Introducing the Unicrimp®
corporate brochure...

Welcome to UNICRIMP®

...a comprehensive range
of cable accessories.

About Unicrimp®

Unicrimp® is the latest new business to emerge from the successful Scolmore Group® of companies. Its formation brings to the electrical contracting industry a comprehensive range of cable accessory products.

The Home of Q-Crimp®

Launched under the Q-Crimp® brand name and available exclusively through the electrical wholesale trade, the product offering comprises an extensive range of cable management consumables.

A People Business

Aligned with the core values of the Scolmore Group® of companies, Unicrimp® will offer the same levels of outstanding customer service, high quality products and commitment to new product development.

Central Location - England

Located close to the Group Headquarters in the Midlands, the new Unicrimp® distribution centre is ideally located to supply to all areas of the UK.

Providing all requirements.

All products within the Q-Crimp® range are manufactured under stringent quality control systems and are fully compliant with the very latest industry regulations. The range includes cable ties, crimp terminals, PVC tape, copper tube terminals, cable clips and nylon cable glands – providing everything required to harness cable between the consumer unit and the end accessory.

Electrical Accessories
Catalogue - Issue 2

www.unicrimp.com

The new catalogue is now available.

A unique selection of Q-Crimp® electrical accessories ranging from cable ties, PVC tapes, pre-insulated terminals, brass cable glands and tools. For a copy of the catalogue please see your Area Sales Manager or contact the sales office.

Copper Tube Terminals

- All terminals up to 240mm² will have bell mouth cable entrance
- Working temperature up to 180°C (Standard)
- Working temperature with nickel plating up to 350°C (Special)

Specification Requirements

- Finish: Electro tinned
- Copper conductivity to 97% IACS
- Copper tube double annealed

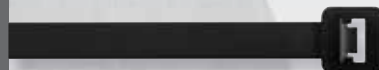

Cable Ties

Unicrimp® cable ties are produced on multi-impression tools which mould complete one piece ties with no metal parts.

They are manufactured from tough durable nylon 6/6 which has been tested to underwriters laboratory UL94V2. The material is zero halogenated and also has a low smoke and fume capability when compared with materials such as PVC, PP, PE, ABS, POM, ect. The classified oxygen index at max 28% dry is considered excellent in halogen free and L.S.F. situations.

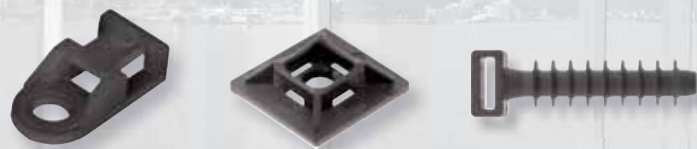

Accessories

Unicrimp® accessories are designed to incorporate the majority of features applicable to the positioning of cable ties.

Self adhesive bases, cradles, eyelets and clamps are supplied and manufactured from A.B.S. or nylon 6/6 material.

In case of self adhesive components the adhesive pads themselves have a base synthetic rubber foundation, which when applied gives a high permanent bond to most surfaces. On all applications a dual option of bolt fixings is designed into the base as a preference if required.

Pre-Insulated Terminals

The Unicrimp® pre-insulated crimps carry the UL approval, each terminal has an easy entry opening to assist with quick and efficient cable insertion.

Our barrel construction is manufactured to ensure consistent crimp performance and maximum tensile strength.

The terminals are made from electroplated tinned copper sheet and are available in 12 different styles.

PVC Tapes

General purpose non-migratory plasticised insulation tape supplied in lengths of 20m and 33m with all colours as detailed.

Tested for: Thickness, tensile elongation, adhesion, adhesion to backing, flagging, corrosive sulphur, flame propagation (CAT 2), plastic to 31/90 (PVCP), working temperature up to 80°C.

- Made from self extinguishing flame retardant PVC
- Manufactured to comply with BS EN 60454-3
- Ideal for electrical binding, colour coding and identification

Cable Clips

- Self grip design
- Chemical inertness
- Stress crack resistance
- Thick steel nails prevents snapping
- Long nail for good pull out value
- High grade tough polyethylene for low temperature flexibility

Brass Glands

A variety of AE1W, BW & CW cable glands manufactured to the latest approvals and BS 6121.

Each brass gland is available with either standard or LSF shrouds. All glands also come with earth tags and lock nuts.

Nylon Cable Glands

Our nylon cable glands are manufactured to the latest UL approvals.

Every nylon gland comes with an additional rubber washer to ensure if fitted correctly the ingress protection of IP68 is maintained at both ends of the gland. The dome top compression nut has the new ratchet lock system to help maintain a secure grip on the cable.

Tools

A comprehensive range of cutting and crimping tools compatible with Unicrimp® copper tube and pre insulated terminals.

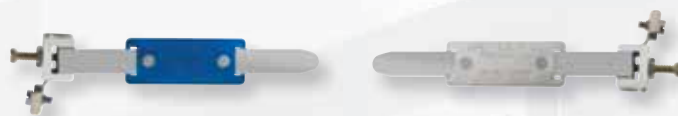

Earth Clamps

High quality earth clamps suitable for wet and dry installations, tested and approved to the latest BS951 standards.

There are two different colours for the earth clamps so distinguishing between the wet and dry clamps is easy.

Fixings

All the packs are delivered in euro slot packaging with 10 packs in a cut case shipper, giving the branch a choice of hanging or shelf display. These products are normally hidden away in the back of the stores, this gives a real chance to increase revenue.

Sleeving

We now offer a quality range of reeled sleeving in green/ yellow, brown and blue in sizes from 2mm to 4mm.

Another addition to the sleeving range is our heat shrink packs in harmonised colours.

Manufactured to the highest quality levels in our industry.

Design & Manufacture

Our Product Development Team are constantly tracking market trends, building regulations and approval standards so we can increase our product range to meet the ever-changing needs of our customers.

Unicrimp® prides itself on the innovative new products we are constantly developing which enhance the comprehensive ranges available.

Accreditations

All Unicrimp® products are manufactured to the highest quality levels in our industry and comply with all relevant British and European standards. Guarantees of up to 20 years against materials or manufacturing faults show how confident we are in our product design and quality.

All relevant documentation is available to prove that we are fully compliant with all the required standards.

Refreshed Website | unicrimp.com

The refreshed new site provides customers with access to detailed product information for the company's extensive Q-Crimp® branded range of cable management consumables, which includes cable ties, crimp terminals, PVC tape, copper tube terminals, cable clips and nylon cable glands.

Stockists can also take advantage of a comprehensive product image library, plus a range of literature covering every product category - all available to download at the click of a button. Visitors can keep informed of the latest new products and company developments via regular updates on the news section.

Regular news, product & video updates

With regular updates on new products and details of developments within our business, the site is a great source of information.

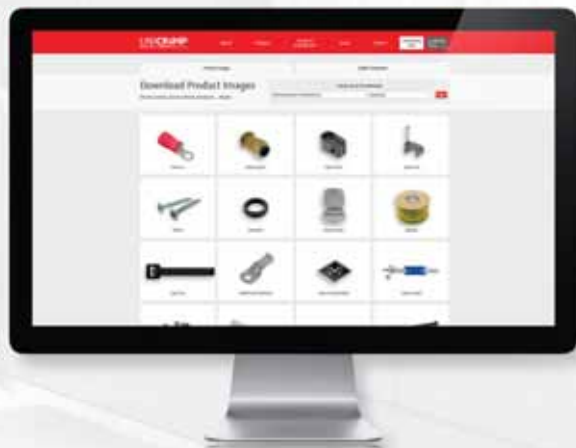

The full Q-Crimp® range

The full product range can be found online with specific information about each product and access to the latest catalogue.

Marketing Hub | unicrimp.com/product-images

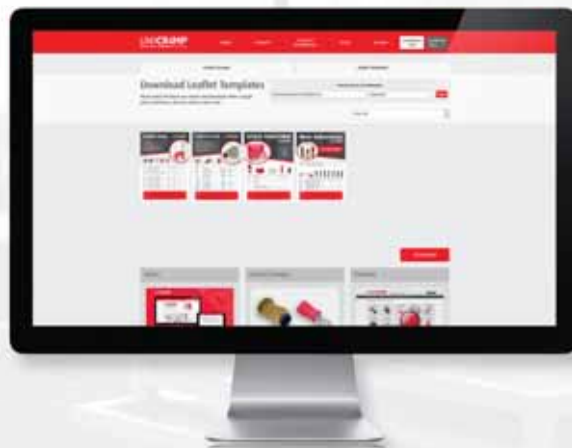

A brand new feature of the revamped site is the Marketing Hub area which provides Unicrimp® stockists with a range of tools to enhance their own marketing facilities. The Marketing Hub gives customers the opportunity to enhance their own Marketing facilities with very little effort or cost.

A number of templates featuring some of the most popular products is available to download and these can be customised with the stockists own details to optimise sales opportunities.

Full product image library

Download all of our product images, all saved by product code and at a perfect resolution for your website.

Print ready editable promotional leaflets

Promotional leaflets available for your download, with editable sections so you can add your companies details.

Customer Support

"At Unicrimp® the whole business is focused on the customer. We aim to provide market leading levels of service and customer support. Our forward thinking and investment for the future together with our dedicated employees enable a dynamic working environment that provides the platform for continued growth."

Ian Hunter
Sales & Commercial Director

Stock

We understand the importance of stock availability and are committed to having 100% stock availability at our central distribution centre at any given time.

Warehouse / Service

Our centrally located 150,000sq ft Warehouse and Distribution Centre allow us to deliver our products on time every time.

Product Development

Unicrimp® products are designed with our customer / the installer very much in mind. Our purpose built facilities and dedicated product development team, based in the UK allow us the flexibility to design and develop these products based on customer feedback and market research, ensuring we are producing a relevant, reliable and quality range of products.

In-House Studio

All marketing support including product literature and point of sale material is designed by our dedicated in-house design studio. This facility enables us to offer bespoke marketing support to our customers.

Distributor Network

Unicrimp® distributes exclusively through the electrical wholesale trade. These include Independent Wholesalers, National Wholesale Groups and Buying Consortiums making the products readily available throughout the UK.

Sales Office

Based alongside our distribution facility this busy sales office provides a central point of contact for all customer service requirements.

The professionalism skills and knowledge of our internal sales team enables us to provide the high standard of service that we know our customers expect. Our on-line ordering facility is also managed within this office.

ESP® (Elite Security Products) Ltd is a market-leading supplier of a comprehensive range of electronic security and fire protection products.

Formed in 1985, the company focused its attention on providing innovative solutions for the evolving security market.

The emphasis of activity has been on the development of security related products specifically for the UK electrical trade. We have been keeping a close eye on the new technology that is emerging from the professional security sector and gauging the right time to introduce it to the electrical contract market.

In January 2012 ESP® was acquired by the Scolmore Group®. The arrangement sees the company continuing to trade as an independent entity in all of its major functions, whilst at the same time seeking to create strong growth over the coming years by utilising the experience and support of Scolmore®.

ESP's comprehensive portfolio includes Exterior Deterrent systems, CCTV, Access Control, Video Door Entry and a growing collection of conventional and addressable Fire Alarm products.

Formed in 1989 Scolmore® International Ltd have become a significant force in the electrical accessory market. Scolmore® are proud to be a British based, family-run business, with an excellent track record of listening to what their customers need and providing the right solution every time.

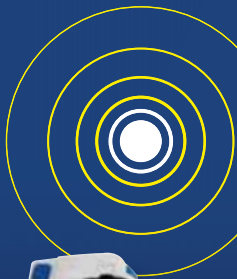

Based in the Midlands at the purpose built 100,000sq ft Head Office and Distribution Centre, they are ideally located to design, develop, manufacture and distribute the ever-expanding product range throughout the UK.

Through their own brand of Click® electrical and lighting products, they are committed to providing a comprehensive range of reliable, high quality and competitively priced products to their customers, whilst also offering a bespoke design and manufacture service to ensure they provide exactly the right solution and product for any installation or project. They're proud to say their customers can trust Click® to get the job done!

Their New Product Development Team are constantly tracking market trends, building regulations and approval standards so they continue to increase their product range to meet the ever-changing needs of their customers.

Scolmore Group

Click® Lighthouse

OVIA™ ELECTRICAL

Click® Lighthouse is a joint venture operation between Lighthouse Accessories Ltd and Scolmore® International Ltd.

Click® Lighthouse supplies a comprehensive range of domestic and semi commercial light fittings to the Electrical Wholesale market within Southern Ireland. We work in proud partnership with Scolmore® International and supply a complete range of the market leading “Click” family of wiring accessories.

The Click® Lighthouse range of Wiring accessories and Lighting products are supplied exclusively via the electrical wholesale trade and a network of approved stockists nationwide. All products are stored in our modern distribution facility based in Sandymount Industrial Estate, Dublin 18.

We strive to uphold our reputation for excellent service, high quality products and competitive pricing.

With the incorporation in 2012 of Ovia™ Electrical, the Australian electrical market welcomed one of the most respected and successful names in the wiring accessories, lighting and security industries - Scolmore® International Ltd.

Now in its 27th year, Scolmore® International is today one of the UK's leading manufacturers of electrical accessories and lighting products and has earned a reputation both here and around the world for quality, innovation and service.

Key to the continued success of the Scolmore Group® is a commitment to new product development, which combines the very latest in technological advancements with cost-efficiency and ease of installation, to help contractors remain competitive and keep installers ahead of the game.

Operating as a privately owned company with head office and warehouse facilities in Melbourne, Ovia™ Electrical aims to bring to the Australian electrical market a comprehensive range of quality, environmentally-responsible products including Wiring Accessories, Home Automation, low energy LED Lighting and External Area Security Protection.
