

CoreLine Tempo LED

Maximum efficiency within your budget

Key Features and Benefits

- Point-to-point replacement from 70W to 150W conventional HID floodlights
- Up to 50% energy savings compared to some conventional light sources
- Symmetrical and asymmetrical beam angles
- Instant light with a long lifetime
- Universal mounting bracket for ceiling, wall or surface up and down lighting

- Reliable quality with die-casting aluminium housing providing robustness, vibration-proof, wind force protection, with anti-corrosion spray paint, and IP65 protection

Application areas

- General area lighting
- Industrial Areas
- Signage
- Parking areas
- Building facades
