

Organisation and efficiency in the workplace

The Weidmüller Tool Chest

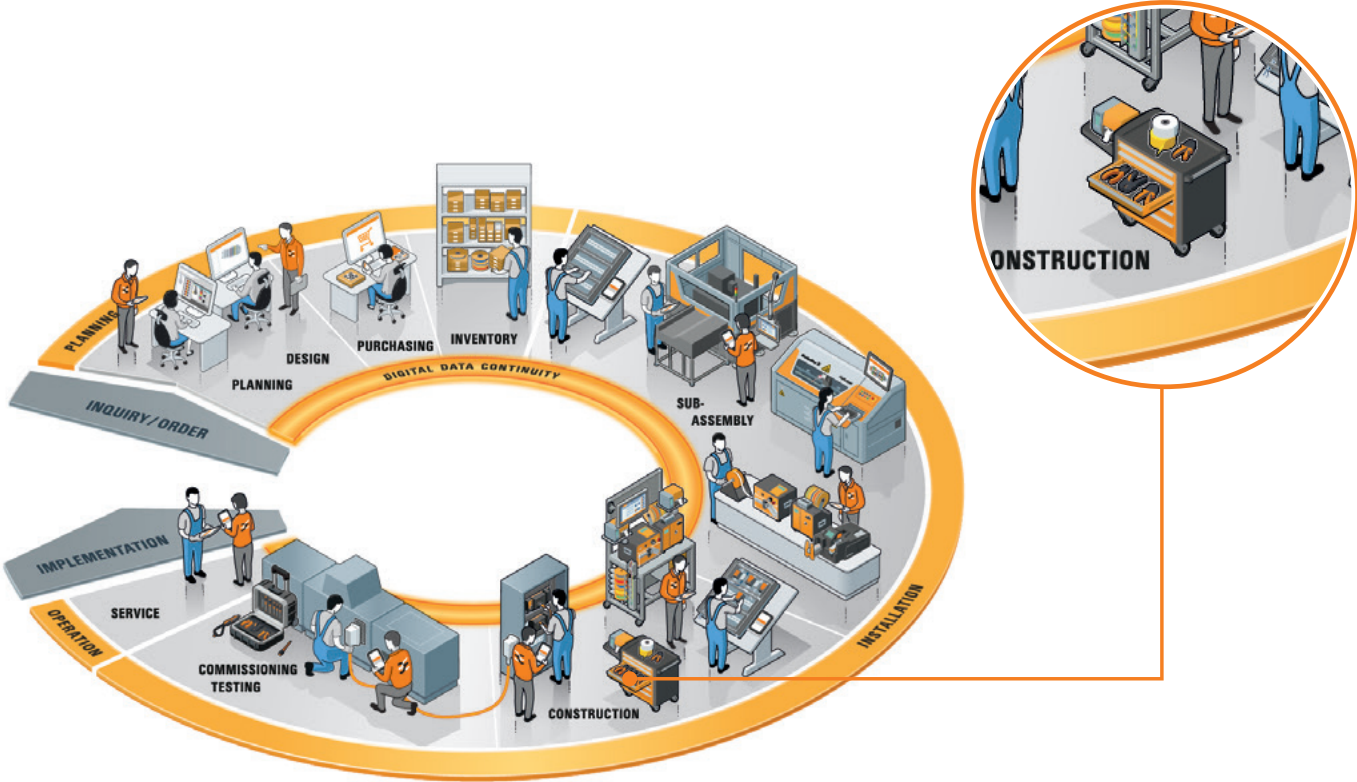

Organisation and efficiency in the workplace

The Weidmüller Tool Chest with interchangeable tool inserts

Wiring a cabinet is a time consuming process, but a very important one. With the Weidmüller Tool Chest, tools and working materials can be organised optimally for quick and efficient access at any time. This saves time and reduces costs. The Weidmüller Tool Chest combines the best quality with intelligent features, that incorporate foam inlays that are perfectly tailored to the drawers. Thanks to their three-part division, individual drawer layouts fit together so that tools are sorted according to their application. A label next to each tool cavity indicates which tool belongs in the space, this allows quick identification should a tool be missing. The incorporated QR-code links directly to relevant information for the tool including helpful application videos found in the online catalogue.

- Special features:**
- Three-part foam inserts with universal tool cavities for maximal flexibility
 - Labelling fields with QR-codes for quick identification of missing tools
 - Standard accessories allow easy expansion

With Weidmüller, you have a powerful partner at your side who supports you with optimally coordinated solutions for your workshop in all phases. Based on many years of practical experience in all aspects of control cabinet construction, we offer you a comprehensive portfolio with which you can effectively accelerate your processes and increase your quality.

Discover your optimisation potential now:
www.weidmueller.com/workplace

Simple Expansion
 Perforated side walls and an optional rear panel allow expansion of the storage possibilities thanks to standard accessories.

Great flexibility
 The three-part foam inserts enable application specific drawer layouts. The moulds of the tool inserts have a universal design making them suitable for different tools.

Distinct labelling
 Easy to read labels show the name and article number of the tool whilst indicating the correct cavity. A QR-code links to further information about the tool in the online catalogue.

Average time savings per day with Weidmüller Tool Chest

The Weidmüller Tool Chest

Organisation of tools and working materials

The Weidmüller Tool Chest offers the foundation for your mobile production station and can be extended flexibly to suit your processes. Space efficiency, functionality and optimised ergonomics characterise this new member of the Weidmüller family.

- **Optimal loads:** 40 kg per drawer, 400 kg capacity
- **Ideal space availability:** 6 drawers offer internal dimensions of 600mm x 447mm (height: 2 x 75 mm / 2 x 100 mm / 1 x 150 mm / 1 x 200 mm)
- **Full utilisation:** the fully extendable drawers with optimal heights ensure the full utilisation of the Tool Chest
- **Safety first:** the single sided locking mechanism ensures the drawers remain closed when moving the Tool Chest
- **Flexible customisation options:** perforated side and rear walls allow the easy fitting of accessories to increase the storage options
- **User friendly:** the sturdy anodised aluminium handle ensures the perfect connection to the Tool Chest
- **Fully mobile:** the fixed and swivel castor wheels (100mm) with solid rubber tyres ensure smooth movement
- **Optimised working surface:** non-slip surface and small parts compartments deliver the perfect working surface
- **Robust:** ABS plastic predeacts the edges of the Tool Chest

Weidmüller Tool Chest accessories

Additional equipment for individual applications

Perforated wall
Optional perforated rear wall made of sheet steel with square perforation 10 x10 mm.
Outside dimensions 640 x 660 mm.

Container strip
Additional container strip made of sheet steel with safety angle and a capacity of up to 15 kg.
For mounting onto perforated wall.

Side shelf
Provides additional working space of 380 x 310 mm incl. non slip mat.

Paper roll holder
The paper roll holder offers space for roles with diameter of 400 mm and a length of 360 mm.

Spray can holder
The optional spray can holder has a height of 70 mm and a width of 380 mm.

Waste bin
An additional waste bin allows cleanliness at your workplace with a 14 liter capacity.

TFT-monitor holder
To include flat screens with VESA-base plate. 75 x 75 mm or 100 x 100 mm perforations. The holder allows a stepless inclination of the monitor.
For mounting onto container strip.

Foam inserts

Maximum flexibility through modular principle

Inspired by 5S and lean management methods, Weidmüller foam inserts ensure an efficient and tidy workplace. Designed according to a modular principle, they offer many advantages and can be selected according to individual requirements:

- Large format foam insert (600 x 447 mm) with all the tools for the most frequent work processes in the cabinet
- Three-part foam inserts (200 x 447 mm) offer maximum flexibility in the individual assembly of the Tool Chest
- Free arrangement in the Weidmüller Tool Chest possible
- QR-code next to each tool leads directly to the online catalog with useful information and application videos
- All inserts are available either fully equipped and labelled or as empty version

Consumables

Perfect complementation

In addition to the right tool, the most common consumables should be available at the workplace. Nothing wastes more time and efficiency than constantly having to search for the correct small consumables. With the Weidmüller inserts A8-1 CL 55 und A8-2 CL 55 consumables are arranged in a structured manner in the Tool Chest and are therefore quick and easy to find.

A selection of the most common articles with the usual great quality standards is shown here. A larger selection can be found in our tool or online catalog

Weidmüller – Your partner in Industrial Connectivity

As experienced experts we support our customers and partners around the world with products, solutions and services in the industrial environment of power, signal and data. We are at home in their industries and markets and know the technological challenges of tomorrow. We are therefore continuously developing innovative, sustainable and useful solutions for their individual needs. Together we set standards in Industrial Connectivity.

We cannot guarantee that there are no mistakes in the publications or software provided by us to the customer for the purpose of making orders. We try our best to quickly correct errors in our printed media. All orders are based on our general terms of delivery, which can be reviewed on the websites of our group companies where you place your order. On demand we can also send the general terms of delivery to you.
