THE BENEFITS OF AURORA

3 YEAR ON-SITE WARRANTY

NEW MARKET-LEADING ON-SITE WARRANTY

Aurora offers a 3-year on-site warranty, ensuring the longevity and reliability of our products, so you can buy from us with confidence.

This is safer for you than products supplied by a third-party agent or distributor and gives you the peace of mind that the equipment is

properly designed, constructed and tested to meet the demands of long running hours.

Warranty is increasingly more important now LED is more widely used. This is because there is no longer a replaceable lamp, so in the event of failure the whole unit will need to be replaced.

This will be at your own cost if you don't have a credible warranty from a reliable manufacturer.

This is why we believe that it is only fair that we stand by the LED life potential promises with an honourable warranty.

OUR ON-SITE WARRANTY IS AVAILABLE ACROSS THE RETAIL RANGE, PLUS OTHER COMMERCIAL PRODUCTS:

DOWNLIGHTS

LINEARS

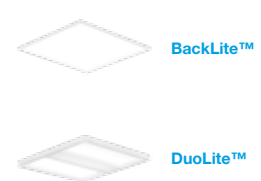

BULKHEADS

TRACK LIGHTS

PANELS

HIGHBAYS

FLOODLIGHTS

Colour switchable versatility

- 5 Year Warranty (3 Year On-Site Warranty)
- L70 50,000hrs

- Beam Angle Switchable: 24° - 60°

Range of 3 Circuit Track Accessories Available:

RETAIL CASE STUDIES

Smyths Toy Superstore Dublin, Ireland

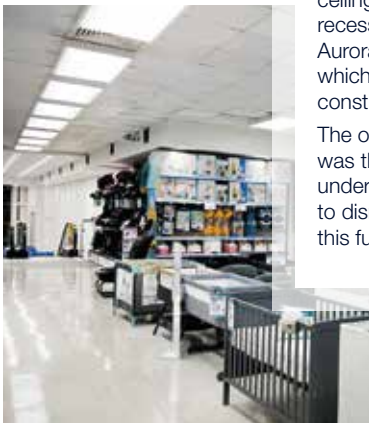

PRODUCTS USED: Panels | Surface Mount Kits | Downlights | Lamps

A SNAPSHOT

Although the site has false ceilings, it was impossible to recess fittings on the first floor. Aurora designed a new layout which limited the need for construction work to ceilings.

The only challenging aspect was that all works were to be undertaken at night, so as not to disrupt the daily workings of this fully operational store.

OUTCOME

Upgrading all old fittings to LED increased light levels to 750-1000lux, and reduced lighting energy consumption to 23,000W from over 60,000W.

Smyths was the perfect refurbishment project, with MMK Electrical Ltd. installing an excellent surface and suspension mounted solution, laser levelled on all products.

Charles Hurst Ferrari Belfast, Northern Ireland

PRODUCTS USED: Downlights | CRI90 LED Strip

A SNAPSHOT

This dealership was looking for ways to improve the customer experience, with inefficient fluorescent lighting needing to be replaced from both an aesthetic and environmental perspective.

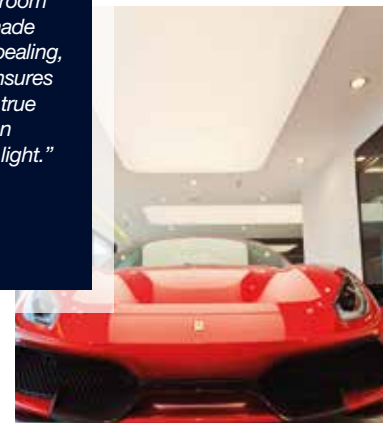

Upgrading to cleaner and greener LEDs demonstrates a clear commitment to the environment and regulations.

OUTCOME

"Improving the lighting in the only official Ferrari showroom in Ireland has not only made the showroom more appealing, the upgrade to CRI90 ensures customers see the car's true colour as it will look when driven outside in natural light."

- Ed Denny,
Aurora Lighting
