

# PUNCHED MINI TRUNKING

Mini trunking is an economical feeder trunking system with an easily removable clip-on lid. Our MMT2 and MMT4 are now available with regular punched holes for speed and ease of installation.

- Punched holes every 200mm
- Designed for increased speed and ease of installation
- Punched holes are positioned to be compatible with Firefly fire safety clips
- Self-fixing versions available in 2m and 3m lengths
- Punched MMT2 available in white and red

These products are in addition to the Marshall-Tufflex standard (un-punched) and self-fixing (un-punched) mini trunking range.
