-2-1

64851 U-500	2CKA006500A0013	1

[1] In the case of conventional transformers, take ~20% transformer loss into account.
[2] In case of electronic transformers, 5 % transformer losses.
[3] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[4] Recommendation: Please use loads and types of one producer.
[5] The dimmer interface is not standardised, it is the responsibility of the lamp manufacturers to list compatible products in their manufacturing information. Different installation situations can lead to different results. To clear up the problem, for example, it is recommended to carry out a local test of the selected lamps and dimmers. Please consult the lamp manufacturer for the LED dimmer recommended.
[6] A liability on the part of Busch-Jaeger for the compatibility of the allocated lamps and dimmers is therefore excluded.

Extension insert flex [1]
3 wire connection (neutral conductor required). For the extension of the Busch-Comfort switch or presence detector installations. For group control of flex inserts via extension unit communication. Operation in 1gang 2way installations via push switch-unit for combination with flush-mounted units. Without control cover. For control element flex, 1gang, wireless, 62711-WL. For control element flex, 2gang, wireless, 62721-WL. For Busch-Watchdog 180 flex sensors 6476x-... . For Busch-Watchdog 180 flex sensors, wireless, 6276x-...-WL. Combinable with all flex inserts. Rated voltage: 230 V~, +10 % / -10 %. Rated frequency: 50 Hz. Control/Signal outputs: 1, electronic output, potential-bound. Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 71 mm x 71 mm x 30 mm. Mounting depth: 25 mm

64891 U-500	2CKA006800A3051	1

[1] Only in conjunction with standard flush-mounting boxes according to DIN 49073, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)

	**Claws** Claws for 1-gang socket outlets, Euro socket outlets, switches and push switches. Not suitable for 2-gang Impressivo socket outlet inserts. Inserts with claws are also available.		
	Claws for socket outlets and swithces		
	ASE1	2TKA001721G1	10/100
	**Screw-mounted rocker frames, IP44** Screw-mounted rocker frame is used with the seals 2463 or 2464 to reach IP44 protection class on switches and push switches. Furthermore, it can be used to connect the switch frame to the insert with screws for improved security.		
	Modular		
	Supporting frame for 1/3-gang rocker, screw fastening		
	2474	2TKA000004G1	20/200
	Supporting frame for 2-gang rocker, screw fastening		
	2475	2TKA000005G1	20/200
	**Seal 85mm for 1-gang socket outlet, IP44** 1-gang socket outlet inserts installed with the seal and a center plate with hinged lid are IP44. Switches and push buttons installed with the seal and with the screwmounted rocker frames are IP44.		
	2463	2TKA000002G1	20/200
	**Seal 100mm for 2-gang socket outlet, IP44** 2-gang socket outlet inserts installed with the seal and a center plate with hinged lids are IP44. Switches, push buttons and 1-gang socket outlets with a hinged lid are also IP44, when using the seal with adaptor 2519-xx. Screw mounted rocker frame must be used to reach IP44 protection class.		
	2464	2TKA000003G1	20/200
	Blind center plate, 85mm 85mm blind center plate can be used to cover an empty box. It can be used together with 85mm flush- and surface mounting frames. Flush mounting: On a smooth surface IP21, on a rough surface IP20 (seal can't be used). When installed on surface with 2456.26 and 172xS85-xx, protection class is IP44.

Product	Article-No.	Order-No.	Pack/Qty
	**IR remote control** Infrared hand-held transmitter. Network-independent remote control for infrared receiver and KNX flushmounted infrared interface (10 consumers switchable in 2 groups, 1 – 5/6 – 10, programming and selection of 2 MEMO memories per address group). Supply: 4 alkaline manganese batteries, IEC LR03 (not included in scope of supply) Range: frontal, approx. 15 m.		
	6010-25	2TKA001017G1	1
	**Control element, 2/4gang, with RTC multi-function/colour concept** For ABB i-bus® KNX bus coupler 6120/12-101-500, 6120/13-500. Support of KNX functions through innovative colour concept (yellow = lighting, blue = blind, orange = RTC, magenta = scene and white = neutral/no function assigned) or standard illumination red/green. Rocker switch left/right (switching/dimming/blind/ value sender/light scenes/fan function). Master/slave configuration. With base-load operation. The controller is a constant room temperature controller for ventilator convectors (fan coils) in 2-pipe and 4-pipe systems and conventional heating or cooling systems. The fan stage can be switched manually or in auto- matic mode. Transparent labelling sheet with standard symbols included in delivery. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). Control element: Switch contacts left/right, also for selecting setpoint and mode of operation. Display elements: LCD showing operation mode and temperature. Protection class (Device): IP20. Temperature range (Device): -5 °C to 45 °C. Dimensions: (L x W x D): 63 mm x 63 mm.

	**Dimming actuator 4gang** Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable retrofit LED lamps (LEDi). Increasing the maximum load via channel bridging possible. The outputs can be switched parallel in any combination. Outputs automatically recognise the connected load. In addition, the operating mode can be selected manually. Status indication of the channels via LED.

Levit®
Go bright

The Levit® collection will perfectly fit into any modern home. Clear straight lines, the timeless shape of the square, the ideal proportions of the button and frame, and the striking contrast of the two-piece base. Levit®M extendends the range with cool metalic shades, which reflect the current trends in world design.

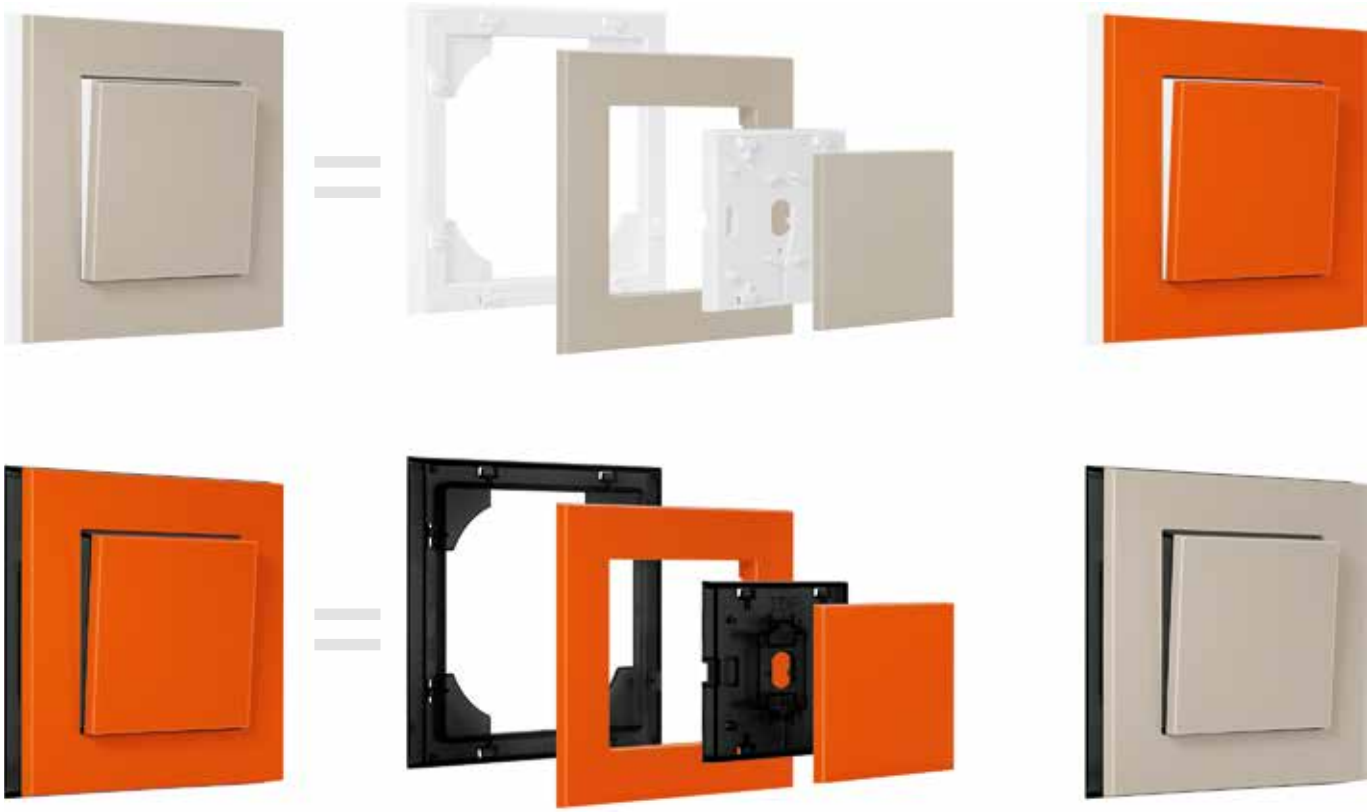
A basic product consists of a practical 2-piece (insert and cover plate, frame) and individual packaging.



Switches, one- or two-way, push-switches	01 Switch (one- or two-way) 02 Switch (one- or two-way) with orientation light 03 Switch (two-way) with indicator light 04 Switch (one- or two-way), two circuits 05 Blind switch with / without locking keys
Telecommunications	06 Connection unit TV-R 07 Connection unit TV-R-SAT 08 Data socket outlet RJ45 (for one or two jacks)
Connection units	09 SCHUKO socket outlet, shuttered 10 Double SCHUKO socket outlet, shuttered
Electronics	11 Rotary dimmer, 60-600W 12 Thermostat with rotary temperature setting, 16A 13 USB charge, 1400 mA
Blind covers, frames	14 Blind cover 15 Cable outlet 16 Frames, one to five gang* (universal for horizontal or vertical mounting) * Compatible with standard Levit® inserts (50×50)

One collection – a million possibilities

The core idea behind the Levit® collection is flexibility and variation

The cover plates and cover frames for every insert consist of two pieces: a base and a removable upper covers. The product is therefore designed in such a way so that the upper covers can be changed as desired, meaning that new color combinations can be created beyond the standard solutions we provide.

The collection features removable cover frames in nine colors.
The set includes a special tool to easily dismantle the upper cover.

The LEGO principle goes for the frames too

Multi-gang frames are also designed using the module concept: the frame base is solid, but the number of upper covers depends on the number of gangs in the frame, and everything comes together like LEGO. This means that any frame with more than one gang can be built of multiple colors. The limit is your imagination!

Unusual socket outlets

Another interesting detail: the interior of the socket outlet will always be the same color as its base. This means that in Levit® socket outlets with a translucent base, you can see the reliable German insert produced by Busch-Jaeger, a member of the ABB group.

	**Socket outlet with earthing pin, shuttered with USB charging** Nominal voltage: 250 V ~ Nominal current: 16 A Screwless terminals For simultaneous usage of socket outlet charging of a mobile device with the standard charging interface acc. to EN 62684 via USB cable (type A). Electronic short-circuit and overload protection. Output voltage: 5 V DC ± 5 % (SELV) Rated current: 700 mA Power dissipation: 0.1 W Mounting depth: 35 mm Data transmission not possible. If installing into a separate 1gang frame, please use the specialized frames with a 55×55 internal window (Art. No. 3901H-A05510 ..) If installing into a multigang frame, use standard frames with the corresponding number of gangs (Art. No. 3901H-A050..) along with specialized cover plates with internal window 55×55 (Art. No. 3901H-A00..55..): external or internal depending on the position of the insert in the frame. Also available: 2gang frames with a 55×55 internal window (Art. No. 3901H-A05520 ..)

Product	Article-No.	Order-No.	Pack/Qty
	**Busch Btconnect Radio** Busch-Jaeger insert Compatible with Levit cover plates Art. No. 3299H-A40200 .. RDS stereo radio with display, for flush-mounted installation. With Bluetooth interface to play from mobile devices. Receive frequency: 87.50 - 108.00 MHz. With external AUX input. For mono/stereo operation, 8 radio stations storable. With time and date display. With alarm clock and snooze function. With short-time timer. With automatic switch-off function. With extension input to remote-controlled ON/OFF switches. With integrated antenna. With additional connection for external antenna. Permitted speaker impedance: 4 - 8 Ohm Can be installed into standard installation box. Bluetooth specification: 2.1 Bluetooth profiles supported: A2DP Number of stored Bluetooth connections: max. 8 Nominal voltage: 110 - 230 V~, +10%/-10% Rated frequency: 50 Hz - 60 Hz Protection class: IP 20 Operating temperature: 5°C to 40°C Dimensions (Height × Width × Depth): 71 mm × 71 mm × 47 mm Built-in depth: 32 mm

	**Busch iNet Radio** Busch-Jaeger insert Compatible with Levit cover plates Art. No. 3299H-A40200 .. Wireless Internet radio alarm clock for flush-mounted installation. For the reception of national and international radio stations via Internet. Radio station search possible by genre. Integrated web-server for configuration and control. Remote control with smartphone via browser interface. UPnP replay function. Control via smartphone. For mono/stereo operation, 8 radio stations storable. With time and date display. With alarm function. With short-time timer. With automatic switch-off function. With extension input to remote-controlled ON/OFF switches. With integrated WLAN antenna. WLAN Standards: IEEE 802.11b / IEEE 802.11g. WLAN security: WPA / WPA2. Permitted speaker impedance: 4 - 8 Ohm To be installed in conjunction with standard mounting boxes. Nominal voltage: 110 - 230 V~, +10%/- 10% Rated frequency: 50 Hz - 60 Hz Protection class: IP 20 Operating temperature: 5 °C to 40 °C Dimensions (Height × Width × Depth): 71 mm × 71 mm × 49 mm Built-in depth: 33 mm

Levit®
Dimmers

Product	Article-No.	Order-No.	Pack/Qty

Rotary dimmer insert, LED, 2–400 W
Busch-Jaeger insert
Compatible with Levit cover plates
Art. No. 3294H-A00123 ..
With rotary control, two-way switch and soft-catch.
2-wire connection.
For dimmable
Retrofit-LEDs (LEDi).
For dimmable
Retrofit-LEDs (LEDi) with conventional or
or electronic transformers.
For incandescent lamps, tungsten halogen lamps 230V and low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps.
Mixed operation of LEDi with conventional loads possible.
With manually adjustable operating mode:
trailing / leading edge control.
With adjustable minimum and maximum brightness.
Low-noise level by MOSFET transistors.
With short-circuit and overload protection (electronic fuse).
Nominal voltage: 230 V~, +10%/-10%
Rated frequency: 50 Hz/60 Hz
Nominal power: 2 - 100 W/VA
(Leading edge control)
Nominal power: 2 - 400 W/VA
(Trailing edge control)
Protection class: IP 20
Operating temperature: 0 °C to 35 °C.
Take ~5% transformer loss into account in case of electronic transformers. Take in account ~20% transformer loss for conventional transformers. Only in conjunction with mounting boxes according to Din 49073 Part 1.
Can be used in circuits with several switches.

	6523 UR-103-500	2CKA006512A0345	1

END OF LIFE

Universal dimmer insert
Busch-Jaeger insert
Compatible with Levit cover plates
Art. No. 3294H-A00123 ..
With rotary knob.
With incremental sensor for universal operation.
For incandescent lamps, 230V~ tungsten halogen lamps and low-voltage halogen lamps with conventional or electronic transformers.
With short-circuit and overload protection.
Nominal voltage: 230 V~, +10%/-10%.
Rated frequency: 50 Hz/60 Hz.
Nominal power: 60 - 420 W/VA.
Take ~5% transformer loss into account in case of electronic transformers. Take in account ~20% transformer loss into account for conventional transformers. Only in conjunction with mounting boxes according to Din 49073 Part 1. Cannot be combined with a two-way switch, connection type 6.
Can be used with several switches.

Extension for operation of universal dimmer
Busch-Jaeger insert
Compatible with Levit cover plates
Art. No. 3294H-A00123 ..
Extension to be used for operation of universal dimmer Art. No. 6591 U-101-500.
Rotary control element with incremental sensor.
To one insert 6591 U-101-500 can be connected a maximum of 5 extensions.
Nominal voltage: 230 V~, +10%/-10%
Rated frequency: 50 Hz/60 Hz

	6592 U-500	2CKA006513A0590	1

Rotary dimmer, DALI, TW
Busch-Jaeger insert
Compatible with Levit cover plates
Art. No. 3294H-A00123 ..
For broadcast service (via central telegram).
For switching and dimming up to 37 DALI devices according to IEC 62386 (such as electronic ballasts and transformers with DALI-interface).
With rotary knob and ON/OFF push operation.
Protection against incorrect polarity.
For changing the color temperature of lamps “tunable white”, which meet DALI Standard IEC 62386-209 (Device Type 8).
Color temperature can then be set between 2,700 K - 6,500 K.
Brightness power-on level and background brightness level adjustable, buffered.
With integrated LED illumination for orientation.
Up to 5 devices are connectable
in parallel in passive mode.
Max. power consumption: 15 mA.
Not suitable for combining with other DALI sensors or central units of other manufacturers.
For the generation of the DALI voltage a power supply according to IEC 62386 is required; e.g. from Tridonic, Philips, Helvar or BJE, Art. No. 2116/11 U.
Max. DALI cable length: 300 m
(diameter 1,5–2,5 mm²).
Protection class: IP 20
Operating temperature: 0 °C to 35 °C

Levit®
Thermostats

Product	Article-No.	Order-No.	Pack/Qty
	**Universal thermostat with rotary knob, 16A** Individual packaging for retail Can be used for heating systems and for underfloor heating (gas, water, electricity) Linear temperature setting (1 to 5 scale) Indication of output status by two-color LED. Two push buttons on the panel (with light ndication): - power On/Off - manual temperature reduction As room temperature controller: - temperature range: +13 ° C to +27 ° C - adjustable manual temperature reduction from 2 °C to 8 °C - hysteresis: +/- 0,25 °C As floor thermostat: - external temperature sensor required (heated floor sensor), Art. No. 3292U-A90100 - temperature range +15 °C to +48 °C - adjustable manual temperature reduction from 4 °C to 16 °C - hysteresis: +/- 0,5 °C Nominal current: 16 A Nominal voltage: 230 V ~

	**Mech. switching unit insert for thermostats or timers** For Programmable universal thermostat (Art. No. 3292H-A10301 ..) Optional connection of external temperature sensor Art. No. 3292U-A90100 for floor heating. In the event of power failure the control unit display goes off. Operating temperature: 0 ° C to + 50 ° C Output: potential free NO relay contact with safety galvanic isolation Nominal current: 16 A (cos ϕ = 1) 3-wire connection Nominal voltage: 230 V ~		
	3292U-A00003	2CHU910003A4000	1

Product	Article-No.	Order-No.	Pack/Qty
	**Universal thermostat, control unit** For use only in conjunction with switching unit insert for thermostats or timers (Art. No. 3292U-A00003) Option to choose regulation of room temperature or heated floor temperature, as well as combined Regulated temperature: 0 °C to +50 °C Operation mode: manual, automatic, holiday, 3 time programs (each 70 marks each – min. interval 5 min; days of week 1, 2..., 7, 1-5, 6-7, 1-7) Prediction function Software switch-off Choice of heating or cooling mode Min. and max. floor temperature Limits for adjustable temperature Temperature offset Optional response to control by external contact Anti-freeze protection Valves protection Inversion of output function Operating hours counter Automatic summer/winter time change Push-buttons lock Adaptive control Display brightness and contrast adjustment Temperature selection sensor Language selection: Russian, English, Czech Power reserve: approx. 90 days (rechargeable Li cell) The display is lit only when supplied with 230 V ~ Operating temperature: 0 °C to +50 °C Floor temperature sensor (Art. No. 3292U-A90100) must be ordered separately

Movement detectors

Product	Article-No.	Order-No.	Pack/Qty
	**Relay switch for movement detector insert** For motion detectors Art. No. 3299H-A02182 .. Operating temperature: -10 °C to +55 °C 2,300 V for incandescent lamps, 1,750 V for low-voltage halogen lamps with conventional or electronic transformers. 500 VA / 64 mFd for fluorescent lamps 3-wire connection Nominal voltage: 230 V ~		
	3299U-A00006	2CHU700006A4000	1
	**2-channel relay switch for movement detector** For motion detectors Art. No. 3299H-A02182 .. Contact 2 is closed approx. 3 min after contact 1 is closed when movement is detected Contact 2 opens approx. 5 min after contact 1 is opened Operating temperature: -10 °C to +55 °C Nominal current: 3 A (cos ϕ > 0.8) For compact fluorescent lamps (energy saving lamps) and LED lights 4-wire connection Nominal voltage: 230 V ~		
	3299U-A00007	2CHU700007A4000	1
	**TRIAC movement detector insert** For motion detectors Art. No. 3299H-A02182 .. Brightness is dimmed 5 seconds before switch-off (only when switch-off delay is set to > 30 seconds) Operating temperature: -10 °C to +55 °C 40 – 300 W for incandescent lamps No parallel connection possible 2-wire connection Nominal voltage: 230 V ~		
	3299U-A00001	2CHU700001A4000	1

Product	Article-No.	Order-No.	Pack/Qty
	**Movement detector** For the following inserts: - relay switch for motion detector 2CHU700006A4000 - 2-channel relay switch for motion detector 2CHU700007A4000 - TRIAC for motion detector 2CHU700001A4000 Detection range: 180° Adjustable setting on the back of the cover panel: illuminance (1-1000 Lx), sensitivity, switch-off delay (5 seconds - 10 minutes, or 15/30/45/60 minutes after pressing in-built button)

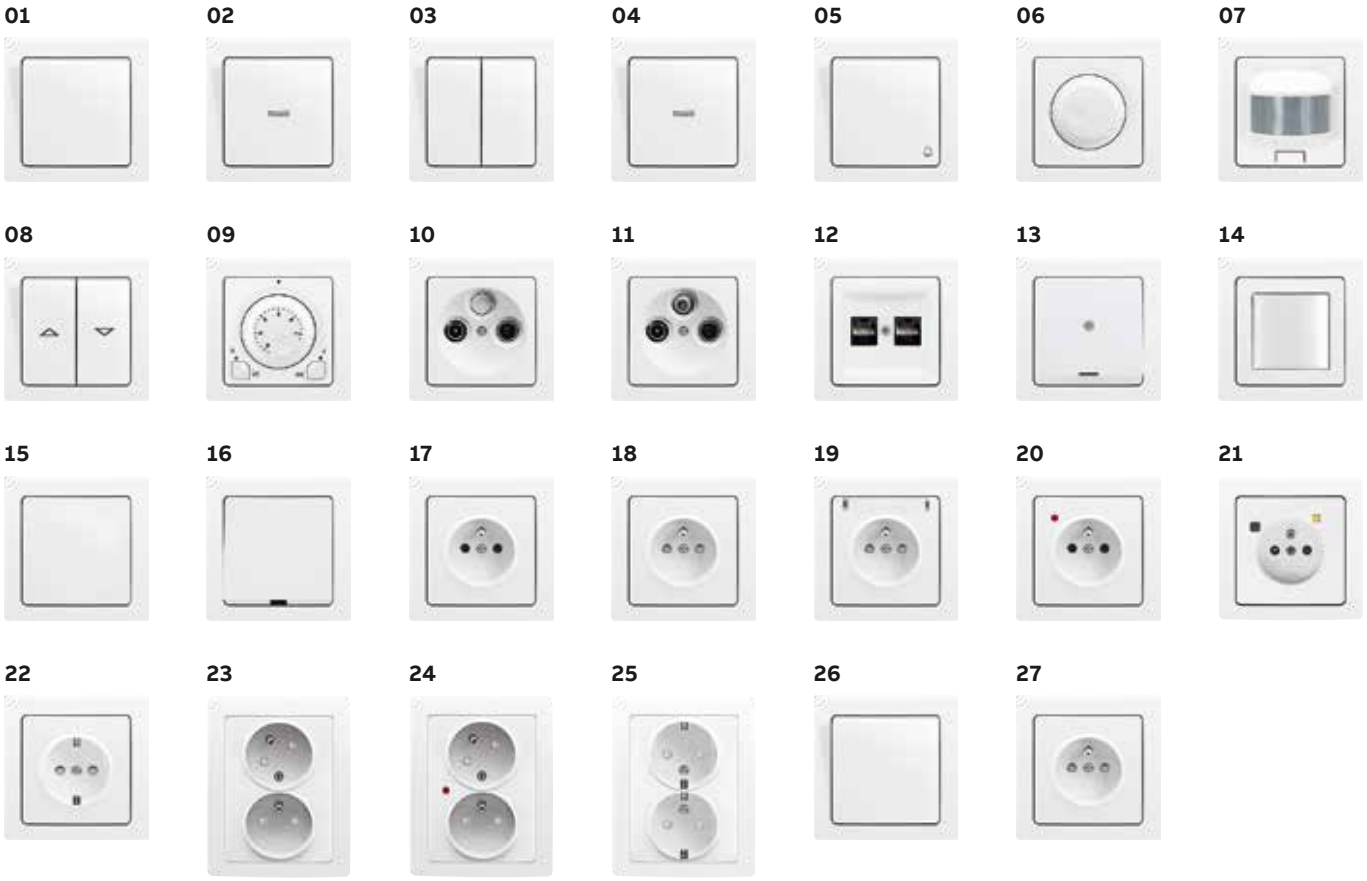
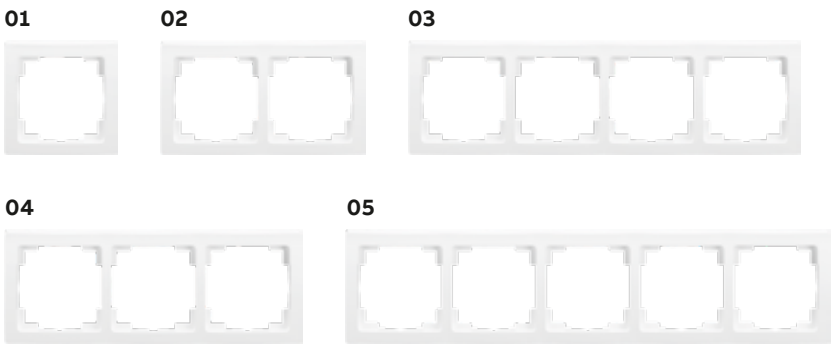
Notes

Swing®L
Understated beauty

A modest combination of colours and white. A modern square design. A compelling offer of light switches and socket outlets for your daring reconstruction plans. Easy fitting thanks to their flat installation depth. Find fun in the functional.



01 white / white
02 white / light grey
03 white / creamy
04 white / mocca
05 white / brick colour



Ideal for blocks of flats and refurbishment projects, due to the small installation depth

Swing®L

Selected functions.

01 Rocker switch 1-gang
02 Rocker switch 1-gang, with indication or orientation neon lamp
03 Rocker switch 2-gang
04 Push switch 1-gang, with indication or orientation neon lamp
05 Push switch with bell symbol
06 Dimmer with rotary control
07 Flush-mounted movement detector
08 Push switch / blind control switch
09 Thermostat with rotary temperature setting
10 Antenna socket for TV / radio
11 Antenna socket for TV / radio / satellite
12 Data communication outlet 2-gang
13 Telephone connection unit
14 Illumination LED unit
15 Blank cover
16 Cable outlet
17 Socket outlet with earthing pin
18 Socket outlet with earthing pin, shuttered
19 Socket outlet with earthing pin, shuttered, with labelling field
20 Socket outlet with earthing pin, with surge protection
21 Safety socket with earthing pin, with built-in RCD, with shutters
22 SCHUKO® socket outlet
23 Double socket outlet with earth. pins
24 Double socket outlet with earthing pins, with surge protection
25 Double SCHUKO® socket outlet
26 IP 44 rocker switch, 1-gang
27 IP 44 socket outlet with earth. pins

1- to 5-gang cover frame for horizontal and vertical installation
01 85 mm x 85 mm
02 85 mm x 156 mm
03 85 mm x 227 mm
04 85 mm x 298 mm
05 85 mm x 369 mm

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7]** **Flush-mounted, LED, 2-100 W** With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. Via mode switch adjustable between leading edge control and trailing edge control. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. With adjustable minimum brightness. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (retrofit LED loads). Nominal power: 10 - 250 W/VA (non-LED loads). Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 U-102-500	2CKA006512A0335	1/10
	**Busch-rotary dimmer [1] [2] [3] [4] [5] [6] [7]** **UP, LED, 2-400 W** Very small installation depth: < 20 mm Without claws. With rotary control, two-way switch and soft-catch. 2-wire connection (neutral conductor not required) Optimised for dimming of retrofit LED lamps (LEDi). For dimmable Retrofit-LEDs (LEDi). For dimmable Retrofit-LEDs (LEDi) with conventional or electronic transformers. For incandescent lamps, 230 V tungsten halogen lamps, low-voltage halogen lamps with conventional or electronic transformers and dimmable energy-saving halogen lamps. Mix operaton of LEDi with conventional loads possible. With manually adjustable operating mode: trailing / leading edge control. With adjustable minimum/maximum brightness. Low-noise level by MOSFET transistors. With electronic short-circuit protection. With electronic overload protection. Without cover plate. Rated voltage: 230 V~, + 10% / - 10% Rated frequency: 50 Hz/60 Hz Nominal power: 2 - 100 W/VA (leading edge control) Nominal power: 2 - 400 W/VA (trailing edge control) Protection class (Device): IP 20 Temperature range (Device): 0 °C to 35 °CIEC 60669-2-1, British Standard EN 60669-2-1 		
	6523 UR-103-500	2CKA006512A0345	1/10

[1] Illuminable with neon lamp. Neon lamp included in delivery with cover plate.
[2] In the case of conventional transformers, take ~20% transformer loss into account.
[3] In case of electronic transformers, 5 % transformer losses.
[4] Also applicable for 1gang 2way installations.
[5] Provided with terminal for net disconnection devices.
[6] Only in conjunction with standard flush-mounting boxes according to DIN 49073, Part 1, erect or Busch-Jaeger No. 3040 wallbox stonework, 3050 wallbox cavity wall or 3060 wallbox concrete)
[7] Recommendation: Please use loads and types of one producer.

Swing®L
Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**Rotary control dimmer insert with ON/OFF soft-catch** [9) 13)] For ☼ also for certain 230 V AC compact fluorescent lamps with screw cap (energy saving lamps), designed for dimming (using the leading-edge phase control). Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible). min. 60 W, max. 600 W for vacuum and halogen lamps, 230 V AC min. 10 W, max. 100 W for dimmable compact fluorescent lamps, 230 V AC		
	2250 U	6515-0-0704	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

	**Rotary control dimmer insert with ON/OFF soft-catch** [9) 13)] For ☼ [11)]; also for certain compact fluorescent lamps for 230 V AC with screw cap (energy saving lamps), designed for dimming (using the leading-edge phase control). Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible). min. 20 W/V·A, max. 500 W/V·A, for 230 V or ELV lamps, 230 V AC min. 5 W, max. 100 W for dimmable compact fluorescent lamps, 230 V AC		
	2247 U	6512-0-0057	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11)] With conventional transformers, take ~20 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

	**Rotary control dimmer insert with ON/OFF soft-catch** [9) 13)] Short-circuit and overload electronic protection. Minimum brightness setting option. For ☼ [11)] Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible). min. 200 W/V·A, max. 700 W/V·A, 230 V AC		
	6520 U-500	6520-0-0227	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[11)] With conventional transformers, take ~20 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

Product	Article-No.	Order-No.	Pack/Qty
	**Rotary control dimmer insert with ON/OFF soft-catch** [9) 13)] Short-circuit and overload electronic protection. For ☼ [12)] Can be combined with 1g2w or 1g2w/intermediate switches (for ON/OFF operation only, brightness control is not possible). min. 40 W/V·A, max. 420 W/V·A, 230 V AC		
	6513 U-102	6513-0-0568	1

[9)] At ambient temperature higher than 35 °C the load must be reduced by approx. 3 % / °C.
[12)] With electronic transformers, take 5 % transformer losses into account.
[13)] A neon lamp can be used for orientation illumination (more detailed information is given in switch range chapters).

	**Electronic potentiometer insert for 1 -10 V electronics ballasts, for rotary control and switch-on at minimal brightness level** For ⊣▭⊢ or for LED control via electronic ballast with 1 - 10 V interface. Max. control current: 50 mA DC Potential-free contact for switching the ballast power supply. It is recommended to use a relay for more than 5 ballasts. 4 A (cos ϕ = 0.9), 3 A (cos ϕ = 0.5) 700 W/V·A, 230 V AC, 50/60 Hz		
	2112 U-101	6599-0-2035	1

Swing®L

Dimmers

Product	Article-No.	Order-No.	Pack/Qty
	**DALI Power-potentiometer insert, with rotary control and ON/OFF push operation** For central switching and dimming up to 64 DALI devices in accordance with EN 62386. Increased brightness sensitivity setting at slow rotation. Integrated orientation LED illumination (18 colour presets or OFF). Short-circuit and overload electronic protection. DALI cable length: max. 300 m (cores' cross section 1.5 to 2.5 mm²). The brightness level when switched on by brief pressing: the same as it was when last used or pre-selectable. The brightness level when the power supply is restored after power failure: switched off status or pre-selectable (if supported by the DALI device). In active mode the insert serves as a DALI power supply (15.5 V DC / 75 mA) for up to 37 DALI devices (or for up to 111 DALI devices with 3 power-potentiometers in parallel connection). In passive mode the insert behaves as an additional control unit. Parallel interconnection of power-potentiometers: up to 3 pcs in active mode or up to 5 pcs in passive mode. The insert is not suitable for combination with other DALI sensors. Power consumption: max. 2.5 W 4-wire connection in active mode, 2-wire connection in passive mode 230 V AC, 50/60 Hz		
	2117/11 U-500	6599-0-2988	1
	**DALI potentiometer insert, with rotary control and ON/OFF push operation** For central switching and dimming up to 64 DALI devices in accordance with EN 62386. Increased brightness sensitivity setting at slow rotation. Integrated orientation LED illumination (18 colour presets or OFF). An additional DALI power supply is needed (e.g. by Tridonic, Philips, Helvar, or the DALI power-potentiometer 6599-0-2988). Current consumption: 7 - 15 mA The insert is polarity-reversal proof. DALI cable length: max. 300 m (cores' cross section 1.5 to 2.5 mm²) The brightness level when switched on by brief pressing: the same as it was when last used or pre-selectable. The brightness level when the power supply is restored after power failure: switched off status or pre-selectable (if supported by the DALI device). Up to fi ve potentiometers may be connected in parallel. The insert is not suitable for combination with other DALI sensors. 2-wire connection		
	2117 U-500	6599-0-2987	1
	**Cover plate for rotary dimmer** [16] With fastening nut. With two types of button (for 6514-0-0111 and other devices).		
white		3294G-A00125 B1	5

[16] Cover illumination with neon lamp or LED is not possible.

Movement detectors

Product	Article-No.	Order-No.	Pack/Qty
	**Switch insert for movement detector** Switching element: relay Operating temperature: –10 °C to +55 °C 2 300 W for ☼, 1 750 V·A for ⫼⊗ ◿⊗, 500 V·A / 64 µF pro ⊏▭⊐ [44] For easy connection, terminal N is doubled. 3-wire connection, 230 VAC		
		3299U-A00006	1

[44] Also for example, for compact 230 V AC lamps (so-called CFL bulbs) or luminaires with LED.

	**Switch insert for movement detector** Switching element: 2 relays (relay 2 switches on about 3 min after relay 1 switches on, independently of external lighting; relay 2 switches off about 5 min after relay 1) Operating temperature: –10 °C to +55 °C Max. 3 A (cos ϕ > 0,8) [44] One spare fuse is inserted in the fuse box. 4-wire connection, 230 VAC		
		3299U-A00005	1

[44] Also for example, for compact 230 V AC lamps (so-called CFL bulbs) or luminaires with LED.

	**Switch insert for movement detector** Switching element: triac 5 s before switching off the brightness is reduced Operating temperature: –10 °C to +55 °C 40 - 300 W pro ☼ One spare fuse is inserted in the fuse box. 2-wire connection, 230 V AC		
		3299U-A00001	1

[36] Parallel connection of devices is not allowed. Can not be used for non-ohmic loads (control coils, fluorescent relays, LEDs, etc.).

	**Movement detector** Detection angle: approx. 180° Adjustable values (on the back of the cover): lighting threshold (1 - 1000 lx); sensitivity; switch-off delay (5 sec - 10 min, or 15 / 30 / 45 / 60 min by pressing integrated button) Operating temperature: –10 °C to +55 °C Need to be used together with a switch insert for movement detector.		
white		3299G-A02180 B1	1

Thermostats, timers

Product	Article-No.	Order-No.	Pack/Qty
	**Switching unit insert for thermostats or time switch** Optional connection of external temperature sensor 3292U-A90100 for floor heating. Optional connection of potential free remote control contact (only for programmable control units 3292.-A10301, 3292.-A20301). Note: In the event of power failure the control unit display goes off. Operating temperature: 0 °C to +50 °C Output: potential free NO relay contact with safety galvanic isolation 16 A (cos ϕ = 1), 230 V AC, 3-wire connection		
		3292U-A00003	1
	**Universal thermostat with rotary temperature setting** Control unit (must be used with switching unit). Selectable room or fl oor function of the thermostat. Linear temperature setting. Indication of output status by two-colour LED. Push buttons for regulation ON/OFF and for manual temperature reduction (with LED indication). Operating temperature: 0 °C to +55 °C Room thermostat with thermal feedback: Temperature range: approx. +13 °C to +27 °C Adjustable manual temperature reduction: approx. 2 K to 8 K Hysteresis: approx. ±0.25 K Floor thermostat: Temperature setting range: approx. +15 °C to +48 °C Manual temperature reduction: approx. 4 K to 16 K Hysteresis: approx. ±0.5 K The external temperature sensor 3292U-A90100 (not included) must be connected to terminals 1 and 2 of the switching unit.		
white		3292G-A10101 B1	1

Accessories

Product	Article-No.	Order-No.	Pack/Qty
	**Compensator** 1. Prevents the self-ignition/fl ickering of energy-saving lamps (CFL, LED) in OFF state when orientation illumination is used. This effect is caused by features of built-in ballasts, occures if the illumination is connected between phase and the lamp. The compensator is applicable in the circuits with switches 1g1w, 1g2w, intermediate. (To be connected in parallel to the lamp). 2. Prevents after-glow of extra-low-voltage halogen or LED lamps in the deactivated state due to possible ripple voltage or activation via touch-dimmer without neutral conductor connection. (To be connected in parallel to the primary transformer side or to the lamp). 3. Removes noise generation on electronic transformers in the switched-off state during activation via touch dimmer without neutral conductor connection. (To be connected in parallel to the primary transformer side). 4. Removes ripple voltages on the control line in blind control/group controls with Busch-Jalousiecontrol® II devices. (To be connected between control wire “UP” and N conductor, and between “Down” and N conductor). Dimensions: Ø 22 × 25 mm. Length of wires: approx. 235 mm 250 V AC, 50 Hz

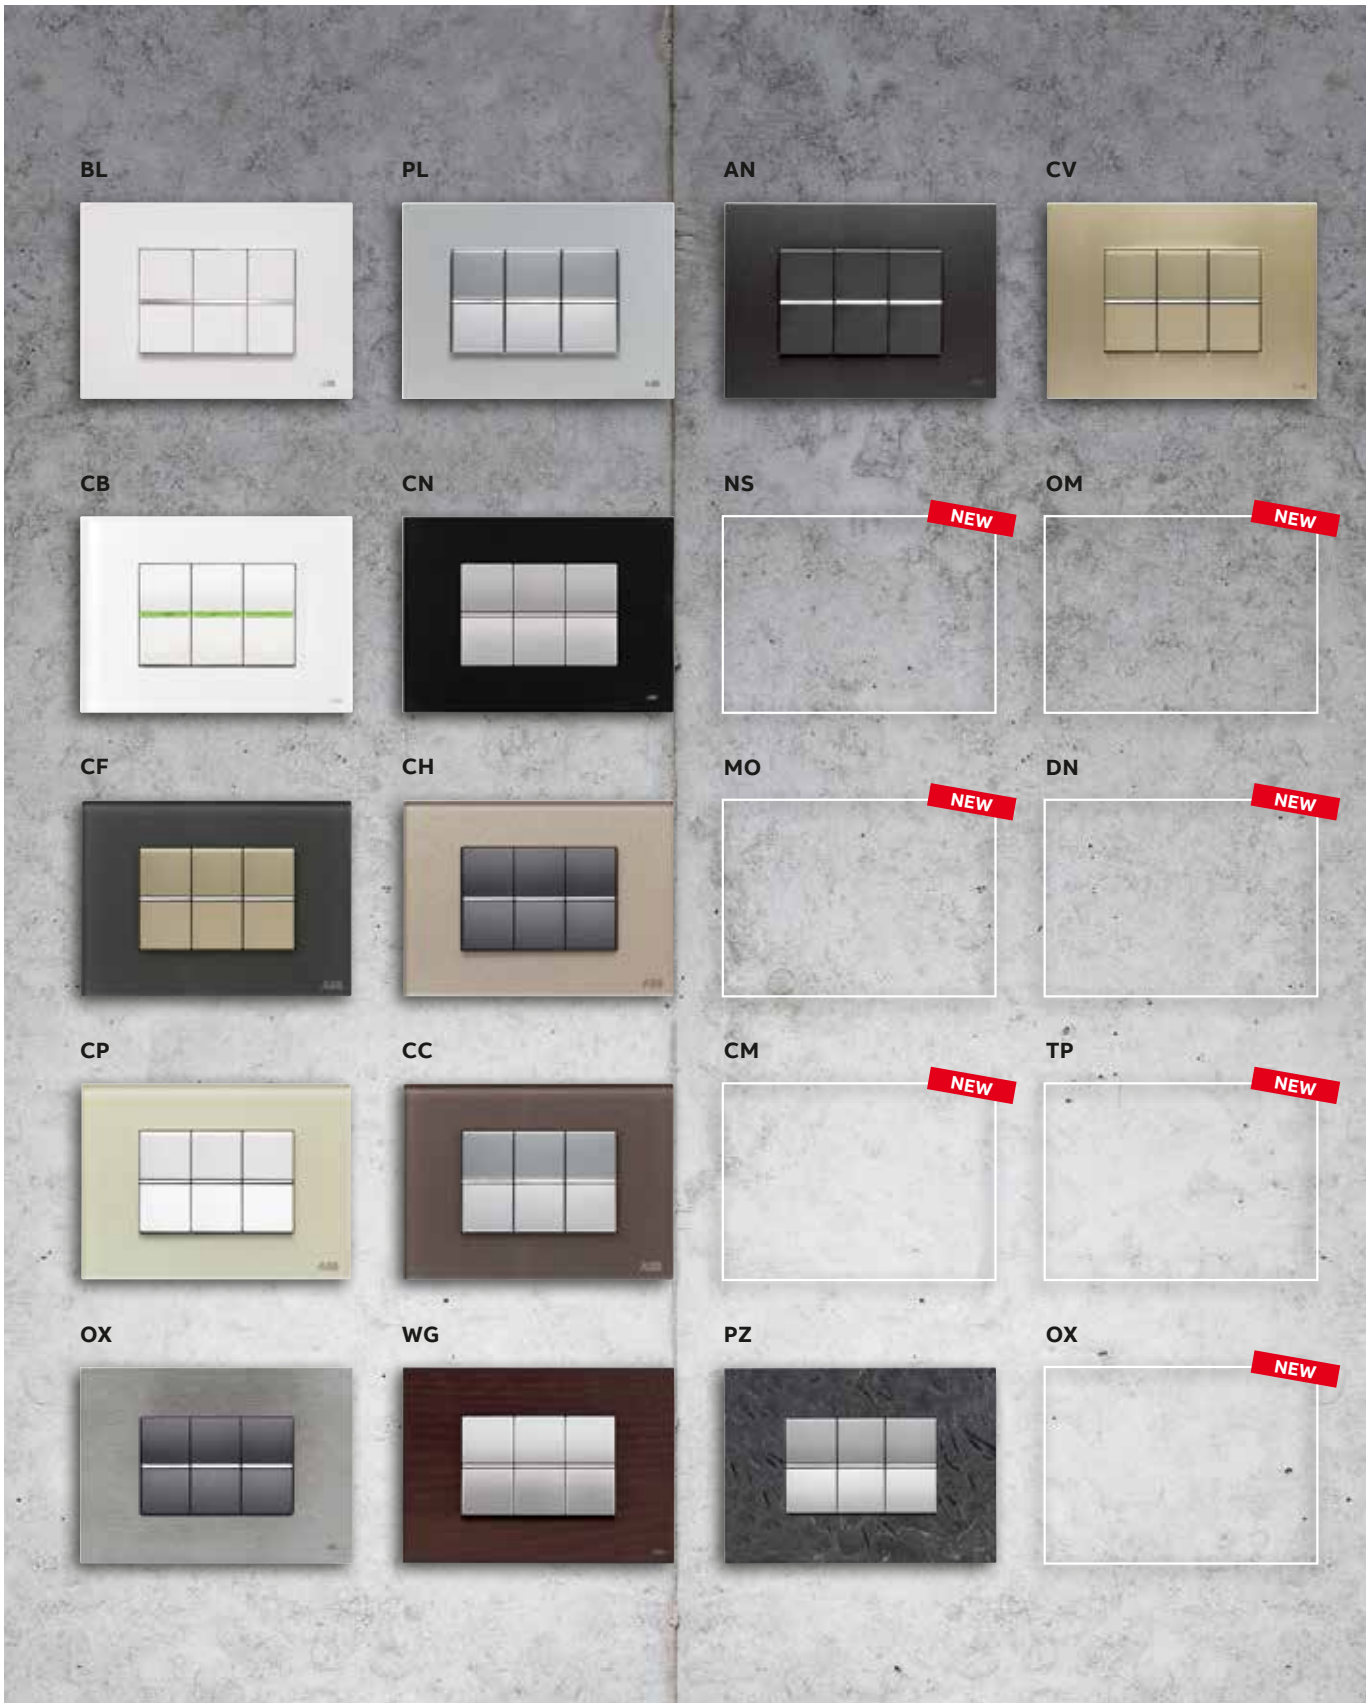
[26)] The insert meets the specified degree of protection when mounted on a vertical, smooth and non-porous wall.

[38)] The indicated degree of protection is provided only when the lid is closed.

Zenit



The highlight of modular series.

Zenit is the most comprehensive modular range for all kind of homes and commercial buildings. A number of appreciated designs and beautiful finishes that add value to the facility, with advanced features that provide greater comfort and performance level. With Zenit you can make any type of installation, can enjoy benefit of technical advantages that make it easier and faster. This range has the guarantee of a brand renowned for its quality such as ABB.

.5 Green diffuser

.51 White diffuser

The top in design and performance
For its aesthetics and details

Simple, elegant, the top in design.

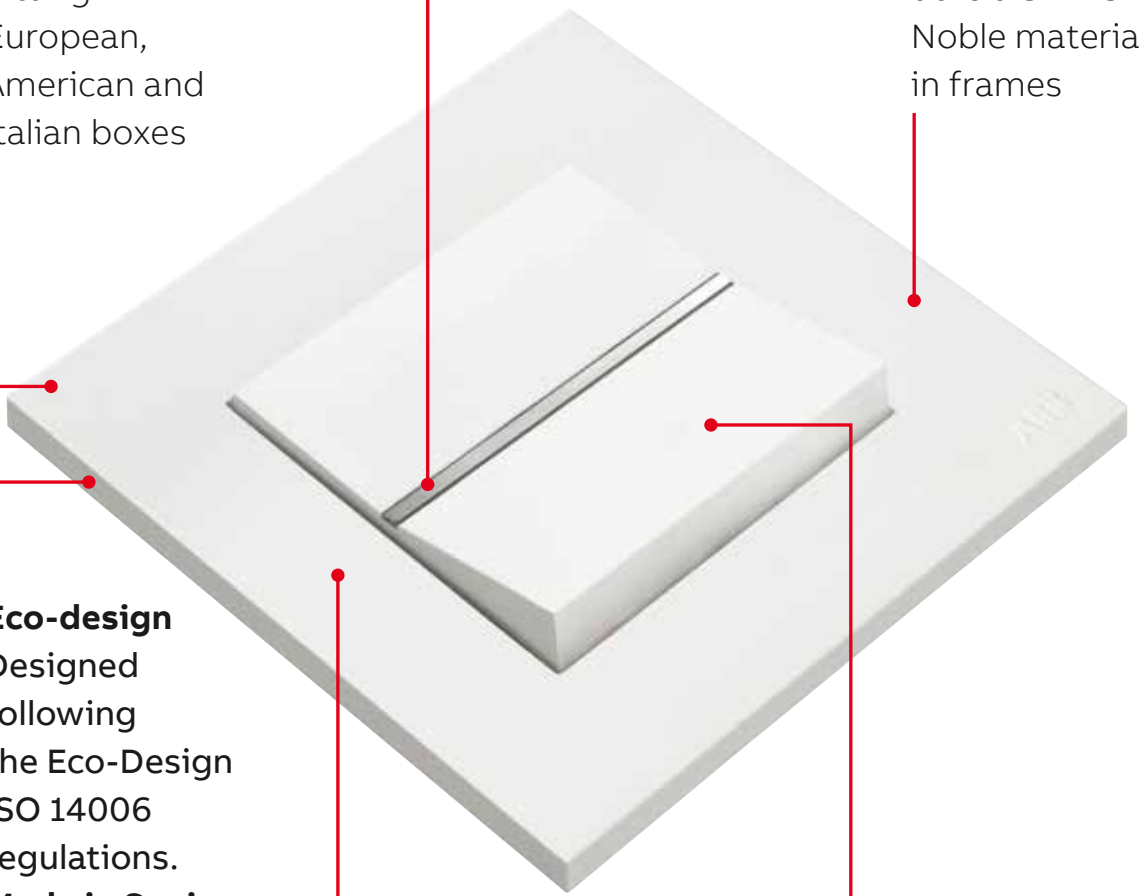
Zenit is born with a high-rise design. With rectilinear lines, very trendy finishes and full of details that enhance its aesthetics. It reaches the highest levels in quality and infinite values.

Zenit Float
7,5 mm height. Visually lightened through the 2 piece floating effect.

Zenit Solid
7,5 mm height. Compact and firm profile. Solid effect with own personality.

Zenit Soul
4,1 mm height. The essential frame with a ultra-light profile, being one of the slimmest frames in the market.

Zenit
Wide range.



Display and styling trim
Lighting in green and white. Styling trim in Chrome, Anthracite, White and Champagne

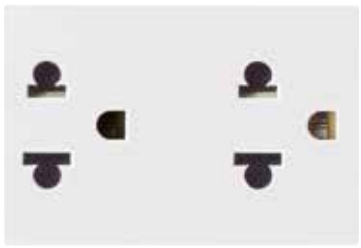
Multi-standard
Fitting in European, American and Italian boxes

High-quality and durable finishes.
Noble materials in frames

Eco-design
Designed following the Eco-Design ISO 14006 regulations.
Made in Spain with 100% renewable energy.

AENOR
Ecodiseño
ED-0008/2007

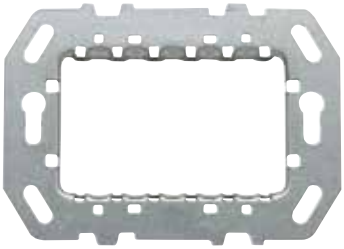
More than 100 functions in four finishes



BIM objects and App for Revit available

Zenit

Functions for all spaces .
Zenit can be installed everywhere, in spaces that require new solutions, with new applications and all installation facilities.



Rapid cabling - Up to 40% savings

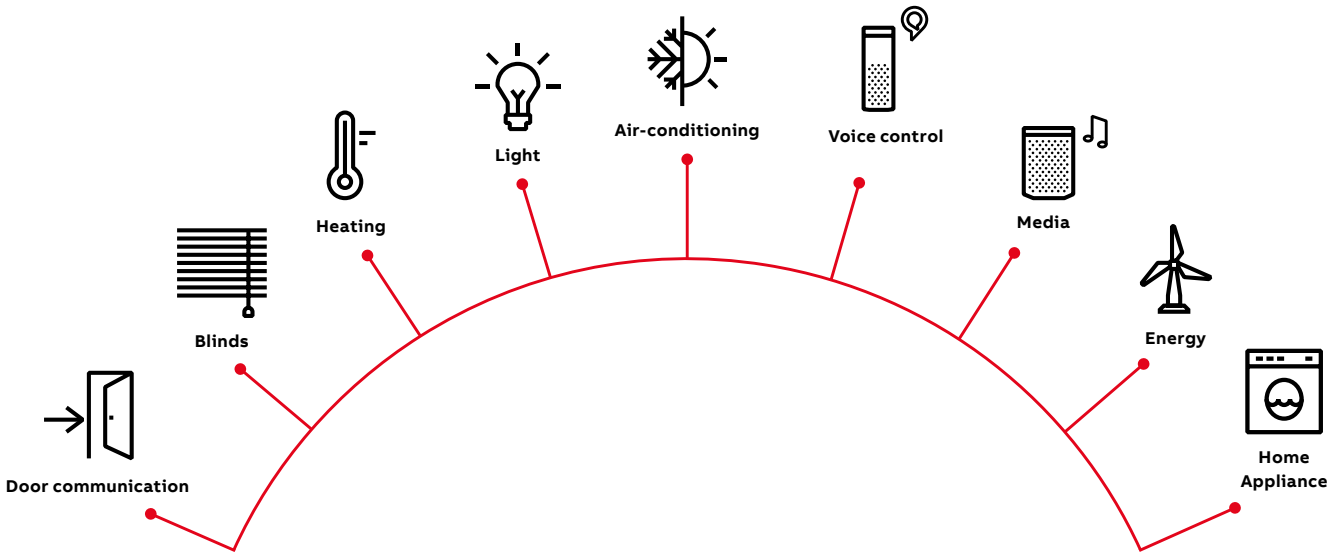
- Contacts with automatic connection terminals simplifying the cabling and saving up to a 40% in installation time. Large and smooth press clamps to make the automatic connection more comfortable and safer.
- 16AX switches for up to 200W (100W at 127Vac) LED loads, according to the latest IEC requirements.
- Robust and compact mechanisms. Insertion and extraction from the front.
- Designed to hold the switches firmly avoiding balancing problems.
- Only 21 mm depth, which allows more connection space for wires.
- Manufactured with high quality and recyclable material.

More protection

Children are really curious and get excited with any dangerous device available at home, especially those that are at the height of socket outlets. All Zenit socket outlets are equipped with shutters for child protection, protecting the live parts from electric shock.

1. Strip the cable about 14 mm and introduce it into the terminal.

2. Press the push button and insert the cable.



3. Release the push button and check fixation. To disconnect the cord, press again the push button on top and bottom.

More benefits

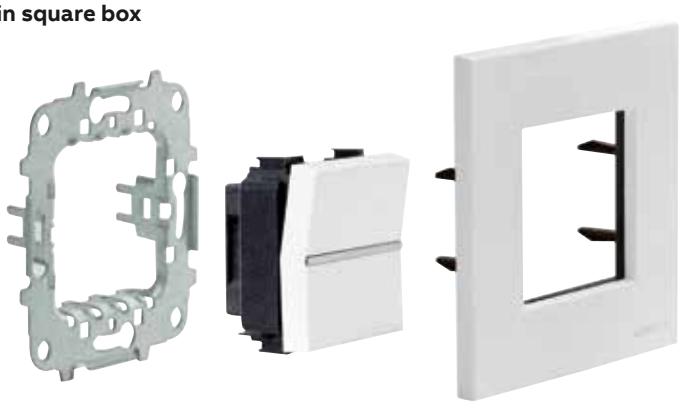
- Galvanized steel mounting plates with unique anticorrosion treatment with top and bottom nerves for a rigid positioning of the mechanism.
- Locator and indicator lights can be easily be mounted or changed from the front side without dismounting the switch.
- Low consumption LED lamps.
- Low consumption in stand-by and high efficiency USB chargers.
- Schuko socket outlets with the three screws in the same side to to facilitate their wiring.

Zenit

ABB-free@home - Home becomes smart

The pleasure of simplicity
ABB-free@home® makes daily life easier. You can manage blinds, lights, heating, air-conditioning and door communication using just one system. The smartphone becomes the remote control in the house. It allows you to raise the blinds and switch on the radio in the kitchen with the touch of a button while you are still in bed – or to deactivate all lights and devices via a switch when leaving the house. Very convenient. Extremely comfortable. Very energy efficient. The setting of these scenes is as easy as can be – to suit the mood or situation.

ABB i-bus KNX - Details and solutions for intelligent building control



Combinable concept with sensors and sensor/actuators
Creating a comprehensive range, is suitable for all needs. Optimizing comfort, safety and efficiency in homes and buildings. Providing comfort solutions to satisfy all types of needs and projects. Ensuring safety and protection of persons and goods. Saving energy by using only the amount of energy required.

Easy and intuitive installation system, providing maximum values in performance, comfort and functionality in any market

TV socket outlets

Product	Article-No.	Order-No.	Pack/Qty
	**TV / R terminal outlet** TV and R double outlet - Final. Without filter. Installation as a terminal outlet connected to a tap-off or splitter (without terminal resistor). Connection: screw terminal and clamp. Output connectors (C1 / C2): IEC male 9,52 mm. diam. / IEC female 9,52 mm. diam. Frequency range (I/O / C1 / C2): 5 - 862 MHz / 5 - 862 MHz / 5 - 862 MHz. Basic loss (FM / DAB / VHF / UHF): 10,0±0,7 dB / 10,0 ±1,5 dB / 4,0±1,5 dB / 3,0±0,5 dB. Isolation (FM / TV): >14 / >14. Return loss (FM / TV): >18 / >10. To be installed with N2250.8 cover plates. Fitting boxes with 60mm distance between screws (codes: 1099, 1999 and 1999.2).		
	8150	2CLA815000A1001	10
	**TV / R final outlet - CATV outlet** TV and R double outlet - CATV outlet - Final. With filter. Installation as a terminal outlet connected to a tap-off or splitter (without terminal resistor). Connection: screw terminal and clamp. Output connectors (C1 / C2): IEC male 9,52 mm. diam. / IEC female 9,52 mm. diam. Frequency range (C1 / C2): 5 - 68 & 118 - 1.000 MHz / 87,5 - 108 MHz. Basic loss (R / FM / TV): 0,3±0,1 dB / 1,1 ±0,3 dB / 0,9±0,3 dB. Isolation (FM / TV): >18 / >16. Selectivity (FM / TV): >10 / >18. Return loss (R / FM / TV): >18 / >16 / >18. Chroma-luminance delay (ns): <10. To be installed with N2250.8 cover plates. Fitting boxes with 60mm distance between screws (codes: 1099, 1999 and 1999.2).		
	8150.3	2CLA815030A1001	10
	**TV / R loop-through outlet** TV and R double outlet - Intermediate. Installation as an intermediate outlet in series connected to each other. From 2nd to 4th floor. Connection: screw terminal and clamp. Output connectors (C1 / C2): IEC male 9,52 mm. diam. / IEC female 9,52 mm. diam. Frequency range (I/O / C1 / C2): 13 - 862 MHz / 13 - 862 MHz / 13 - 862 MHz. Basic loss (FM / DAB / VHF / UHF): 25±1,5 dB / 25 ±1,5 dB / 8,0±0,7 dB / 8,0±0,7 dB. Through loss (FM / VHF / UHF): 2,0±0,3 dB / 2,0±0,5 dB / 2,0±0,5 dB. Directivity (FM / TV): >12 dB / >9 dB. Isolation (FM / TV): >16 / >15. Return loss (FM / TV): >12 / >12. To be installed with N2250.8 cover plates. Fitting boxes with 60mm distance between screws (codes: 1099, 1999 and 1999.2).

Temperature controls - RTC

Color	Article-No.	Order-No.	Pack/Qty
	Rotatory thermostat for underfloor heating Rated voltage: 230 Vac ±10% / 50-60 Hz. Load power: 2.300 W. Load type: floor heating resistor. Control temperature: +5°C to +45°C (Set point). OFF state: at OFF position, the thermostat is off, so that it does not address the temperature measured by the floor temperature probe. The relay output contact is open. Temperature accuracy: 0,5° C. Hysteresis: 0,5° C. Floor temperature sensor: NTC, 10 KΩ at 25° C, -40° C. to 80° C. Double isolated cable, 4 m. length. LED light indication: Red and green. Ambient temperature: -20° C to 45° C.

	Digital room thermostat - 2M Rated voltage: 230 Vac / 50-60 Hz. Power consumption: < 1W. Operating temperature range: + 0° C to 50° C. Measurement accuracy: ±2° C (±1° C with calibration). Resolution: 0.1° C. Control output: Potential-free relay contacts Normally Open (NO). Maximum load: 3A cos = 0,5. Output relay operation modes: - Hysteresis: 0.5° C. - Pulse-width modulation: with a ±4°C difference with the set-point temperature, variable from 100% to 0% modulation. To be installed with N2240.5 cover plates.

Use with ABB-free@home® 4 fold push buttons. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SSA-F-2.1.PB.1	2CKA006220A0233	1

Sensor & switch actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Switch actuator 2/2-gang - 2M** For switching 127/230 V~ devices. With 1 integrated switch actuator. Switching function is available preconfigured. Use with ABB-free@home® 4 fold push buttons. Outputs: 2× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2 x 1200 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SSA-F-2.2.PB.1	2CKA006220A0234	1

Sensor & dimmer actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Dimmer actuator 1/1-gang - 2M** For dimming 127/230 V~ loads. With integrated universal dimming. Actuator for controlling different lamps. The dimming function. Is available pre-configured. Use with ABB-free@home® 2 fold. Push buttons. Outputs: 1× dimming channel. Suitable for: 230 V incandescent lamps and low-voltage. Halogen lamps with conventional transformers or electronic. Transformers. Rated power: 10–180 W/VA. Suitable for: LEDi and energy-saving bulbs. Rated power: 2–80 W/VA. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-2-N2 cover plates.		
	SDA-F-1.1.PB.1	2CKA006220A0235	1
	**free@home Sensor/Dimmer actuator 2/1-gang - 2M** For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. Use with ABB-free@home® 4 fold push buttons. Outputs: 1× dimming channel. Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Rated power: 10–180 W/VA. Suitable for: LEDi and energy-saving bulbs. Rated power: 2–80 W/VA. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SDA-F-2.1.PB.1	2CKA006220A0236	1

Zenit - ABB-free@home®

Sensor & blind actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Sensor/Blind actuator 1/1-gang - 2M** For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® 2 fold push buttons. Outputs: 1× Change-over contacts/normally open contact, potential-bound. Rated power: 920 VA. Rated current: 4 A. Suitable for: Operating mode blind. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-2-N2 cover plates.		
	SBA-F-1.1.PB.1	2CKA006220A0237	1
	**free@home Sensor/Blind actuator 2/1-gang - 2M** For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® 4 fold push buttons. Outputs: 1× Change-over contacts/normally open contact, potential-bound. Rated power: 920 VA. Rated current: 4 A. Suitable for: Operating mode blind. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SBA-F-2.1.PB.1	2CKA006220A0238	1

Room temperature controllers

	**free@home Room temperature controller - 2M** Room temperature control function for controlling commercially available valve drives or analogue valve drives (continuous controllers). With display of set-value temperature. Only to be used with ABB-free@home® Zenit cover plates for room thermostat. Display elements: LCD Display showing operation modes. Protection class of device: IP 20. Mounting depth: 17,9 mm. To be installed with CP-RTC-N2 or CP-RTC-FC-N2 cover plates.		
	RTC-F-1.PB	2CKA006220A0276	1

Motion sensor & actuators

Product	Article-No.	Order-No.	Pack/Qty
	**free@home 180° motion sensor - 2M** With select lens for detection with animal access. For automatic switching of ABB-free@home® actuators dependent on movement and brightness. To be used with ABB-free@home® Zenit cover plates for movement detector. Detection range: frontal 6 m, lateral 3 m. Detection angle: 180°. Brightness limit value: 1 – 500 lux. Protection class of device: IP 20. Mounting depth: 14.1 mm. To be installed with CP-MD-N2 cover plates.		
	MD-F-1.0.PB.1	2CKA006220A0229	1
	**free@home 180° motion sensor/actuator - 2M** With select lens for detection with animal access. Including an integrated actuator for switching 230 V~ devices. To be used with ABB-free@home® Zenit cover plates for movement detector. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Detection range: frontal 6 m, lateral 3 m. Detection angle: 180°. Brightness limit value: 1 – 500 lux. Protection class of device: IP 20. Mounting depth: 31.5 mm. To be installed with CP-MD-N2 cover plates.		
	MSA-F.1.1.PB.1	2CKA006220A0231	1

Sensors - Wireless

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Wireless sensor unit 1-gang - 2M** Wireless communication with the system. For sending switching, dimming and blind commands to an ABB-free@home® actuator. To be used with ABB-free@home® 2 fold push buttons. Control element: Switch contacts top/ bottom. Display elements: LED as light for orientation or display. of switching state. Protection class of device: IP 20. Mounting depth: 14,1 mm. To be installed with SR-2-N2 cover plates.		
	SU-F-1.0.PB.1-WL	2CKA006200A0106	1
	**free@home Wireless sensor unit 2-gang - 2M** Wireless communication with the system. For sending switching, dimming and blind commands to an ABB-free@home® actuator. To be used with ABB-free@home® 4 fold push buttons. Control element: Switch contacts top/ bottom. Display elements: LED as light for orientation or display. of switching state. Protection class of device: IP 20. Mounting depth: 14,1 mm. To be installed with SR-4-N2 cover plates.		
	SU-F-2.0.PB.1-WL	2CKA006200A0107	1

Sensors & switch actuators - Wireless

	**free@home Wireless sensor/ Switch actuator 1/1-gang - 2M** Wireless communication with the system. For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Use with ABB-free@home® 2 fold push buttons. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-2-N2 cover plates.		
	SSA-F-1.1.PB.1-WL	2CKA006200A0108	1
	**free@home Wireless sensor/ Switch actuator 2/1-gang - 2M** Wireless communication with the system. For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Use with ABB-free@home® 4 fold push buttons. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SSA-F-2.1.PB.1-WL	2CKA006200A0109	1

Sensors & switch actuators - Wireless

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Wireless sensor/ Switch actuator 2/2-gang - 2M** Wireless communication with the system. For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available preconfigured. Use with ABB-free@home® 4 fold push buttons. Outputs: 2× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2 x 1200 W. Suitable for: capacitive. Rated current: 10 AX. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SSA-F-2.2.PB.1-WL	2CKA006200A0110	1

Sensors & dimmer actuators - Wireless

	**free@home Wireless sensor/ Dimmer actuator 1/1-gang - 2M** Wireless communication with the system. For dimming 230 V~ loads. With integrated universal dimming. Actuator for controlling different lamps. The dimming function. Is available pre-configured. Use with ABB-free@home® 2 fold. Push buttons. Outputs: 1× dimming channel. Suitable for: 230 V incandescent lamps and low-voltage. Halogen lamps with conventional transformers or electronic. Transformers. Rated power: 10–180 W/VA. Suitable for: LEDi and energy-saving bulbs. Rated power: 2–80 W/VA. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-2-N2 cover plates.		
	SDA-F-1.1.PB.1-WL	2CKA006200A0111	1
	**free@home Wireless sensor/ Dimmer actuator 2/1-gang - 2M** Wireless communication with the system. For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. Use with ABB-free@home® 4 fold push buttons. Outputs: 1× dimming channel. Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers. Rated power: 10–180 W/VA. Suitable for: LEDi and energy-saving bulbs. Rated power: 2–80 W/VA. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SDA-F-2.1.PB.1-WL	2CKA006200A0112	1

Zenit - ABB-free@home®

Sensors & blind actuators - Wireless

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Wireless sensor/ Blind actuator 1/1-gang - 2M** Wireless communication with the system. For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® 2 fold push buttons. Outputs: 1× Change-over contacts/normally open contact, potential-bound. Rated power: 920 VA. Rated current: 4 A. Suitable for: Operating mode blind. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-2-N2 cover plates.		
	SBA-F-1.1.PB.1-WL	2CKA006200A0113	1
	**free@home Wireless sensor/ Blind actuator 2/1-gang - 2M** Wireless communication with the system. For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® 4 fold push buttons. Outputs: 1× Change-over contacts/normally open contact, potential-bound. Rated power: 920 VA. Rated current: 4 A. Suitable for: Operating mode blind. Protection class of device: IP 20. Mounting depth: 31,5 mm. To be installed with SR-4-N2 cover plates.		
	SBA-F-2.1.PB.1-WL	2CKA006200A0114	1

Room temperature controllers - Wireless

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Wireless room temperature controller - 2M** Wireless communication with the system. Room temperature control function for controlling commercially available valve drives or analogue valve drives (continuous controllers). With display of set-value temperature. Display elements: LCD Display showing operation modes. Mounting depth: 17,9 mm. To be installed with CP-RTC-N2 or CP-RTC-FC-N2 cover plates.		
	RTC-F-1.PB-WL	2CKA006200A0115	1
	**free@home Wireless RTC / Heating actuator - 2M** Wireless communication with the system. Heating/cooling operation. Control element with room temperature controller function. With display of set-value temperature. With integrated switch actuator, e.g. for controlling thermoelectric actuating drives in heating/cooling systems or electric floor heating systems. RTC function is available also without prior programming (pre-configured). 3 wire connection (neutral conductor required). Control element: Floating rocker for the selection of set values and operating modes Display elements: LCD showing operation modes Rated voltage: 230 V~ / 50-60 Hz Outputs: 1 Normally open contact, potential-bound Suitable for: ohmic Rated current: 16 A Output voltage: 230 V~ Rated power: 3680 W Mounting depth: 32 mm. To be installed with CP-RTC-N2 cover plates.		
	RTC-F-2.1-1.PB-WL	2CKA006200A0116	1

Motion sensor & actuator - Wireless

Product	Article-No.	Order-No.	Pack/Qty
	**free@home Wireless 180° motion sensor/ actuator - 2M** Wireless communication with the system. With select lens for detection with animal access. Including an integrated actuator for switching 230 V~ devices. To be used with ABB-free@home® Zenit cover plates for movement detector. Outputs: 1× normally open contact, potential free. Suitable for: resistive. Rated current: 10 A. Rated power: 2300 W. Suitable for: capacitive. Rated current: 10 AX. Detection range: frontal 6 m, lateral 3 m. Detection angle: 180°. Brightness limit value: 1 – 500 lux. Protection class of device: IP 20. Mounting depth: 31.5 mm. To be installed with CP-MD-N2 cover plates.

Touch displays

Color	Article-No.	Order-No.	Pack/Qty
	**ABB-free@homeTouch 7”** For the central control of up to 16 configurable ABB-free@home® functions of type: switching, dimming, blind, RTC, scene, Philips HUE. Display of the video image of the outdoor station of ABB-Welcome door entry system. Suitable as room temperature controller extension unit (up to 8). Surface mounting. The bus can be connected via enclosed terminal block. Display size / resolution: 17.8 cm (7”) / 800 x 480 Consumer units: 11 Display elements: TFT Touch Display Dimensions: (L x W x D): 155 mm x 218 mm x 29 mm Programming only with bus voltage applied via the web interface of the System Access Point. The power is supplied by the ABB-Welcome system controller or when using the ABB-free@home panel without an ABB-Welcome system, a separate ABB 24 V- power supply is required. Protection class (device): IP30 Temperature range (device): -5 °C to 40 °C		
White	**DP7-S-611**	2CKA008300A0356	1
Black	**DP7-S-625**	2CKA008300A0357	1
	**ABB-free@homeTouch 4.3”** For the central control of up to 16 configurable ABB-free@home® functions. For the display of configurable system messages. A configurable primary function can be triggered with a multi-touch gesture. Capacitive touch screen with closed glass surface. With integrated room temperature controller and temperature sensor. In connection with temperature sensor 6226/T the integrated room temperature controller can be fitted with a remote sensor. Suitable as room temperature controller extension unit (up to 8). Requires additional ABB power supply 24 VDC. Display size / resolution: 10.9 cm (4.3”) / 480 x 854. Mounting height: 8 mm. Control element: freely programmable touch surfaces. Display elements: LCD display Bus voltage: 24 V- Dimensions: (L x W x D): 104 mm x 143 mm x 53 mm Programming only with bus voltage applied via the web interface of the System Access Point. Protection class (device): IP20 Temperature range (device): -5 °C to 40 °C		
White	**DP4-1-611**	2CKA006220A0119	1
Black	**DP4-1-625**	2CKA006220A0120	1
	**Flush mounting installation box** For flush-mounted in hollow-wall installation of the ABB-free@homeTouch 4.3”. Windproof. Installation dimensions (H x W x D): 82 mm. x 123 mm. x 50 mm. Mounting depth: 50 mm. Halogen free.		
Black	**DP4-F**	2CKA006220A0389	1
	**Temperature sensor** For use as remote sensor with ABB- free@homeTouch 4.3”. Line type: H03 VV-F Cable length: 4 m Type: NTC 10 kohm.		
	DP4-T-1	2CKA006220A0721	1

System Access Point

Color	Article-No.	Order-No.	Pack/Qty
	System Access Point 2.0 For commissioning and remote control of the ABB-free@home® system. With integrated free@home wireless antenna. With integrated free@home bus connection. Allows the execution of astro and time programs. Commissioning and remote control is executed via the web interface or app. No additional commissioning software is required. Easy commissioning with WLAN ad-hoc mode. WLAN modes switchable via local operation. Connection to the home network via WLAN client mode or via CAT cable. The bus connection is provided via the enclosed bus terminal. Display elements: LED for status display. Rated voltage: 230 V~; 50/60 Hz. Bus voltage: 24 V. Dimensions: (L x W x D): 107 mm x 109 mm x 30 mm Programming via the web interface of the SAP. Suitable as table device or for wall mounting. 2 x USB ports for future extension of functions. 2.4 GHz and 5 GHz WLAN		
	SAP/S.3	2CKA006200A0155	1
	**External antenna - Wireless** For use with System Access Point SAP-S-2 and SAP-S-127.2. Feed the free@home wireless signal to the outside when the internal antenna of the System Access Point is shielded due to structural conditions. With magnetic base. Cable length: 1.5 m.		
	SAP-1-WL	2CKA006200A0100	1

Weather station

	**Weather station** For recording and transmitting of brightness, temperature, wind speed and rain. Weather data can be linked with actuators to automatically control functions. Weather data can be visualized in the free@home web interface and the free@home app. Wind speed measuring range 2 - 30 m/s The bus can be connected via enclosed terminal block. Rated voltage: 110 V~ - 230 V~; 50/60 Hz. Bus voltage: 24 V- Inputs: 4 Temperature range (sensor): Brightness limit value: 1 lux - 100000 lux Dimensions: (L x W x D): 108 mm x 121 mm x 227 mm Protection class (device): IP44 Temperature range (device): -20 °C to 55 °C		
	WS-1	2CKA006220A0390	1

Power supply

	**Power supply** Power supply with integrated choke. Fast diagnosis due to LED display for operational readiness and errors. The bus can be connected via enclosed terminal block. Display elements: operational load/overload LED Rated voltage: 127 V~ - 230 V~, +10 % / -15 %; 50/60Hz Secondary: 30 V, +2 V / --2 V Outputs: 1 Rated current: 640 mA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 72 mm x 64 mm Module width (DIN-rail): 4 MW		
	PS-M-64.1.1	2CDG510001R0011	1

Zenit - ABB-free@home®

Binary inputs

Product	Article-No.	Order-No.	Pack/Qty
	**Binary input 2-gang** Conventional push-buttons or auxiliary contacts can be connected to 2 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 2 Polling voltage: 20 V- Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm.		
	BI-F-2.0.1	2CDG510002R0011	1
	**Binary input 4-gang** Conventional push-buttons or auxiliary contacts can be connected to 4 channels. The information of the contact scanning can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 4 Polling voltage: 20 V- Dimensions: (L x W x D): 39 mm x 40 mm x 12 mm		
	BI-F-4.0.1	2CDG510003R0011	1
	**Binary input 4-gang** The device detects AC/DC signals of 10 - 230 V via 4 channels. The information of the signal evaluation can be used for controlling ABB-free@home® actuators or for recording status information. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 4 Module width DIN-rail): 2 MW		
	BI-M-4.0.1	2CDG510004R0011	1

Switch actuators

Product	Article-No.	Order-No.	Pack/Qty
	**Binary input 8-gang / switch actuator 8-gang** With 8 binary inputs and 8 switch actuators. Zenit push-buttons or auxiliary contacts can be connected to 8 channels. These can be used for activating ABB-free@home® actuators or for recording status information. Maximum cable length at a cable cross-section of 1.5 mm² < 100 m For switching 8 independent 127/230 V~ loads. No additional commissioning software is required. Bus voltage: 24 V Inputs: 8 Polling voltage: 32 V- Outputs: 8 Normally Open contact, potential free Suitable for: AC1 (Output voltage: 230 V~) Rated current: 6 A, cos □0.8 Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A, cos □0.45 Module width (DIN-rail): 8 MW.		
	SA-M-8.8.1	2CDG510007R0011	1
	**Switch actuator 4-gang** For switching 4 independent 127/230 V~ loads. Each contact has a manual operation function independent of auxiliary voltage for additionally displaying the contact setting. Control element: relay control element. Display elements: relay control element. Power dissipation: 4 W Bus voltage: 24 V Outputs: 4 Suitable for: AC1 (Output voltage: 230 V~) Rated current: 16 A, cos □0.8 Suitable for: AC3 Rated current: 8 A, cos □0.45 Module width (DIN-rail): 4 MW.		
	SA-M-0.4.1	2CDG510006R0011	1

Blind actuator

Product	Article-No.	Order-No.	Pack/Qty
	**Blind actuator 4-gang** Control of 4 independent blind or roller shutters. The outputs are inversely blocked. Power dissipation: 2 W Bus voltage: 24 V Outputs: 4 Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A, cos □0.45 Module width (DIN-rail): 4 MW.

Dimming actuator

Product	Article-No.	Order-No.	Pack/Qty
	**Dimming actuator 4-gang - 230Vac** Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energy-saving halogen lamps. For dimmable Retrofit-LEDs (LEDi). Increasing the max. load via channel bridging possible. The outputs can be switched parallel in any combination. Outputs automatically recognize the connected load. In addition, the operating mode can be selected manually. Status indication of the channels via LED. The bus can be connected via enclosed terminal block. Display elements: outputs status indication via LED. Programming only with bus voltage applied via the web interface of the System Access Point. Rated voltage: 230 V~; 50/60 Hz Bus voltage: 24 V Outputs: 4 dimming channel Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 10 - 315 W/VA Suitable for: LEDi and energy-saving bulbs; typical Rated power: 2 - 80 W/VA Protection class (device): IP20 Temperature range (device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm Module width (DIN-rail): 8 MW.		
	DA-M-0.4.2	2CKA006220A0395	1
	**Dimming actuator 4-gang - 127Vac** Multi-channel universal dimming actuator for controlling LEDs, incandescent lamps, 230 V halogen lamps, low-voltage halogen lamps with conventional or electronic transformers, and dimmable energysaving halogen lamps. For dimmable Retrofit-LEDs (LEDi). Increasing the max. load via channel bridging. The outputs can be switched parallel. Outputs automatically recognize the connected load. The operating mode can be selected manually. Status indication of the channels via LED. Display elements: outputs status indication via LED. Rated voltage: 127 V~; 50/60 Hz Bus voltage: 24 V Outputs: 4 dimming channel Suitable for: 127 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformer. Rated power: 5 - 150 W/VA Suitable for: LEDi and energy-saving bulbs; typical Rated power: 2 - 40 W/VA Module width (DIN-rail): 8 MW.

Heating & fan coil actuators

Product	Article-No.	Order-No.	Pack/Qty
	**Heating actuator 6-gang** For controlling thermoelectric actuating drives in heating/cooling systems. The outputs are protected against short-circuit and overload. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 2 W Bus voltage: 24 V Outputs: 6 Suitable for: resistive Rated current: 160 mA Module width (DIN-rail): 4 MW.		
	HA-M-0.6.1	2CDG510008R0011	1
	**Heating actuator 12-gang** For controlling thermoelectric actuating drives in heating/cooling systems. The outputs are protected against short-circuit and overload. The bus can be connected via enclosed terminal block. Programming only with bus voltage applied via the web interface of the System Access Point. Power dissipation: 4 W Bus voltage: 24 V Outputs: 12 Suitable for: ohmic Rated current: 160 mA Module width: 8 MW.		
	HA-M-0.12.1	2CDG510009R0011	1
	**Fan coil actuator** For controlling blower convectors. Supports 2-pipe and 4-pipe system for heating and cooling. The fan speed levels can be switched using a changeover or step switch function. Three contacts for switching a three-stage fan. Two contacts for activating the heating and cooling valves. Supports 24V and 230V valves. With two binary inputs for connecting dew-point and condensation contacts. The scanning voltage is provided by the device. The bus connection is provided via the enclosed bus terminal. Programming only with bus voltage applied via the web interface of the System Access Point. Bus voltage: 24 V Inputs: 2 Polling voltage: 10 V- Outputs: 3 Normally Open contact, potential free Suitable for: AC3 (Output voltage: 230 V~) Rated current: 6 A Module width (DIN-rail): 6 MW.

Push switch sensors

Product	Article-No.	Order-No.	Pack/Qty
	**KNX sensor - 1/2-gang - 1M** NEW Push switch function: switching, dimming, blind or scene. Display elements: LED to indicate the function. To be installed with N2121, N2121.1, N2121.3, N2121.5, N2121.8, N2121.9 or N21 customized rockers.		
	RS/U 1.1	2CSY244490R1012	1
	**KNX sensor - 2/4-gang - 2M** NEW Push switch function: switching, dimming, blind or scene. Display elements: LED to indicate the function. To be installed with N2121, N2121.1, N2121.3, N2121.5, N2121.8, N2121.9 or N21 customized rockers.		
	RS/U 2.1	2CSY247450R1003	1

Push switch sensor & switch actuators

	**KNX sensor/switch actuator - 2/1-gang - 2M** NEW Push switch function: switching, dimming, blind or scene. Display elements: LED to indicate the function. Outputs: 1x potential free contact. Rated current: 16 A. To be installed with N2121, N2121.1, N2121.3, N2121.5, N2121.8, N2121.9 or N21 customized rockers.		
	RA/U 1.16.1	2CSY249580R1103	1
	**KNX sensor/switch actuator - 2/2-gang - 2M** NEW Push switch function: switching, dimming, blind or scene. Display elements: LED to indicate the function. Outputs: 2x potential free contacts. Rated current: 8 A. To be installed with N2121, N2121.1, N2121.3, N2121.5, N2121.8, N2121.9 or N21 customized rockers.		
	RA/U 2.8.1	2CSY242150R1106	1

Push switch sensor & blind actuators

	**KNX sensor/blind actuator - 1/1-gang - 2M** NEW Push switch function: switching, dimming, blind or scene. Display elements: LED to indicate the function. Outputs: 1x change-over contacts/potential-bound Rated current: 8 A. To be installed with N2221, N2221.1, N2221.3, N2221.5, N2221.8, N2221.9 or N22 customized rockers.		
	RB/U 1.1	2CSY247240R1105	1

Rockers for push switch sensors

Product	Article-No.	Order-No.	Pack/Qty
	**Rocker cover without symbol - 1M** NEW Rocker cover without symbol for KNX sensor/actuator. Suitable for codes: RS/U 1.1 and left and right positions of RS/U 2.1, RA/U 1.16.1 and RA/U/ 2.8.1.

ID number definition

Customized rockers for RS/U 1.1 and left position of RS/U 2.1, RA/U 1.16.1 and RA/U/ 2.8.1:

Customized rockers for right position of RS/U 2.1, RA/U 1.16.1 and RA/U/ 2.8.1:

Customized rockers for right position of RS/U 1.1:

To define the ID Number of the customized rocker:
1) Substitute XXX by 3-digit Symbol Number of the icon to print at the upper side of the rocker
2) Substitute XYYY by 3-digit Symbol Number of the icon to print at the lower side of the rocker

Zenit - ABB i-bus® KNX

Push-button sensors

Product	Article-No.	Order-No.	Pack/Qty
	**KNX sensor - 1/2-gang - 2M** Push button function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, scene and fan-coil. Control element: Switch contacts. Display elements: LED to indicate the function. To be installed with N2221.2 cover plates.		
	6125/98-509	2CKA006115A0444	1
	**KNX sensor - 2/4-gang - 2M** Push button function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, scene and fan-coil. Control element: Switch contacts. Display elements: LED to indicate the function. To be installed with N2221.4 cover plates.		
	6126/98-509	2CKA006116A0219	1
	**KNX sensor - 3/6-gang - 2M** Push button function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, scene and fan-coil. Control element: Switch contacts. Display elements: LED to indicate the function. To be installed with N2221.6 cover plates.		
	6129/96-509	2CKA006118A0105	1
	**KNX sensor - 3/6-gang with IR receiver - 2M** Push button function: switching / dimming / blind / sending values / scenes etc. Incl. 10 logic channels (light scene actuator, sequence actuator, logic gates, etc.). The accompanying symbol can be replaced by the symbols for lighting, blinds, room thermostat, scene and fan-coil. Control element: Switch contacts. Display elements: LED to indicate the function. To be installed with N2221.7 cover plates.		
	6129/96-509	2CKA006118A0108	1

Zenit - ABB i-bus® KNX

Room temperature controller

Product	Article-No.	Order-No.	Pack/Qty
	**KNX room temperature controller - 2M** For triggering the heating, ventilation and fan-coil actuators. Thermostat for fan-coil units in 2 and 4 pipe systems and conventional heating or cooling systems. Fan stage can be switched manually or in automatic mode. Switch contacts for operating mode selection and dial for setpoint or fan speed adjustment. Display elements: LCD showing operation modes. To be installed with N2240.4 cover plates.		
	6124/98-509	2CKA006134A0297	1
	**Cover plate - KNX RTC - 2M** Cover plate for KNX RTC sensors code: 6124/98-509.		
White	**N2240.4 BL**	2CLA224040N1101	1
Silver	**N2240.4 PL**	2CLA224040N1301	1
Anthracite	**N2240.4 AN**	2CLA224040N1801	1
Champagne	**N2240.4 CV**	2CLA224040N1901	1
	**KNX thermostat - 2M** NEW Standard KNX thermostat equipped with backlight LCD display 4 push buttons on the front for the following functionalities (Operating mode switching, Fan-coil speed manual switching, set-point manual increment/decrement). Possibility to choose different type of control: 2-point ON/OFF, PWM, Continue, Fan- coil Cover plate included.

Zenit - ABB i-bus® KNX

Transponder holder

Product	Article-No.	Order-No.	Pack/Qty
	**KNX transponder holder - 2M** NEW The “transponder holder” is a flush-mounting device for British Standard wall boxes, designed to realize access control systems with a communication support based on KNX bus. It is equipped with one relay (4A @24V AC/DC) and one binary input to be used for connecting external conventional push-button for switch, dimmer and shutter functionalities, or for example for connecting window contact or similar. The output can be programmed as “Linked to access control”, receiving in this case switching commands from the device itself (according to card insertion/removal); or being a standard KNX Switch actuator output, able to be controlled by every KNX-standard devices. The white blinking LED placed on the front of the device allow you to monitor device operation and can be also switched ON/OFF in the proper color according to KNX. The transponder reader requires a 12...24 V AC/DC external power supply to ensure its operation even with bus voltage failure. Cover plate included.		
White	**TH/U 1.1.ZW**	2CSY244340R5200	1
Silver	**TH/U 1.1.ZS**	2CSY242070R5200	1
Anthracite	**TH/U 1.1.ZA**	2CSY249430R5200	1
Champagne	**TH/U 1.1.ZC**	2CSY247160R5200	1

Transponder reader

Product	Article-No.	Order-No.	Pack/Qty
	**KNX transponder reader - 2M** NEW The “transponder reader” is a flush-mounting device for British Standard wall boxes, designed to realize access control systems with a communication support based on KNX bus. It is equipped with one relay (4A @24 V AC/DC) and one input to be used for connecting external conventional card-holder (e.g. Zenit wiring accessories card-holder). The output can be programmed in three different ways: “Linked to access control”, receiving in this case switching commands from the device itself (according to transponder card validation); being a standard KNX Switch actuator output, able to be controlled by every KNXstandard devices; “linked to card-holder”, that means that the relay is switched according to closing/opening internal input contact available on transponder reader. The bicolor (red-green) LED placed on the front of the device allow you to monitor device operation and can be also switched ON/OFF in the proper color according to KNX telegram (for example for DND/MUR purposes). The transponder reader can be configured with ABB control software in order to behave as transponder programming device. The transponder reader requires a 12...24 V AC/DC external power supply to ensure its operation even with bus voltage failure. Cover plate included.
