AT A GLANCE

MARCH 2022

THE SUN IS RISING ON YOUR LIGHTING BUSINESS

LEDVANCE is your strong partner for versatile light that will boost your sales – with a wide range of modern LED lamps and luminaires as well as smart home lighting solutions. We offer a large number of new products to help you exploit the potential of current lighting trends.

And we provide you with fresh new impulses for your lighting business time and time again. A great example is SUN@HOME, the innovative and easy-to-use human centric lighting (HCL) system for modern homes. Get to know this new dimension in lighting quality and look forward to a wide range of lamps and luminaires that will make your business shine brighter.

GOOD LIGHT: AS FAR AS THE EYE CAN SEE

As your strong partner for innovative and multi-faceted LED lighting, we offer one of the most comprehensive ranges not just for lamps and luminaires. Other future-proof solutions such as HCL systems, electronic components, light management and intelligent products for residential and professional applications are also part of our daily business. So even when it comes to complex lighting projects, in LEDVANCE you'll have a sparring partner at your side. And what's more, you can always rely on excellent brand quality at a good price/performance ratio.

A close-up, angled shot of a red ribbon with the word "LEDVANCE" printed in white, bold, sans-serif capital letters. The ribbon is slightly curved and has a textured surface. In the background, another red ribbon is visible, also with the "LEDVANCE" logo, but it is out of focus. The lighting is soft, creating a slight shadow on the ribbon.

LEDVANCE

ONE TREND, ONE ANSWER: SUN@HOME

The pursuit of health and mindfulness has established itself among many people. What's more, many companies want their employees to carry on working from home. LEDVANCE now has a market-friendly answer to this: it's called SUN@HOME, the innovative and easy-to-use HCL solution for residential applications.

Its LED technology provides not only better light quality but also the function of adapting to people's biological rhythms. The brand new portfolio comprises a wide selection of smart luminaires and lamps as well as a free app for intuitive control.

THE FIRST LIGHT THAT ISN'T JUST SEEN BUT CAN BE FELT

The new SUN@HOME lighting from LEDVANCE – it's almost like being outside. The range is ideal for users who want more quality of life, so you can now offer a whole new type of light in your portfolio.

The lamps and luminaires reproduce natural daylight like no others so they increase not only user well-being but also performance.

SUN@HOME SUPPORTS THE BIOLOGICAL RHYTHM

LIGHT IS RELAXING AND MOTIVATING

Tired in the morning, tense and restless in the evening? Food coma and lapses in concentration in between? SUN@HOME can boost user performance at home during phases of concentration as well as well-being and balance during phases of relaxation. Automatically set the right mood at any time of the day.

08:00 am
Start the day well rested

10:30 am
Stay motivated and productive at work

02:30 pm
Focus on doing homework

07:00 pm
Wind down at the end of the day

THIS IS HOW IT WORKS: THE LIGHTING TECHNOLOGY BEHIND SUN@HOME

The unique SunLike full-spectrum LEDs in the SUN@HOME products provide maximum quality of light for residential applications. This and easy control by LEDVANCE SMART⁺ WiFi app helps support people's biological rhythms.

PERFECT FOR CONCENTRATION AND PERFORMANCE:

Brilliant colour rendering very close to that of sunlight thanks to CRI >95 – for bright, true-to-life colours.

THE FULL LIGHT COLOUR SPECTRUM:

Set the right light using the **LEDVANCE SMART⁺ WiFi** app.

The light automatically adapts to various working and living situations during the day. That means starting the morning in a relaxed sunrise atmosphere and working in Cool White light that boosts concentration. And in the evening? After a busy day, the light quality provides a cozy fireside atmosphere to prepare for a relaxing night's sleep.

EXTRA BENEFIT: HYGIENIC AIR

A bonus is that SUN@HOME lamps and luminaires have a special, transparent surface coating that reduces household germs, bacteria and bad odors. That means that it's not just the light that is better, the air quality is too.
