A photograph of an outdoor patio at night. The patio is furnished with a light-colored sectional sofa and several striped throw pillows. A dark wooden coffee table sits in front of the sofa. A patterned rug is laid out on the wooden deck. Two modern, cylindrical solar lanterns with a warm glow are placed on the coffee table and a side table. In the background, a dense garden with various plants and trees is visible. A large tree on the right side of the frame has solar string lights draped across its branches, creating a canopy of light. The sky is a deep blue, indicating twilight.

AESTHETIC OUTDOOR WALL LUMINAIRE WITH ALUMINIUM HOUSING, SOLAR PANEL AND MOTION SENSOR

- **Solar Panel:** Monocrystal 5.5V 175mA
- **Battery:** 3.7V 800mA
- **IP Class:** IP44
- **Material:** Aluminium lamp body + opal PC diffuser
- **Functions:** two working modes ON / PIR
ON: 10LM each light (upper light orange, down light 3000K)
PIR: 200LM for 30 seconds
(charge 6hrs, work 30sec 80 times)
PIR motion sensor: Detection
7 metres
Detection Angle: 100°
Sensitivity: ≤100LUX

A dramatic night scene in a driveway. A person is lying on their back on the pavement, their legs bent at the knees and raised into the air, forming a triangular shape. They are wearing blue jeans and dark shoes. A bright beam of light from a solar floodlight mounted on the wall to the left of a white garage door illuminates the person's legs and the garage door. The garage door is closed and has a grid pattern. To the right, the front of a red car is visible. The sky is dark with some clouds, and the house has dark siding. The overall mood is mysterious and surreal.

A photograph of a modern house entrance at dusk. The house has light grey horizontal siding. The entryway is framed by a wooden structure with vertical wood grain. A bright red door is slightly ajar, revealing a glimpse of the interior. To the left of the door, a circular, illuminated smart camera luminaire is mounted on the wood paneling. A concrete walkway leads to the door, flanked by gravel and small plants. The overall scene is dimly lit, with the primary light sources being the luminaire and the interior lights visible through the door.

NON-SMART FLEX RANGE

PRODUCT CHARACTERISTICS:

- Decorative colourful LED Strips for indoor use
- Strong 3M self-adhesive tape: the LED strip can be stuck to a dry, flat surface for an easy installation

BENEFITS & FEATURES:

- RGB colour control
- Cutable Strip
- Multifunctional use: Suitable for mirror, cabinet, reading table, display case, etc.
- Built-in voice receivers (VR) available that react to music and sound

APPLICATIONS:

- All kind of Indoor areas
- Entertainment Areas
- Indirect lighting

TECHNICAL OPTIONS AVAILABLE:

- TV surrounding Strip Voice Receiver (VR)
- RGB version with Voice Receiver (VR) and Remote control (RC)
- RGB and 3000K version with remote control (RC)

NEON FLEX 2M RGB USB RC

PRODUCT CHARACTERISTICS:

- Decorative colourful LED Strips for indoor use with a homogenous lighting effect, USB-connected

BENEFITS & FEATURES:

- RGB colour control
- Diffuse light appearance, single LED dots are not visible

APPLICATIONS:

- All kind of Indoor areas
- Entertainment Areas
- Indirect lighting

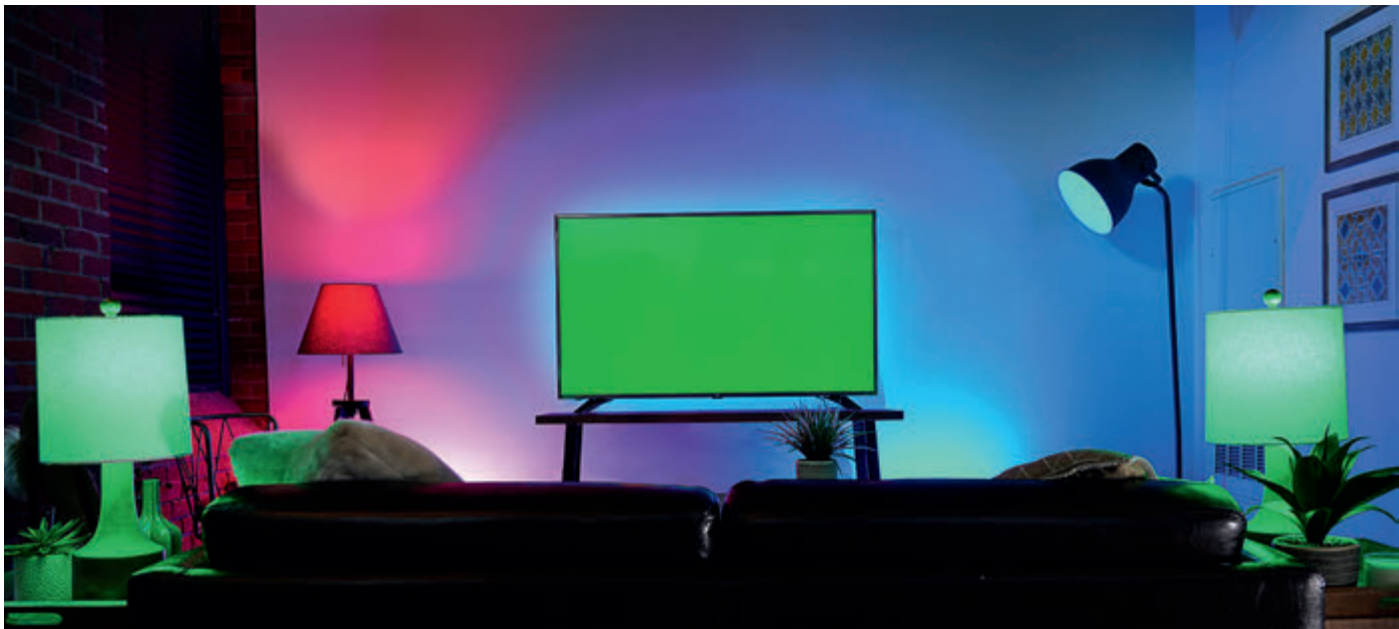

WORKS WITH:

- USB type A ports

COLOUR SENOR FLEX

PRODUCT CHARACTERISTICS:

- Decorative colourful LED Strip for indoor use
- Strong 3M self-adhesive tape: the LED strip can be stuck to a dry, flat surface for an easy installation

BENEFITS & FEATURES:

- RGB colour control
- Cuttable Strip
- Suitable for displays, TVs, laptops, etc.
- Built-in voice receivers (VR) available that react to Music and sound
- Colour sensor that detects the colour and displays it accordingly

APPLICATIONS:

- Backlight of TVs, monitors, displays, etc.
- Entertainment Areas
- Indirect lighting

RESIDENTIAL FLOODLIGHTS

SMART+ FLOODLIGHTS

SMART+ WIFI FLOOD

ROBUST FLOODLIGHTS WITH RGB FUNCTION

- **Power:** 10 - 50W
 - **Light:** 630-4250lm / RGBW / 3000 K, CRI 80
 - **Housing:** Aluminium housing in dark grey
 - **Diffusor:** Semi-frosted glass
 - **Lifetime:** 30,000 hrs
 - **IP Class:** IP44, -20...+40°C
- Connection via 0.5m cable with open wires
- RGBW / On-Off-Dim controllable via App / Speaker
- Tempered glass cover with semi-frosted finish, allowing for a very homogenous illumination

ENDURA PRO FLOODLIGHTS

ENDURA PRO FLOOD SENSOR

HIGHLY EFFICIENT OUTDOOR WALL SENSOR SPOTLIGHT WITH WIDE BEAM ANGLE IN INNOVATIVE DESIGN

- **Power:** 15W or 27W
- **Light:** 120 lm / 4000 K / Ra >80
- **Housing:** white / black, IK 05 - UV geschützt
- **Dimensions:** 100x210x225 mm / 111x205x151
- **Lifetime:** 30,000 hrs
- **IP Class:** IP44, -20...+40°C
- **Sensor:** Simple programming via potentiometer
180° sensor detection range,
up to 12m sensor range
Several settings are possible
- **Lux:** 1-1000
- **Time:** 5s -15min
- **Stand-by:** <1
- **Mounting Height:** 2,5m
- **Detection range in m:** 12m

- Easy mounting – fast fix connector plate

A photograph showing a white undercabinet light fixture mounted under a dark blue cabinet. The light is on, casting a bright glow on the white wall and the wooden countertop below. On the countertop, there are three glass jars with lids. The smallest jar in the foreground contains raspberries and blackberries. The medium-sized jar next to it contains colorful, star-shaped candies. The largest jar in the background contains what appears to be granola or cereal. The text 'UNDERCABINET LUMINAIRES' is overlaid in white, bold, sans-serif font in the bottom left corner.

A wooden shelf is mounted on a teal wall. On the shelf are four glass jars with wire lids. From left to right, they contain: yellow cornmeal, dark beans, oatmeal, and white milk. A white, rectangular light fixture is attached to the underside of the shelf, casting a soft glow. In the bottom right corner, there are several bright pink flowers.

INDOOR & OUTDOOR MOBILES

SPYLUX

LED
MODULE
INTEGRATED

STATIONARY OR MOBILE LED LIGHT WITH INTEGRATED SENSOR

- **Power:** 0.3 W
- **Light:** 18 Lumen @ 3000K
- **Housing:** White
- **Lifetime:** >10.000hrs
- **Dimensions:** 68mm x 99mm x 68mm

- Installation with adhesive tape, magnet or mounting clip (in delivery included)
- Can be used in stationary mount or mobile "to go"
- Big beam angle thanks to 70° rotatable and 25° pivotable luminaire head
- Three different modes: "On" for continuous light, "Off" and "Auto" for sensor mode
- High output warm white LEDs
- Including 3x AAA-batteries
- Spray-water-proof (IP43)

SYMBOLS IN THE TABLES

 Fig. no.	 Protection class
 Colour	 Number of switching cycles
 Housing material	 Number of lamps included
 Average lifetime in hours	 Length l in mm
 Wattage in W	 Width w in mm
 Total luminous flux of the luminaire taking into account the diffuser	 Height h in mm
 Total luminous flux of the contained light sources without the diffuser	 Diameter d in mm
 Colour temperature in kelvin	 Standard pack in pcs.
 Colour rendering index	 LED module included
 Ambient temperature range in degrees Celsius	 Type of connection
 Beam angle in degrees °	

PRODUCT-SPECIFIC SYMBOLS

   	Consumer guarantee for luminaires
      	Light colours
  	Suitable for light sources with defined base

ABOUT LEDVANCE

With business activities in over 140 countries, LEDVANCE is one of the world's leading general lighting companies. Emerging from OSRAM's general lighting division, LEDVANCE's portfolio includes LED lamps and luminaires, intelligent lighting products, traditional lamps and renewable energy solutions.
