rekor HD

Introducing the new range of 1080P CCTV Kits that are packed with features, but come with an affordable price tag, making them ideal entry level products to satisfy the growing demand for reliable security solutions.

The systems have been designed with ease of set up as a key feature, including the option for remote monitoring via smartphone or tablet, using ESP's specially developed RekorHD APP.

The kits include a stylishly designed 4-channel DVR, premium quality Western Digital hard drive, cameras, camera cables, system power supply, mouse and HDMI cable.

There are a number of kit options available, including 2 or 4 camera kits, with the cameras in either a bullet or dome style and all are offered in a white or black finish. This brings a total of 8 different Rekor HD CCTV Kits available. The cameras are also sold separately.

rekor HD

1080P Dome Camera 3.6mm Lens
