

Marshall Tufflex

Providing Cable Management Solutions

This dedicated team was set up to address some of the difficult cable management problems encountered by designers, architects, consulting engineers and specifiers. With support from our in-house Design Office, the Specials team is committed to creating quality design solutions that are versatile and

SPECIALISED APPLICATIONS
from

The Marshall-Tufflex Specialised Applications service has been established to provide solutions for your unique project requirements.

However many cable management systems there are available, there will always be a need for the bespoke solution and finding this solution is often a time-consuming and frustrating business. This is where we can help!

Based on our extensive technical experience and expertise in the cable management industry, we are committed to creating quality design solutions for your project that are versatile and functional, combining strength, style and safety.

Specialised Appli

Whether it's a pre-wired trunking system, powerpoles or posts suspended from the ceiling, a system for an unusually shaped room or providing units with customised power, gas and data outlets we can find a cable management solution that will make life easier for you.

Our service to you includes:

- Evaluation of your cable management installation
- Design of solutions to meet your requirements
- Full project quotation service
- Manufacture of products to your unique installation needs
- Ongoing technical support

To discuss your requirements for specialised cable management solutions, please contact our Technical Department on +44 (0) 1424 856688.

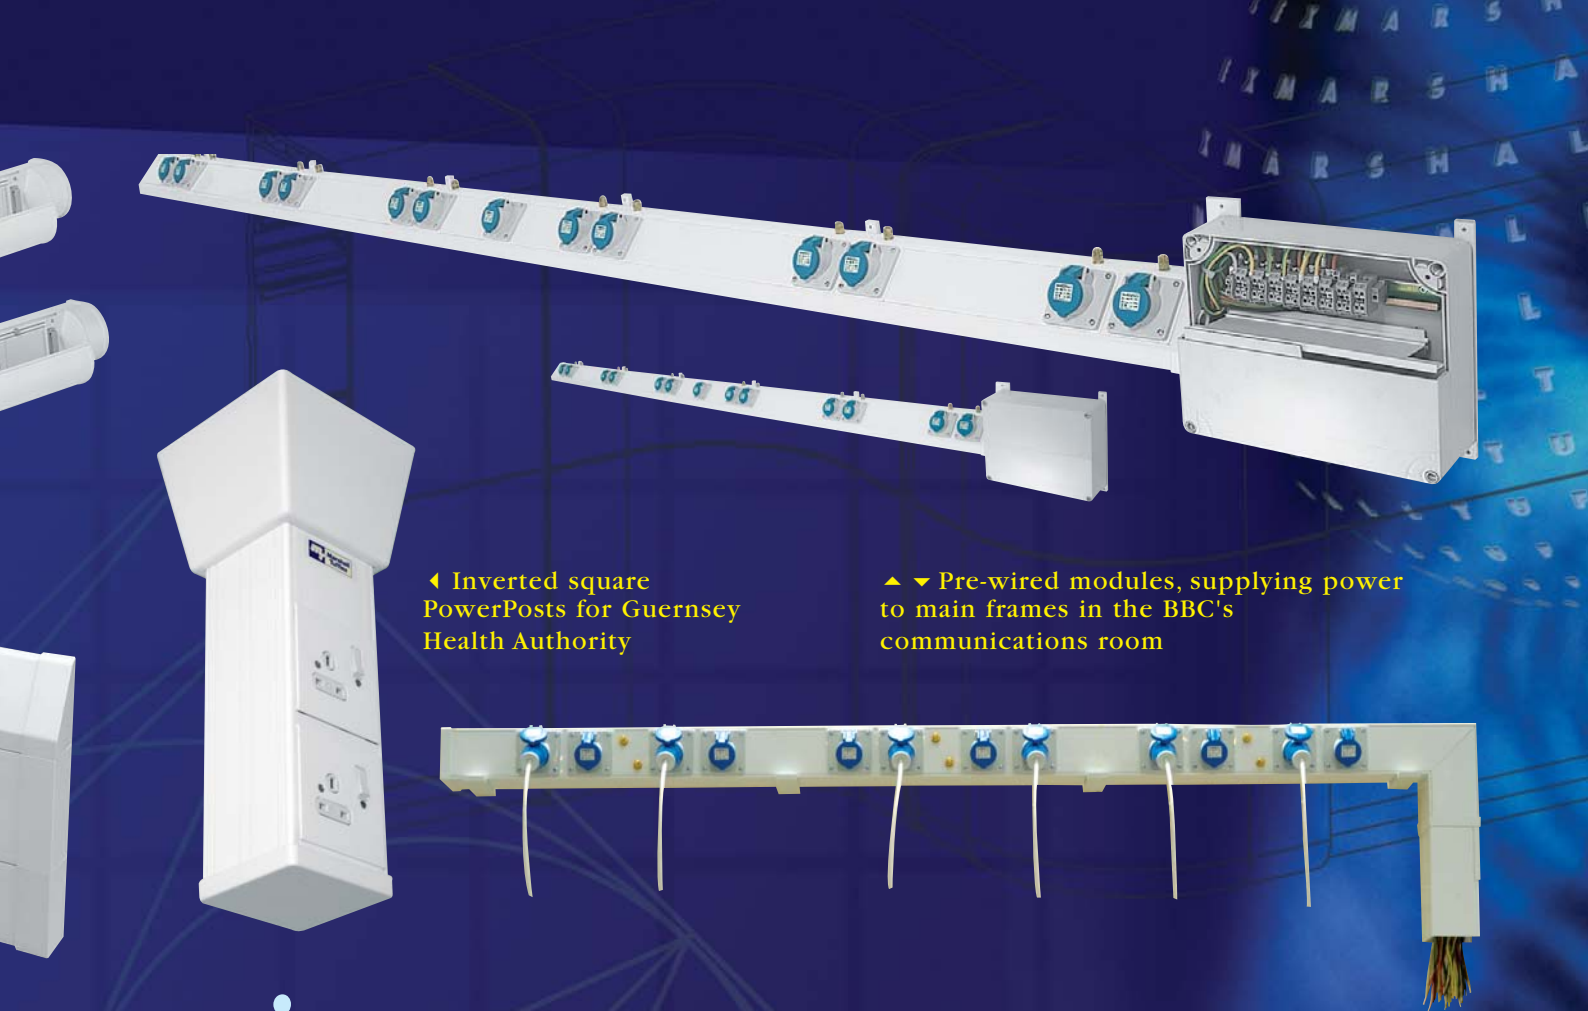

PowerPoles adapted to create elegant dado trunking with hinged lid ▼
